HUBBUCK'S PATENT WHITE ZINC PAINT.

White Zinc Paint made by Hubbuck's Patent Process completely resists the Atmosphere of large Towns, Brigs Water and Gas under every form

THE Suspension Bridge over the Thames at Charing Cross was painted in 1853 with Zinc Paint made by this Process, and in 1857 the Company's Inspectors state—"It is found to have completely resisted all Atmospheric and other influences the iron work being thoroughly protected the Paint is as perfect as when the work was finished. It incontrovertibly establishes the applicability of ZINC PAINT to outdoor work."

ADULTERATION.—Several Paint Grinders have been selling Zinc Paint adulterated with Sulphate of Barres, some even to the extent of thirty per cent. No workman can produce good work with inferior material. Those who have once used the Patent Zinc Paint will never willingly use any other Paint for their best work.

CHEAPNESS.—Not only is it cheaper per hundredweight, but two hundredweight of this Paint, with six gallons of Oil, covers as much surface as three hundredweight of White Lead and twelve gallons of Oil.

Each cask is stamped **HUBBUCK LONDON PATENT**

Inferior Zinc Paint so marked having been sold in Foreign markets, the Patentees offer a reward of Fifty Pounds for information which shall lead to the conviction in an English or Colonial Court of those who have painted their mark. It is to be observed that the seller is also liable to prosecution.

THOMAS HUBBUCK & SON,

White Lead Oil Paint and Varnish Works 24 Lane Street London

Among the tests to which it has been subjected has been that of painting the hold of a sugar cask, which after a voyage to St. Helena and back, found after washing, to be as white as the first day. The paint was applied.—*John Bull* September 14 1856

Certificate of the Survey of the Iron Ship Thomas Hamilton.

Glasgow 7th August 1865

GENTLEMEN.—Object in writing to you is to call attention to the state of the frames and plating of the iron ship *Thomas Hamilton*. This vessel when built eight years ago was coated inside and outside with your Zinc Paint. The coating has never been renewed.

From the reports on other ships I see that age has led to fear that both the plates and rivet heads might be aged and decayed. I myself this ship having had frequently Sugar cargoes home from India and Molasses from the West Indies.

When the ship was open for sale and at the inspection of Lloyd's Surveyors in London, my pleasure was to see the state of those gentle on Messrs. Russell and Lyons to find that both the frames, plates and rivet heads were as good as the day on which they were coated when the ship was building. In fact, to use the expressive words of the Surveyor nothing could be better.

The reason the plates rivets and frames were no doubt good originally but the high state of preservation I attribute to having had them coated before any and every kind of harm on them with your Zinc Paint.

Messrs. HUBBUCK AND SON London

I am Gentlemen yours very truly

THE safest and best remedy is that marvellous remedy known as CHLORODYNE which was discovered by Dr J Collis Browne M.R.C.S.L. (Ex Army Medical Staff) and the SECRET OF ITS RECIPE CONFIDED ONLY to J. T. DAVENPORT pharmaceutical chemist 33 Great Russell street Bloomsbury square who is the sole manufacturer. Medical testimony furnished by the highest authorities in Military Naval and Civil practice and numerous gratifying statements from the public generally establishes this property as invaluable. It relieves pain soothes the system inducing refreshing and soothing sleep without producing or leaving any unpleasant effects like opium and may be taken at any time in a few drop doses.

Extracts from the General Board of Health London as to its efficacy in Cholera—3rd Stage or Collapse—In all cases restoring the pulse. So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases.

From Dr Andrew Smith Director General Army Medical Department— I have seen it used and apparently with much advantage.

From W. Vesalius Pettigrew M.D.— I have no hesitation in stating that I have never met with any medicine so efficacious as an antispasmodic and sedative. I have used it in Consumption Asthma Diarrhoea and other diseases and am perfectly satisfied with the results.

From Dr M. Millman of New Galloway Scotland— I consider it the most valuable medicine known.

Dr McGrigor (of late Army Staff) says— It is a most invaluable medicine.

Dr Gibbon Army Medical Staff Calcutta— 'Two doses completely cured me of Diarrhoea.

Sold only in bottles at 2s 6d and 4s 6d by the sole Agent and Manufacturer T. DAVENPORT 33 Great Russell street Bloomsbury square London and with Professional Testimonials enclosed. None genuine without the words Dr J Collis Browne's Chlorodyne engraved on the Government Stamp on each bottle.

KEATING'S COUGH LOZENGES

A SAFE AND CERTAIN REMEDY FOR COUGHS, Colds, Hoarse-ness, and other Affections of the Throat and Chest. In Inflammation, Consumption, Asthma, &c. they are unfailing. Being free from every hurtful ingredient, they may be taken by the most delicate female or the youngest child.

Extract from a letter recently received from New Zealand

"Auckland N Z Nov 18 1858"

* * * A lady to whom I gave some of your invaluable Cough Lozenges and likewise several members of her family who were troubled with severe coughs and colds (especially the youngest child who had a hard croupy cough) have experienced great relief and speak of them in the highest terms. One of my children too who was troubled in a like manner has taken them with the greatest advantage. On account of their pleasant taste children will readily take them, when they will not take other medicines. I may add that the lady above referred to informed me that she had frequently purchased them when residing in India, of Messrs. Treacher & Co. Bombay.

Copy of a letter from the late Col. HAWKES, (the well known Author on "Guns and Shooting" "Landscape Drawing" near "The Church House")

"Sir, — I cannot resist forming you of the extraordinary effect I have experienced by taking only a few of your LOZENGES. I had a cough for several weeks that defied all that had been prescribed for me, and yet I got completely rid of it by taking about half a small box of your Lozenges which I am the only one that relieves the cough with in decreasing the stomach or digressing organs. — I am Sir your humble servant,

"P. HAWKES."

TESTIMONIALS.

FROM A GENTLEMAN AT ALDERHOT

"I am obliged to you for sending me the Persian Insect Powder, and enclose 14 stamps for it. I this morning rubbed about a half-spoonful on a long-haired ant and it certainly had a most surprising effect on the beast, killing them immediately without in the least irritating the dog."

FROM A GENERAL OFFICER AT ALDERHOT

It is unnecessary to enlarge on the advantages which a Publication like the **ADVERTISER** offers to the Commercial and General Public of the Bombay Presidency It may suffice briefly to suggest the following —

- 1 Being exclusively devoted to Advertisements it is specially sought and consulted by those requiring the information which it supplies
- 2 Being unaffected by the preferences and prejudices professional or personal which influence the distribution of a Newspaper the **ADVERTISER** addresses itself alike to all classes and is equally distributed over all parts of the Presidency in the Civil Station the Military Cantonment and the Commercial Town
- 3 As the Scale of Charges is based upon that now adopted by the Daily Newspapers to the other advantages offered by the **ADVERTISER** may be added that of embodying those afforded by advertising in all the other Papers and at a greatly reduced cost

ADJUSTMENT OF THE CALENDAR

Julius Cæsar was the first to attempt to adjust the length of the year with any degree of accuracy and fixed it at 365 days 4 hours introducing a day at intervals of four years (called Leap Year) which accordingly consists of 366 days, while the three others are only 365 days each.

From him it was called the Julian Year and it continued in general use till the year 1582 when Pope Gregory XIII undertook to rectify the error which then existed between the Julian year of 365 days and the solar year of 365 25225000 days. At that time the difference amounted to ten days. He accordingly commanded the ten days between the 4th and 15th October in that year to be struck out, so that the 4th day was called the 15th. This alteration has been introduced throughout Europe except in Russia and by the Greek church and the year was afterwards called the Gregorian Year or New Style.

In England the method of reckoning after the New Style was not admitted into the Calendar till the year 1752, when the error amounted to nearly 11 days, which were taken from the month of September by calling the 3rd of that month the 14th and it was settled by Act of Parliament (24 Geo II. 1751) that the years 1800 1900 2100 2200, 2300, and every hundredth year of our Lord which shall happen in time to come shall be computed as each consisting of 365 days only except in every fourth hundredth year whereof the year 2000 should be the first.

By the same Act of Parliament the legal beginning of the year was changed from the 1st of March to the 1st of January so that the succeeding months of January February and March up to the 31st day which by the Old Style would have been reckoned part of the year 1752 were reckoned as the three first months of 1753 which is the reason we sometimes meet with such a date as—

MARCH 1ST 1774-5

that is, according to the Old Style it is 1774 according to the New 175

CHRONOLOGICAL CYCLES

Golden Number	2	Dominical Letter	D
Epoct	11	Roman Indiction	6
Solar Cycle	28	Julian Period	6576

The Solar Cycle or Cycle of the Sun is a period of 28 years after which all the Dominical Letters return in the same order as they did during the 28 years before. The first year of the Christian Era was the 16th of this Cycle.

The Lunar Cycle, or Cycle of the Moon commonly called the Golden Number and sometimes the Metonic Cycle, (from Meton an Athenian who invented it about 433 years before the Birth of Christ,) is a revolution of 19 years in which time the conjunctions, oppositions, and other aspects of the Moon are within an hour and a half of being the same as they were on the same days of the months 19 years before. The prime or Golden Number is the number of years elapsed in this Cycle. Before the Birth of Christ 7 years of this Cycle had elapsed.

The Roman Indiction is a period of 15 years used by the Romans for the time of taxing their provinces. Three years of one of these Cycles had elapsed before the Birth of Christ.

The Julian Period contains 7980 years and arises from multiplying together 28, 19 and 15 being the Cycles of the Sun, Moon and Indiction. This was contrived by Joseph Justo Scaliger in 1583 for Chronological purposes and is assumed as a fixed era in calculations by all Astronomers and Chronologists throughout the Christian world. Its beginning is placed 716 years before the usual date of the creation of the world, or 4714 before the commencement of the Christian Era.

RULES TO KNOW WHEN THE MOVEABLE FASTS OCCUR.

Easter Day, on which the rest depends is always the first Sunday after the first full moon which happens after the 21st day of March. If the full moon happens upon a Sunday *Easter Day* is the Sunday after. *Advent Sunday* is always the nearest Sunday to the Feast of St. Andrew whether before or after.

Ascension Sunday is five weeks after Easter
Ascension Day, is forty days ditto

1st Sunday is seven weeks after Easter
Trinity Sunday is eight weeks ditto

Explanation—Look for the year in the first part of the table and opposite it will be found the Dominical letter. When there are two letters together the first is for January and February the second for the rest of the year. In a line with the month in the second part of the table find the dominical letter of the year and down the same column with the letter find the day of the week and the figures on the left give the day of the month. Thus for the Sundays in Sept. 1863 Opposite 1863 is the 3rd Col. is D in the 5th. In a line with Sept. find D and descend the column to "Sun" —on the left is 6, 13, 20 and 27 the required dates

To find the Age of the 14th day of August. Take from this table the age of the last day of July and add 14,—total 226. In Leap Years, 1 must be added for the months after February

OBSERVATIONS ON THE TIDES

The waters of the ocean are observed to rise and fall by a regular daily movement of *flux* and *reflux*. These periodical oscillations are occasioned by the difference of the attractive forces exercised by the sun and moon on the solid parts of the earth* and on its surrounding oceans, which produces two *flood* tides or *high waters*, and two *ebb* tides or *low waters* in the time between two consecutive passages of the moon over the meridian that is, in the course of a lunar day of 24 hours 50½ minutes; hence the mean retardation of the tides from one day to another is 50½ minutes on the solar time. But this interval is subject to irregularities which depend principally upon the moon's angular distance from the sun. Again the mean interval between two successive flood tides is 12A. 25m. but the intermediate low water does not take place always in the middle of the interval:—in many places, and especially in narrow seas and bays, the tide takes considerably more time to fall than to rise.

The effect of the action of either the Sun or the Moon on the waters of the sea is the production of a wave which follows the luminary westwards. The height of the wave produced by the sun is considerably less than that of the one raised by the moon. The periods of these waves about the globe corresponds with the solar and lunar days respectively. And sure they concur at the syzygies, they are 90° apart at the quadratures, and hence, the lunar tide then occurs at the time of the low water of the solar tide; thus the highest tides must occur soon after new and full moon when the forces of both luminaries act in the same direction; and the lowest tides about the quadratures, when the height of the lunar wave is diminished by that of the solar wave,—the luminaries then acting at right angles. The former are called *Spring* and the latter *Neap* tides. Between the conjunctions and quadratures the effect of the solar tidal wave is more or less to increase or diminish the height of the lunar tidal wave. The heights of the tides also vary with the declinations and distances of the luminaries, the greatest tides occurring when they are nearest, and pass most nearly vertically over the place of observation. The distance of the moon has always a marked influence on the height of the tides, and it varies in the ratio of 59 to 111. Also, the highest tides occur at the equinoxes when the moon is in perigee and very near the equator and the lowest at the solstices, when the moon is in apogee and has the greatest declination. Moreover the higher the flood tide rises, the lower the ebb falls.

The agitation of the sea caused by the wind only affects its surface to an inconsiderable depth whereas the tide wave affects the whole depth of the oceans nearly equally from the bottom to the surface. In shallow seas its action on the bottom is often very violent, but it diminishes in an inverse ratio with the depth. The currents which form the wave run most rapidly at the times of flood and ebb but the times of most rapid rise and fall in the tide, are those of "slack water" when the currents at the place cease, because they then begin to set on to, or out from the place equally in opposite directions. The velocity of the tidal wave also varies inversely with the depth,—running with the greatest rapidity in deep open seas, the height and force of the wave increasing as the rate of advance diminishes with the gradual shoaling of the bottom and the approach of the shores. It has been remarked that the retardation of the tides is not equable but is much greater when the moon is in quadrature than at the syzygies. In fact the tidal day at the times of conjunction and opposition is really about 56 minutes shorter than at the times of the quadratures and it is only at the oceans that the tidal day is equal in length to the lunar day. This variation in the intervals between the tides is called the *lagging* or *pruning* of the tides according as they fall behind or before the mean time of return. The tide day at new and full moon, is thus about 24hrs. 35min., and at the quadratures it is 24hrs. 25min. nearly now the moon's mean motion from the sun is about 50½ minutes in a day and the smallest retardation, about the times of conjunction is nearly 35 minutes. Hence, if *M* denote the moon's disturbing force in producing the tides, and *S*, the sun's, —we have, by a known proportion,—

$$M : S :: 35^m : 50\frac{1}{2}^m - 35^m \quad 226 \quad I \text{ nearly}$$

Or since the tide day near the quadratures is about 24hrs. 25min, the lunar day being 24A. 50½m. we have thus,—

* Whilst this is passing through the press I learn that Professor Wm Thomson has published a paper on the rigidity of the earth, shewing that it must be greater than that of steel or glass because, if not, it would yield so much with the movement of the oceans, that the difference in the heights of the tides would be hardly perceptible. This gives an additional interest to tide observations, especially such as are calculated to shew whether the bi-monthly tides exert any extraordinary influence or not.

M S $25^A 25^M - 24^A$ $25^A 25^M - 24^A$ $50\frac{1}{2}^M$ or $2\ 40\ 1$, nearly

Moreover since the retardations at the syzygies and quadratures are respectively 35min and 85min. we have also—

$$M - S \quad M + S \quad 35 \quad 85$$

and hence— M S $85 + 35$ $85 - 35$ or $2\ 4\ 1$

Lastly at the ortants, that is, when the lunar and solar day are equal the moon's elongation has been observed to be about $12^\circ 30'$ hence also by a known theorem—

$$\frac{B}{M} = \sin 2 \angle \text{elongation} = \sin 25^\circ = \frac{1}{2.048} \text{ nearly}$$

The ratio of the disturbing forces, as obtained by these different methods is nearly the same; and it agrees very closely with other calculations from data independent of the phenomenon in question Mr Adams finds the moon's equatorial horizontal parallax to be 3422".325, and Encke fixes the sun's at 8.5776; and if we employ these and Laplace's value of the mass of the earth, with each of the four ratios above we find the moon's mass from the above ratios to be—

$$\frac{1}{79.2} \quad \frac{1}{77.8} \quad \frac{1}{76.6} \quad \text{and} \quad \frac{1}{6.4}, \text{ respectively}$$

Now M Damoiseau in his Theory of the Moon, employs the value $\frac{1}{77.2}$ as derived from the theory of the Precession of the Equinoxes, with which the average of the above values agrees very remarkably. Mr Bailly however gives the ratio of the mass of the moon to that of the earth as $\frac{1}{79.49}$, and more recently Mr Adams, from M Peters's value of the

Nutation, finds the moon's mass $\frac{6}{143}$ of the earth's nearly*. From this it is inferred that the ratio of the forces of the sun and moon in producing the tides, can scarcely be less than that of 1 2.2 (or 5 11) nor greater than that of 1 2.6 (or 5 13). This however only corresponds to the mean intensities. The disturbing action of the luminaries varies in the inverse triplicate ratio of their distances. Therefore if the ratio 1 2.2, as being derived from some of the more recent determinations, be taken as the mean value of this ratio we have the following extreme values—

	M	B
Apogean	0.9505	1.8575 or 1 1.46 nearly
Mean	1	2.2
Perigean	1.0612	2.6822 or 1 2.46 nearly

Hence the ratio may vary from 0.9505 2.6822, or nearly 1 2.72, to 1.0612 1.8575 or 1 1.77 nearly. It must be remarked however that this supposes both the sun and moon to be together on the equator which can never happen for any length of time.

From the mean ratio, just derived, we infer that the mean height of the spring tides is to that of the neap tides nearly as 2.2+1 2.2-1 or as 8 3,—more nearly as 159 52 from the observations at Great Laplace deduced the proportion of 136 to 62, or nearly that of 7 to 3,—which, with the other constants already employed would give $\frac{1}{K}$ for the Moon's mass. Elsewhere he again finds, from more numerous observations, the proportion of the solar and lunar forces to be 1 2.35328, whence the relative heights of the spring and neap tides would be inferred to be as 57 to 23 nearly and the moon's mass $\frac{1}{76.94}$ of that of the earth which agrees better with theory.

Owing to the position of the Continents, the phenomena of the tides is still farther complicated. In each of the three great oceans partial tides are produced which combining with the tidal wave from the Southern Ocean (where alone it can circulate freely round the earth) run to the North-West until they are destroyed or broken up by the interfering islands and continents. The effect of the coasts is evidently such that, were the action of the luminaries suspended the tide wave would probably be entirely confused and broken up by the time it had performed a single revolution. Hence any tide may be considered as principally dependent on the

* In some recent publications the value of the moon's mass is given even as small as $\frac{1}{87}$ but owing to the want of facilities for reference in Bombay I have been unable to determine on what authority it rests. Indeed, so difficult have I found it here to obtain access to ordinary works of reference that I have been obliged to confine myself for constants entirely to the books in my own possession.

actual position of the sun and moon at the time and every variation in the disturbing force is propagated in the successive tides and may be noted at every port it reaches,—but later at each, according to the longer time required to reach it, and latest in those seas which like the German ocean, have a pretty high latitude and are much shut out by land from the great basins. Thus the highest spring tide is not the one which immediately follows the conjunction or opposition of the luminaries, since it frequently requires a day or a day and a half, to reach the port the highest tide on the southern coasts of India, at the Cape of Good Hope and St. Helena, accordingly is the second after new and full moon on the coasts of Spain, France, and the West of Ireland it is the third; and at London and the ports of the German ocean, it is the fourth after the syzygy which is the highest. The interval occupied between the moon's passing the meridian and the occurrence of the tide which follows either syzygy at the time of the equinoxes, when the Moon is at her mean distance from the earth has been called the *Establishment of the Port*. The Establishment of the Port, then, is the retardation of High Water on the time of the moon's meridian passage at the time of an equinoctial syzygy. Thus the Establishment of the Port of London is 2 hrs 7 min. It is a constant of the greatest importance in the computation of the times of high water and can only be accurately ascertained by long continued and careful observations at each port.*

It is not necessary here to enter into the analysis by which the formulae for the calculation of the tides have been deduced. Laplace, in his *Mécanique Céleste* (tome II p 289) has given a formula for the time of high water which is essentially the same as the following—

$$\tan 2(h - \lambda) = \frac{m \cos^2 \Delta \sin 2(h - \lambda - \lambda + \lambda)}{m^2 \cos^2 \Delta + \frac{m}{r} \cos^2 \Delta \cos 2(h - \lambda - \lambda + \lambda)}$$

$$= \frac{\sin 2(h - \lambda - \lambda + \lambda)}{\frac{m r^2 \cos^2 \Delta}{m r^2 \cos^2 \Delta + \cos 2(h - \lambda - \lambda + \lambda)}}$$

In which m represents the mass of the sun
 r the distance of the sun from the earth
 Δ the sun's declination
 h the sun's hour angle

and the same letters with a dash the corresponding quantities with reference to the moon λ and λ being constants to be determined for each port from the observations. For the height of the tide the formula is—

$$H = B \left\{ \frac{m}{r^3} \cos^2 \Delta \cos 2(h - \lambda) + \frac{m}{r^2} \cos^2 \Delta \cos 2(h - \lambda) \right\}$$

B being a constant determined by observation at the port.

In higher latitudes the declinations of the luminaries might be neglected without causing any very great error but not so for ports in tropical latitudes.

When from sufficient observations the values of λ and $\lambda - \lambda$ have been carefully determined the tides for a port may be computed with very considerable accuracy

The mean value of $\frac{m r^2}{r^3} = \frac{R}{M}$ has already been shown to be about $\frac{1}{32}$ or probably not less than $\frac{1}{34}$ and since the distances, horizontal parallaxes, and angular diameters of the same body have constant ratios,—putting P for the Horizontal parallax and d for the Semidiameter we have—

$$\frac{m r^2}{m r'^2} = \frac{m P^2}{m P'^2} = n \frac{d^2}{d'^2}$$

Taking $d = 961''$ 32, the sun's semidiameter according to Airy and

$$\frac{\sin d'}{\sin P'} = 273114 \text{ according to Adams.}$$

* The value employed for the Establishment, in the calculations made at the Celestial Meteorological Observatory in Bombay is 11 h 2 m; but this does not agree with observation in the harbour—the Establishment for the harbour is probably about 11 hrs 45 m. or 11 h. 20 m.

$$\text{And } \frac{m^2}{m^2} = \frac{2}{354936 \times 168} \times \left(\frac{91 \cdot 25}{9376} \right)^2 \times \frac{49 \cdot 0074 \times 2}{d^2} \\ = \frac{1406870 \times 49 \cdot 0074 \times 2}{3597186 \times d^2} = 2 \cdot 39244 \frac{d^2}{d^2}$$

To tabulate these results—

$$\text{Put } A = \log 2 \cdot 39244 \frac{d^2}{d^2},$$

$$A = \log \frac{\cos^2 \Delta}{\cos^2 \Delta},$$

$$\text{and } \log A = A + A -$$

then the formula for the time of high water becomes—

$$\tan 2 (h - \lambda) = \frac{\sin 2 (h - \lambda - \lambda + \lambda)}{A + \cos 2 (h - \lambda - \lambda + \lambda)}$$

These may now be reduced tables of the following form—

Arguments—Log A and difference of R. A. of the Sun and Moon— $\lambda + \lambda$

[illegible]

The hour of the passage of the Moon over the meridian of a port may be easily found thus. Let H be the hour of the passage of the moon over the Meridian of Greenwich, from the Nautical Almanac, and l the longitude of the port expressed in time. The hour A of the Moon's Sinking at the place will be—

$$\lambda = 11 + 2^m 1 \times 1$$

The reduction is positive or negative according as the longitude is west or east.

For Bombay we have,

$t = 4^h. 8^m$ and $\lambda = 73^\circ 16' 2''$ in Bombay time

Were the constant quantities λ and $\lambda - \lambda$ determined with accuracy from sufficient observations for the port of Bombay we should be able to test the correctness of the above formulae and tables, which would probably be found to give results within the

limits of error in the observations * From above 9000 observations at the London Docks Mr. Denison, upwards of 30 years ago, found the above theory to represent the observations with great accuracy

In the tables used at the Colaba Meteorological Observatory in Bombay the value of the moon's mass employed is $\frac{1}{70.1}$ which as has been already shown, is certainly too large the value of A is assumed as constant, and equal to 3.60 —these being almost identical with the values determined by Laplace from the observations of the tides at Brest, and published in the *Mémoires de l'Académie* for 1818, but as which he remarks,—
Je ne puis garantir l'exactitude de cette valeur de la masse lunaire et j'incline à penser que les phénomènes astronomiques sont plus propres à la fixer The mass established for high water employed is $-0.458m$, and the fundamental equation is reduced to the form—

$$S = \frac{1}{35} \tan^{-1} \frac{\sin 2(H-17^h)}{2.6 + \cos 2(H-17^h)}$$

The results, not agreeing with the observations to which they could be applied fifteen years ago, had to be modified by a series of empirical corrections, whose constants never appear to have undergone further verification and modification.

The formulae still in use are—

At the Upper transit, the time is—

$$\begin{aligned} H - W &= H - 58^m + S \\ &- 1^m 2 (P - 57) + (P - 57) \left\{ 8^m 2 - 10^m 7 \sin (H - 90^\circ) \right\} \\ &+ (35^m - 190^m \sin Z \tan Z) \\ &- (17^m - 113^m \sin Z \tan Z) \sin (H - 120^\circ) \end{aligned}$$

It is greatly to be regretted that so important a matter as the reduction of the tide observations made at the Colaba observatory since 1847 has not been carried on. It is well known that the tide-tables published hitherto in the Bombay Almanac are unworthy of confidence. The following selected at random from the Colaba Observations and compared with the computed times of High Water taken from the Almanac for 1856, will best illustrate this—

Tide (Observations at Colaba.				Computed for Bombay Al manac			Error	Tide Observations.				Computed for Bombay Al manac			Error

	7	18	37	7	18	36	- 1	Dec.	24	1	35	24	2	1	+ 26

Can such discrepancies be explained? Or are the observations collected and published from year to year utterly worthless, and if so, why are means not employed to make them at least deserving of the publication? If they are even tolerably correct, then why are computations so erroneous supplied to the public? The retardations of the times of high-water during a lunation should be represented by a line approaching a continuous curve; but neither the observations nor the computed times at Bombay present the usual continuity. Some of the observations are tolerably represented by subtracting about $1\frac{1}{2}$ 40m from the times of high-water at London Bridge but in numerous cases the discrepancy is very large.

$$\begin{aligned} \text{and Height} &= 0^{\text{h}} 5 \frac{\sin 2 (H-15^{\circ})}{2.6 + \cos 2 (H-15)} \\ &+ 1^{\text{h}} 7 \left\{ \cos 2 (h-3^{\circ}) + 2.6 \cos 2 (H + 15^{\circ}) \right\} \\ &+ (0^{\text{h}} 13 + 0^{\text{h}} 009 D^{\circ}) (P-57') \\ &- 0^{\text{h}} 12 (P-57') \sin 2 (H-30^{\circ}) \\ &+ (0^{\text{h}} 5-4^{\text{h}} 0 \sin Z \tan Z) \\ &- (0^{\text{h}} 3-1^{\text{h}} 5 \sin Z \tan Z) \sin 2 (H-45^{\circ}) \end{aligned}$$

And putting the same letters, with a dash, for the corresponding elements at the lower transit, and $N = D + 19^{\circ}$ for the moon's Nadir distance—at the Lower transit the time of high water is deduced from the formula—

$$\begin{aligned} H W &= 11-58^{\text{m}} + S \\ &- (50^{\text{m}} + 0^{\text{m}} 09 D^{\circ}) (P-57') \\ &- (P-57') \left\{ 7^{\text{m}} - 10^{\text{m}} \sin (H \curvearrowright 120^{\circ}) \right\} \\ &+ 38^{\text{m}} - 208^{\text{m}} \sin N \tan N \\ &- (30^{\text{m}} - 155^{\text{m}} \sin N \tan N) \sin (H \curvearrowright 120^{\circ}) \end{aligned}$$

$$\begin{aligned} \text{and the height} &= 0^{\text{h}} 5 \times \frac{\sin 2 (H'-15^{\circ})}{2.6 + \cos 2 (H'-15)} \\ &+ 1^{\text{h}} 7 \left\{ \cos 2 (h-3^{\circ}) + 2.6 \cos 2 (H + 15^{\circ}) \right\} \\ &+ (0^{\text{h}} 49 + 0^{\text{h}} 011 D'^{\circ}) (P-57') \\ &- 0^{\text{h}} 24 (P-57') \sin 2 (H'-30^{\circ}) \\ &+ 0^{\text{h}} 2-0^{\text{h}} 9 \sin N \tan N \\ &- (0^{\text{h}} 7-2^{\text{h}} 5 \sin N \tan N) \sin 2 (H-60^{\circ}) \end{aligned}$$

The expressions used for S are—

$$\tan 2 S = \frac{\sin 2 (H-17^{\circ})}{2.4 + \cos 2 (H-17^{\circ})}$$

$$\text{and } \tan 2 S' = \frac{\sin 2 (H'-13^{\circ})}{2.4 + \cos 2 (H'-13^{\circ})}$$

About fifteen years have elapsed since these formulæ were first published and observations have been continued with only occasional interruptions, during that period, but they have not been regularly reduced, and the constants corrected by the results, else we might by this time have had tide tables of considerable accuracy

INTRODUCTION

The only explanation which is conceived necessary to render the scheme of the following Calendar fully understood is that the Christian months indicated at the top of each page divide the Native months as they appear represented in the space below allotted to their names. January, for example, partakes the Hindū months (Mārū) and (Guzerat, Duxu and Koncan) Push and Maugh; (Malabar) Dhanu and Magaram;—the Parsee months (Shenshayi) Tir and Amurdad; (Kadmi) Amurdad and Shensvar; and the date of Naorox 130 to 180;—the Mahomedan months Rajab and Raba;—and the Jewish months Tebet and Sh bat

In the respective columns 1st of January corresponds with the 12th of Push Shud (Mārū Guzerat, Duxu and Koncan); the 10th of 1 hauch (Malabar); the 10th of Tir (Shenshayi) the 10th of Amurdad (Kadmi) and the 130th day of Naorox or Kadmi; the 10th of Rajab (Mahomedan); and the 10th of Tebet (Jewish) and so on throughout the year

PARSEES—There are at present two branches of the Parsees, who differ from each other in their reckoning of the Calendar by one month; those that are one month forward in their year are styled Kadmi, and the rest Shenshayin. The present scheme embraces the Parsee Era of Yasdejird, commonly styled Kadmi or Durayee Naorox, or sea reckoning the same being made use of in all nautical calculations among Asiatic mariners, the New Year of which always commences on the 1st of Farvardin. The Kadmi reckon the New Year and the Durayee Naorox to fall on the 25th of August one month earlier than the commencement of the Shenshayin New Year. It also embraces the Parsee Era of Yasdejird, commonly called Shenshayin the New Year of which generally begins on the 1st day of Farvardin. The Shenshayin compute the New Year from the 24th of September a month later than the commencement of the Kadmi New Year

HINDUS—It may here be observed that the Hindu Lunar months irregularly consist of 30 Tithis, or Lunar days; and the whole month is divided into two equal parts of 15 Tithis each, the one called Shukla Paksh, or Shud, the bright half or increase of the Moon, the other the Krishna Paksh, or Vad, the dark half or decrease of the Moon. The Lunar month begins, on the Western side of India and South of the Nerbadda river with the first day of the Shukla Paksh (Shud Panchade) or bright half of the Moon. At Benares, Ujjain, and the countries North of the Nerbadda, the Lunar month begins with

the first day of the Krishna Paksh (Vad Pratipada) or dark half of the Moon. The first is designated the Shukla mode of reckoning; and the latter the Krashadi. The Lunar year begins with the first day of the Shukla Paksh, or bright half of the Moon in Chaitra, both North and South of the Narbada, in every country in India; but as the dark half of the Moon precedes the other or Shukla Paksh at Benares, the half Lunar month or *(hanta)* is taken from the last Lunar month of the year preceding and considered to belong to it.

It has been already stated that the Lunar month invariably consists of 30 Tithis or Lunar days, but it has been customary in order to regulate the Festivals and Fasts, to drop certain Lunar days, and to reckon others twice to make up the deficiency; the first of these are termed by Hindus *Kahya Tithis* (perishable days), and the days repeated twice are called *Vidh Tithis* (additional days). The rule of these is exceedingly simple; those Lunar days on which the sun does not rise (*Suryodaya nahin*) are struck out; those in which it rises twice are *Vidh*, are additional; and it is obvious that such circumstances will occur about six times in the course of the Lunar year.

The Hindus have several Eras.—The *Kahya* commences 3101 B.C. The *Era of Vikramaditya*, so named from a sovereign of Malwa who defeated Baka, King of Delhi, and got possession of the chief throne of Hindusthan is reckoned from 56 B.C. the years of this Era being called *Samsat*. The *Era of Sahasra* dates from the year 79 A.D. it is the most prevalent in the South of Hindusthan, as that of Vikramaditya is in the North and in Gujarat. The years of it are termed *Saka*. The *Pauli Era*, of which some there are several, is most commonly reckoned as dating from about 580 A.D.—the year beginning in Bengal in September and at Madras 12th July. It was introduced into Upper India by Akbar and dates from his accession 2 Rabiul sam 963 A.H. It commences on the 1st of the lunar month Asvin; and its equation with the Christian epoch is 5823 and with the *Samsat* 649. It was named from the time at which the land-tax in Upper India was paid for the season,—the *Pauli* or harvest year. The *Pauli Era* in the South of India established by Shah Jehan (A.D. 1638) ought to be adopted but its commencement was fixed by the Madras Government to 12th July. Its equation is +599 with the Christian epoch. The *Era of Parasurama* is used in Malabar or from Mangalore to Cape Comorin. It derives its name from a prince who is said to have reigned 1176 B.C. The epoch is 7th Aug. 837 Jul. Per or 1925 S.Y. It is reckoned in cycles of 1600 sidereal years, commencing when the Sun enters *Aanya* (Virgo) answering to the month Asvin. The Fourth Cycle of this era commenced 15th Sept. 1855.

MAHOMEDANS.—The first day of the Moharram, or the commencement of the year is ordinarily reckoned from the first observed appearance of the new Moon, or in cloudy weather from the time at which, but for such obstacle, it would be visible; and this rarely happens earlier than 24 or later than 48 hours after the conjunction. In this manner each separate month is reckoned, and the lapse of 12 such lunar months constitutes the Mahomedan year. In chronology history and other documents, however, they use months of 29 and 30 days alternately; and they add an intercalary day to the 2nd, 5th, 7th, 10th, 13th, 15th, 18th, 21st, 24th, 26th, and 29th year in a Cycle of 30. They reckon from the Hijra or flight of Mahomet which took place on the evening of Thursday 12th July A.D. 622, and the era commences from the following day. Thus the year 1279 A.H. began 29th June 1862 and ends, 17th June 1863. Thirty-two common years are about equal to 25 years of the Hijra; or more nearly 163 common years are within less than a day of 165 Mahomedan years.

The lunar year is 354d 8h 48.57

A year of the Hijra is 355d. 8h. 48m.

Hence a year of the Hijra = 0.97224 Gregorian year

And a Gregorian year = 1.02869 of the Hijra.

We may find the Christian date from that of the Hijra by deducting 3 per cent. from the latter and then adding 621.54 to the date A.D. of the end of the Mahomedan year; or more correctly by multiplying the Hijra date by $\frac{10}{11}$ and adding 621.54,—thus $1279 \times \frac{10}{11} + 621.54 = 148.04 + 621.54 = 1861.58$, which shows that the year A.H. 1278 ended about the middle of 1863.

JEWS.—The Jews have ever marked their time by weeks, according to the command given by God himself, for labouring during only six days of each week and resting on the seventh, which was consequently set apart, or consecrated, to the service of the Creator. They not only hallowed the seventh day or *Sabbath*, which formed a portion of their week of days, but they had, also their week of years, which commenced at even years, and their jubilee, or releasing period, which were celebrated by acts of justice, forgiveness, and restitution at the end of every week of seven times seven years. The Hebrews, the Assyrians, Egyptians, Arabians, and Persians, all had the custom of reckoning by weeks.

We have endeavoured to discriminate the *Fests* and *Festivals* of each nation by different sorts of type the Hindû, for example, we have distinguished by Roman small letters, as *Push Shûd* the Malabar and Jewish by Roman capitals, as *MAGABAM* the Parsee by small capitals as *AMURDAD*; and the Mahomedan by Italic small letters, as *Moharram*

NATIVE FESTIVALS, FASTS, AND OBSERVANCES

HINDU

MAKAR SANKRANTI.—On this day the sun enters the sign "Makar" or Capricorn.—*Vide 12th January* The Hindu festivals are so numerous, and the observances of them are so intricate, that they often bewilder a writer when he endeavours to describe them. The writers of the Hindu legends have set such enormous merit on the observances of such of them, as to surpass all human comprehension; and they have unhesitatingly said that those observances themselves will obtain heaven. Great rejoicings are held among the Hindus, but particularly among the Brahmans, on account of the feast of *Makar Sankranti*, when the sun reaches the most southern sign of the Zodiac, *Makar* or Capricornus. From this day till the time of his leaving the most southern sign of the Zodiac, he is said to be in *Urdhvan*, and from the time of his leaving the northern sign to the entering the sign "Kark" or Cancer he is said to be in *Dakshinayan*. The vernal and autumnal equinoxes divide the year into two equal parts, *Urdhvan*, and *Dakshinayan*. The days of *Urdhvan* are reckoned lucky and those of *Dakshinayan* unlucky. During the days of *Dakshinayan*, it is said that the gates of heaven are shut, and in the *Urdhvan* they are open. For men to die in the *Urdhvan* is considered more blessed, because they are said to get immediate entrance into heaven; but if the righteous die in the *Dakshinayan*, they have to wait outside the gates till the *Urdhvan* sets in. In the days of *Urdhvan*, *Māṅg*—the ceremony of investing the youths with the sacred cord—and marriages are celebrated. The ceremonies that are performed on the day of *Makar Sankranti*, just at the time of the sun's entrance into the sign, are these.—The Hindus go to the sea, accompanied by a Brahman priest, to bathe there; they rub their bodies with *tilla seed*,* and wash themselves in the manner prescribed in the *Śāstra*. The Brahmans then repeat certain vaccinations suited to the occasion and close the ceremony by receiving due offerings, and a present of money for himself. On their return home they invite Brahmans, present them with a cap of bell-metal, filled with *tilla seed* and some money according to the ability of the *Yajman*. Some even present the Brahmans with copper pots, new *dhatura*, umbrellas, &c. and the whole family receives benediction from them, which is done by the Brahmans repeating certain words, and throwing on their heads a few grains of red coloured rice. After the performance of this ceremony they go to take their meals, which consist of sweetmeats. They invite their friends and relations to dinner and towards evening they wear new clothes, gold, and other ornaments, and frequent the houses of their friends and relations, distributing *tilla seed* mixed with sugar. At the time of putting the *tilla* into the parties' hands, they repeat these words "Receive these *tillas* mixed with sugar and be friendly to me throughout the whole year. All the prayers and petitions that are offered this day are to the Sun, and to no other god. The second day of Sankranti is named *Kar*, which is generally celebrated by the women, making small presents among those of their own sex.—*Vide 12th January*

WANANT PANCHMI seems to have been instituted in honour of the Spring which season is personified under the name of *Wananta*, who is feigned as attending on *Aurva* or the god of love.—*Vide 24th January*

RAJYASHTAMI is dedicated to the worship of the Sun. This day is the beginning of the *Manvantara*, or period embracing the reign of *Manu*, of which fourteen govern in succession, during the different ages of the world. The present age is under the dominion of the seventh *Manu*; and at the commencement of this period a new sun is supposed to have mounted his chariot.—*Vide 26th January*.

SHIVRATRI.—A fast-day in honour of *Shiva*, during which the *linga*, or *Bacchiphallus*, is worshipped.—*Vide 18th February* *Yad Chaitrad*, or the 20th of every month, is kept moved by the relatives of *Shiva*; but *Nag* and *Chaitrad* has obtained its peculiar epithet, *Māhā Shiva Ratri*, or the great night of *Shiva*. The Hindu legends account in the following manner for its celebrity among the sect of *Shiva Rātris*.—In time immemorial an archer of wicked and licentious habits went into a forest on this day to shoot deer. He spent the whole day in the pursuit of his game, and, on a sudden, night came on, and he was left at the mercy of wild beasts

* *Tillas* are said to be the favourite grain of the Sun.

When he found himself in such a *perilous* condition, he had recourse to a *Bale* or *Blus* tree* to secure himself from their attack. Having got into the tree, by way of relaxation, or to get a clearer view he broke off all the branches that hung around and above his head, and flung them down; fortunately the twigs which he threw fell on the *Linga* of Shiva, which was near the foot of the tree. Shiva was so much pleased and satisfied by the accidental worship of his votary that he forthwith sent a *Valand* or heavenly chariot, and took the hunter into *Kylas* his own abode, with acclamations of joy. To commemorate this great event of the entrance of the archer into *Kylas*, the Hindus observe a *fast* this day and worship Shiva in hopes of obtaining a like reward. *Observance of Shiva Ratni*.—This day the votaries of Shiva fast, and in the night, repair to the temples of Shiva, accompanied by a Brahman priest, who performs *pūja* by repeating certain incantations; first he pours some water over the *Linga*, and washes it, and afterwards he decorates it with choice flowers. When this is done, the priest takes his sacred book wherein Shiva's thousand different names are written, and reads the names and the *Yaj mān*,—the worshippers—sting a leaf of the *Bale* over the top of the *Linga* each time. This kind of *pūja* is performed four different times during the night, and thus no sleep is obtained for the whole night. This is styled the *pūja* of the four *Prakaras* or watches. It commences at about eight P.M. and ends at five A.M. This night the pagodas of Shiva are thronged by devotees. Some persons engage twelve Brahmins, others four &c., according to the abilities of the *Yajmān* to perform the *pūja*. The Brahmins must be liberally paid for their labours.

HOLI (SHAKTI—HOLIKA OR PHALGUNESHA).—This festival, called also *Dolavatra*, or the swinging festival is supposed by Sir W. Jones to relate to the vernal equinox, and to be similar to the Persian Nooruz. It commences fifteen days before the full moon on which the ceremonies are terminated and is held in honour of *Krushna*. In the freedom with which the lower classes now behave towards their superiors, this festival resembles the Roman Saturnalia and in the sending people on boisterous errands, it corresponds with our 1st of April. Red powders are daubed upon the visage of the god and thrown and squirted by his worshippers on each other while females are saluted by exclamations and jests of very impure description. The wheaten cake which is placed on the pile lighted at the close of the festival, is called *Pōli* and the right of first offering it in a village is considered as an honorary privilege. Neither the origin of this festival nor the manner in which it is observed, can be described. Nor is the observation of it confined to the lower classes of the native community—the highest apparently joining in it with the same zest as the lowest. This festival nominally continues from the new to the full moon; but only a few of the last days are practically and openly devoted to it. It is often called *Shinga*, from the name of the month in which it occurs.—*See 5th March*.

THE HINDU NEW YEAR (the first day called *Gudi Padwa*).—On the morning of this day a Hindu first rubs oil upon his body and then bathes himself with warm water. A pole bearing a flag and surmounted with a brass or copper vessel, is erected in front of the house. One such pole must be erected by each family. This represents the banner of Indra, the king of the gods, which on this day is also raised in honour of him by the gods. What is done on earth is therefore in imitation of what takes place in the heaven of Indra. The leaves of the bitter Nimb tree are then to be eaten, which secures health to the body because this tree is the offspring of the Ambrosia of the gods. The Almanack for the New Year is then to be worshipped, and its predictions in regard to the year just commencing are to be heard from the mouth of the *Jyotshya*. They tell whether there is to be abundance or scarcity of rain, whether there will be unusual heat or cold whether robberies, insurrections, &c., are to abound, whether unusual sickness is to prevail &c. &c. Each individual on this day also learns what he is to expect during the year whether health or sickness, prosperity or adversity is to be his portion, &c. &c. All this important information is not, of course, to be obtained without some compensation. And not only are presents to be given to the *Jyotshya*, but the poor people are taught on this day to extend their liberality also to the *Gūds* and Brahmins. The day is also to be celebrated by fasting. This is considered an auspicious day for commencing a new building, or engaging in any new undertaking.—*See 30th March*.

RAM NAVMI.—On this day Ramchandra, the 7th incarnation of Vishnu, was born at Ayodhya or Oude, about B.C. 1000.—*See 23rd March*. Rama is supposed to be the same as the Grecian Dionysus or Bacchus, and the object of the incarnation was to effect the destruction of Ravana, the ten-headed tyrant of Lanka or Ceylon, which was at last done with the assistance of Hanuman, the chief of the monkey tribe. The

A favourite tree of Shiva, and which is held sacred among the Hindus.

Birth of Rama is, strange to say celebrated eight days previous to its occurrence that is, from the first of *Chaitra Sudd* to the ninth. On the first day the temples of Rama are whitewashed and illuminated in the evening, and the image of Rama is adorned with costly ornaments. In the evening the *Ramayan*, or the sacred legendary history of Rama, is read in the temples, and in the night *Akshay* is preached by the *Haridra*, who describes the morality and heroic actions of Rama. *Haridra* are not invited during the nights. In some temples Brahmans are fed with rich and substantial dinners for eight successive days; these days are denominated *Rama navratni*, or nine nights of Rama. During these days, many Hindus, both males and females, go to the temples of Rama to hear the *Kirtan* and *Pada*. The last or principal day is *Ramnavami*, when, it is said, Rama became incarnate at noon. In honour of this incarnation, the Hindus fast the whole day. They get up in the morning, wash themselves, and put on rich clothes and ornaments, and repair to the temples of Rama at about nine o'clock. Every temple of Rama is well furnished on this day, and the images are decorated with precious ornaments and rich brocade. A *Hari* who is engaged to describe the birth and circumstances that attended this incarnation. He continues his discourse till twelve o'clock, when he brings a small image of Rama, minutely ornamented and well clad and shows it to his audience, and tells them that it is Rama who became incarnate; he then puts it into a small cradle prepared for the purpose. The assembly then throw themselves prostrate before the image and worship it. Great is their rejoicing and acclamation on this occasion; they sing *guddi*, a red powder on each other and with great mirth at about one o'clock they go home, and again return to the temples in the evening. The fast of *Ramnavami* is more particularly observed by the votaries of Vishnu.

VAR SAVITRI (SAVITRI VRATA).—A fast observed by women at the rest of the *Indra Ag* too, to preserve them from widowhood.—*Vide 1st June.*

ASHAD EKADASHI is the eleventh of the light half of the month *Ashad*, and is dedicated to Vishnu. On this day which refers to the summer solstice, commencement the night of the gods, during which the deity reposes for four months on the serpent *Shesha*.—*Vide 5th June.*

MAH PANCHAMI, is sacred to the demi-gods in the form of serpents. Ceremonies are performed on this day to ensure protection against the bites of snakes.—*Vide 19th August.* The serpent *Kashya*, slain by Krishna, is worshipped at the festival, as was the *Pythia*, at Delphi.

SHRAVAN OR (NARAYAN) PURNIMA.—On this day the rainy season is considered to be at an end, and a consecration is offered to the sea to gain its favour towards those who now begin to trust themselves to its mercy.—*Vide 23rd August.*

JANMA OR GURU ASHTAMI (JANMA ASHTAMI).—Instituted in commemoration of the birth of Krishna, which took place at midnight in the city of Mathura. Krishna, who in some respects agrees with the Grecian Apollo, was the eighth incarnation of Vishnu, in which, according to a large sect of Hindus, was manifested a greater portion of divinity than in any of the preceding ones. His uncle Kousha who, it was predicted, would be slain by one of his own family endeavoured to ensure the destruction of the infant god, by placing guards over his pregnant sister; but the child was preserved from them and other attempts of his relations, who had given directions for the slaughtering of all newly-born infants.—*Vide 1st September.* This holiday is reckoned one of the greatest among the Hindus and is therefore observed by almost all the Hindu community; there are two sects among the followers of Krishna, and they solemnize the feast on different days. Those belonging to the one keep the birth-day of Krishna on the eighth day of the dark moon and those belonging to the other, the day following—being the one on which he was removed to Gokul, to the house of Nanda, from fear of his maternal uncle, who sought his destruction and some even keep both days. The former fast on the day of *Janma Ashtami*, and the latter on the day of *Gokul Ashtami*. They fast the whole day and at night they bathe, and worship an image of the infant Krishna, adorning it with *tulsi* a favorite plant of Vishnu's, and with other flowers, in the manner enjoined in the *Shastra*; and at about ten or eleven P.M. they eat their *Phalshir* food which consists of fruits and certain kinds of grain, being prohibited from eating rice and other grains that day. A Brahman is called in to perform the *pooja*, and afterwards he himself is worshipped, and sent away loaded with *Dakshina* and other presents. This is all done according to the rules of the *Shastra*. The holiday is then observed among the people of the higher castes. On the day of *Gokul Ashtami*, *guddi* (or keeping of mirth) held a great jubilee among themselves, as Krishna was born up among their race. They join themselves into a company and frequent the houses of the people who follow their professions, holding each other's hands, dancing in the streets,

and repeating the words, "*Govinda, Govinda*," when they are honoured either by throwing over them coals, or presenting them with coals. These people are called *Gopālī*-protectors of cows. On the night of *Jāma Ashtami*, crowds of people, generally of the lower ranks, flock to the temple of *Kāśhī* which is commonly known by the name of *Mathā*; there they hire native music, and continue shouting and making a great noise. The *Bhagat* of *Kāśhī*, or the head of the temple, who is very often of the *Shūdra* caste and who is considered a supernatural being, at least at the time, with great solemnity and grave countenance, makes his way through the assembly accompanied by the playing of tam-tams, and exclamations of joy from his disciples and standing before the statue of *Kāśhī*, offers prayers to the idol which is richly decorated on the occasion. He is at first quite calm, but shortly after shows signs of inspiration by the god. He begins to untie his shawl, or the tuft of hair on the crown of his head, and then slowly shakes his limbs. He degrades his whole frame quivers, and he throws his body into violent contortions dancing and muttering strange ambiguous and wild sounds, which no one can understand. He then takes his scourge, which is kept near the shrine, and scourges himself as if he were insane, and performs many other equally strange actions. No sooner does the assembly around see him in this predicament, than believing that the spirit of the god has entered into him, they burn incense before him and fall prostrate, and pray to him to be merciful to them. When he has received divine homage, he quietly takes his seat, but does not cease quaking and trembling. His disciples, who are always near him, then commence, one after another, to shake themselves and dance in the same way; and the spirit of the god is believed to enter them also. This day the great *Bhagat* can create new disciples, and give them the power of bringing the spirit of the god into their bodies. Sick persons, persons supposed to be possessed of devils, children, &c., are brought to the temple to receive the benediction of the *Bhagat* and his disciples. He rubs a little ashes on their foreheads, passes his hand over their heads, and gives them full assurance of speedy recovery from their sickness without taking any medicine. The poor patient, with full confidence, returns home, expecting the fulfilment of the *Bhagat*'s promise. The *Bhagat* receives large presents on this occasion from his followers and he is held in great respect among the orthodox Hindus, and even among people of some other tribes. On the following morning the *Bhagat* collects the circle of his disciples in front of the temple, and orders a sufficient quantity of coals to be thrown over their heads to wet their whole bodies. They all begin to dance in company, holding each other's hands, and occasionally throwing themselves on the ground and beating their bodies with mud, shouting as loudly as they can. The *Bhagat*, in the mean time, with a scourge in his hand to cow his way into the crowd, and with all his pretended dignity stands in the midst and looking in all directions in feigned solemnity he lifts up his scourge and putting it round the neck of one of his disciples as a token of his regard, draws him towards himself, when the disciple trembles a little, and then stands firm, stretching his hands towards the sky with his eyes closed. No sooner does the *Bhagat* see him in this state than he scourges him two or three times so adroitly that it gives him no pain, while to the eye of the spectators it appears a prodigy that he does not feel it. This is repeated till he has shown the same mark of approbation to the whole body of his disciples, and when he comes, sweetmeats are distributed among the disciples and to all the spectators. This terminates the feast of *Gōvēl Ashtami* among the people of the *Shūdra* caste.

PITHORI OR PACHHIM AMAR.—A ceremony observed at the new moon of the month *Śrāvan*, at which the 64 *Yāgi*, or female attendants of the goddess *Durga*, are worshipped, particularly by women, with the hope of obtaining issue. —*Vādī* 18th September. The 20th day of *Śrāvan*, or the last day of the dark half of the moon, is denominated "*Prachī Amā*." *Prachī* is one of the goddesses of the *Manā*. She is commonly known among the people of the *Konkan* and *Dehkan* by the name of *Pithorī*. Wealthy Banias and other people of *Gujarat* go to *Walthamswar* on the previous evening with their families to remain in the *Lakshmanāshala* during the night; and on the subsequent morning they bathe in the tank of *Walthamswar*. (This tank is called by the natives *Dam-ganga*, i.e. the *Ganges* produced by an arrow; and they give a marvellous account of its origin. They say when *Brahma* visited this part of the world, and found that there was no pure water to drink, he plucked the ground with an arrow from his bow and then brought the *Ganges* into existence.) They also perform *Prachī* on the margin of the tank and ceremonies for procuring the deliverance of their departed ancestors from the thraldom of *Yama*, the king of the infernal regions, if they still remain at his court or in his dominions. They afterwards repair to the temple of *Walthamswar* and worship his image, and then they take their meals. The remaining part of the day is spent in amusements. Booths are erected in the locality of the temple, and furnished

The *Ti Para Shura* master of the three rites. This demon is said to have become so powerful that he defeated almost all the gods and drove them out of their habitations, when they formed a levee and went to *Kylas* the abode of *Shiva*, and represented to him their grievances who after ending an ear to their pitiful supplication comforted them by the assurance that the evil should be soon removed and sent them back to their respective homes. He accordingly made a car of the earth the wheels of which were the sun and the moon. *Brahma* was chosen his charioteer the mountain *Himalaya* formed his bow and *Wasukhi* the king serpent his bowstring. *Vishnu* himself became his quiver. Thus equipped *Shiva* rode and destroyed the mighty giant after a struggle. To perpetuate the memory of this great event, the women of the Hindus get up very early in the morning of this day at about two o'clock and wash themselves in cold water repair to the temple of *Shiva*, and worship his image. Afterwards they return home, and present a Brahman with a lighted lamp made either of silver copper or brass, according to their ability along with some fruits and *Dakshina*—a present in hard real the one called *Dipdan*, or present of a lamp. On the evening of this occasion is made in the temples of *Shiva*, and a pillar of stones built in front of all of them for the special occasion. A grand fair is also celebrated this day in honour of *Wallekwar* an image of *Shiva* at Malabar Hill. It is kept for three days, when booths are erected and shops are adorned with all kinds of articles by people of all denominations. The Hindus, both the rich and poor Brahmins and Shudras, go there and worship the image of *Shiva* and buy sweetmeats and toys for their children. Some of the wealthy Hindus remain there with their families for three or four days in the *Dharmahala* or *stupa* built by them but the poor return the same evening. During these several hundreds of rupees are uselessly spent in hiring conveyances, and purchasing sweetmeats and toys.

BIRTH CEREMONIES

Different ceremonies are prescribed by the *Shastras* to be observed at the period of conception and the different stages of pregnancy. *Jalkarm* is to be performed at the birth of the infant, and consists in giving it a drop of honey out of a golden spoon before dividing the navel-string. Other rites are to be observed on naming the child twelve days after birth—on bringing him outside the house when three months old—on feeding him with the hand at six months—and, if a male, on shaving his head at the age of three years.

MARRIAGE CEREMONIES

Among the Brahmins the male may be married at any time after the *Moni* or investiture with the sacred thread which is done within the age of eight years, and among other castes at any age. The female should not be ten years old and her age must be less than that of her husband and she should be married before the appearance of the signs of puberty. The *Shastras* mention eight kinds of marriage, but only one is observed by the higher castes, named *Brahma* when the charges are severally incurred by the fathers of the parties. The principal marriage ceremonies among Brahmins are the "*Lagnaputrika*," or writing by the *Joshi* or Astrologer of the names of the parties and the day and hour at which the wedding is to take place the "*Saptapadi*" or walking round a fire three times, at each time seven steps and tying together the garments of the parties, and the "*Ason*" or burnt offering after which the contract is indissoluble. The girl is given away by her father in his own house in which it is usual for her to remain till the appearance of the signs of puberty after which she proceeds to the residence of her father-in-law where her husband also resides, or to that of the latter should it be otherwise. Particular months and junctions of the planets are prescribed for the celebration of marriages in different castes as also the same castes in different provinces have their peculiar ceremonies, which are too various to be described here. "*Phalasaibandh*" is the performance of certain ceremonies on the occurrence of the first menstruous symptoms.

DEATH CEREMONIES

On the death of a man, the performance of his funeral obsequies (*Kriya*) and of the monthly and annual *purnastoti* ceremonies, devolves on his heir. The principal times for performing "*Arddha*" are seven days after death secondly every month and thirdly on the anniversary of death. Brahmins are unclean for ten days after the death of a relation,—the military class for twelve,—the mercantile for fifteen,—and Shudras for thirty. Among the Hindus, generally the body of the deceased is burnt, but that of an infant under two years of age is buried. The "*Arddha*" consists in the offering of rice, flowers, water &c. to the deceased and to his manes, in order to enable his soul to ascend to the heaven of the Pitris, or great progenitors of the human race.

MAHOMEDAN

RAMAZAN.—The Mahomedan fast commences each day throughout the month of its name when the first streak of light borders the eastern horizon and continues until the stars are barely discerned in the heavens. During the whole period not the slightest particle of food or one single drop of water nor any other liquid passes the lips from dawn till the appearance of the stars in the evening. As during the fast is passed in occasional prayer besides the usual namaz, and in reading the Quran or the lives of the prophets.—*1st and 2nd March*. The fast is first broken by a cooling draught called *Danda*, the name which is used in Persia. It is only a sort of the seeds of lettuce cucumber and melon well pounded and alternately diluted with cold water rose water sugar syrup of pomegranate and kurat, are also added. The whole preparation is made in the zenana, and then drunk by both full and all the *Rodhars*. Plain boiled rice with dhia (sour curd) and sugar form the first morning's repast of the fast. Dried dates are eaten with it in remembrance of the prophet's fast; whose great luxury was supposed to be the date of Arabia. The conclusion of the month Ramadan is celebrated as an *Eid* or festival, and is hailed with great rejoicing and merriment, as a reward for the past abstinence. In every house in some amount are provided every amusement that can be thought of is indulged in. The rich women in the splendor of the garments and the diamonds in those of the women are in great request on the last day of the Ramadan when the women of the market sell their late acquisitions from India, Persia, and the great bazaars to others.

ESQ.—The followers of Mahomed aim to be the descendants of Abraham the first of the prophets who they say was born at Mecca. It is a tradition and doctrine thus differing from the Jews and Christians, and yet it is worthy as a tradition which they deem themselves entitled on the subject to appropriate to themselves. The offering of the *Eid* offering the *qurban* is an annual observance by the sacrifice of animals such as a sheep goats kids or lambs according to the person's means, and is worth double price as a sacrifice. In Arabia and Islam and also amongst the men in times of distress. It is still very common to believe that the entrance to Paradise is guarded by a bridge of arrows as a way or some such equally mysterious instrument affording a perilous and unobtainable way. I enable them therefore to pass without danger to the belief that the animals sacrificed at the feast of *Eid* was an innocent animal and that the person or persons who sacrificed it are in any expiation. Abraham's sacrifice is also a subject of belief.

MOHARRAM.—A celebrated month is held annually in memory of the martyrdom of the Mahomedans—Hassan and Hossein—for two sons of Fatima and Ali in whom the whole race of Rashedar descended. Hassan was famous by a victory of the war of Karbala, and Hossein the last time the Persian battle fought with the Persians, Yazid of the Umayyad dynasty after the martyrdom of Ali in the year of Karbala on the 10th day of the first month of Maharram the anniversary of his martyrdom is so observed with great mourning. Hossein and Hassan are also stated the sons of Ali his sacrifice is the martyrdom of Hassan and Hossein the martyrdom of their father by the Persians as a result of Karbala, the war of their families ended from Hossein the son of Meda. After residing there several years the people of Shahr being tired of him, Yazid of the Umayyad dynasty ordered him to return to the capital and maintain his lawful right as Imam (leader of the faithful). Before arriving there Hossein sent Hossein's two sons as a messenger to request the return of his father to him but on his arrival with his two sons at Shahr he was ordered to return Yazid and cast from a precipice and his two sons were barbarously murdered for the sake of the reward offered for their heads. This forms the subject of the ten days mourning during the Moharram. The Mahomedans are divided into sects, the Shiites and the Sunnis. The former regard Ali and his descendants to be the lawful leaders after Mohammed and the latter the Khalifa as Abubakr Omar &c.—hence quarrels, dissensions, and divisions are kindled by to be attended during the Moharram. The festival begins on the first day of the month (Moharram) Tazieh (a term signifying grief and applied to a representation of the scene) enacted over the remains of Hossein at Karbala is made of every variety of material from paper to bamboo and paper according to the rank and wealth of the party are exhibited in every direction and conveyed in procession through the streets. Mourning assemblies are held morning and evening in the Mosques, during the Moharram, and the head priest or preacher recites a subject for each day a sermon from the ancient books composed on the subject description of the life and sufferings of Hassan and

Hossein. The Mardah, a poetical composition of great merit, and embracing the whole of the subject they commemorate, is chanted with great effect; the names of their lawful leaders are recounted with blessings, and that of the usurpers, the Kakhphas, with curses. Then comes the procession of Dhal Dhal—Hossein's horse, killed at Kurba, beautifully caparisoned; and finally the Tamas are deposited with funeral rites in the public burial grounds, when the Moharram ceases. The Tabûk is a slight framework of bamboo, in the shape of a mausoleum covered and ornamented with coloured paper and tinsel. They vary considerably in size and appearance, according to the taste and ability of those who build them. Before these Tabûks incense is burned and various other rites are performed. The Tabûks it is said, are peculiar to India. They are not mentioned in the Qirân, nor are they built by the inhabitants of Persia and Arabia. Many Mahomedans regard them with strong disapprobation. In Bombay the larger portion of the Mahomedans unite in building the Tabûks. These are taken out, and, accompanied with music, carried in procession through the Shendy Bazar from midnight of the ninth until three o'clock of the morning of the tenth day, and from two to six o'clock on the afternoon of the same day on their way to the beach in Back Bay where the greater part of the Tabûks, after being stripped of whatever is of value are cast into the sea. The practice of building Tabûks seems to be losing ground in Bombay a portion of those who formerly united in this having adopted the views of those opposed to such things. The Indian Mahomedans, who do not unite in building the Tabûks, are accustomed to go on this occasion to the mosques for five successive evenings, to listen to the recitation of the death of Hossein. Their demonstrations of grief however are not equal to those of the Moguls and Persians, who while listening to the recital weep aloud and unite violently upon their breasts. There are accustomed to meet at the Masjid in Virza Mahomed Ali Khan Street. In Bombay there is strictly speaking no representation of the battle which was fought previous to the death of Hossein. Some two or three horsemen bearing flags, enter the large yard adjoining the Imambara with loud wailings and are followed by two horses apiece, representing those which were for the use of Hossein and Ali. One person on horseback with a long sword apparently run through the head and covered with blood joins in the wailing. A female infant in deep mourning sits up at the door of a small mausoleum which is carried on the shoulders of men, whilst others cast straw upon her head, in token of grief. Those pass round in a circle accompanied by a company of drummers and beat upon a drum. Hossein and Ali Hossein Hai Hossein. Sometimes a person in procession in a dying state is carried covered with wounds and blood and darts and daggers run into it, is carried about in procession. It would seem that this festival is now celebrated with less effort and effect than formerly. It is apparently becoming more and more a farce. The grief is doubtless for the most part feigned. The decline of the peculiar zeal of the Mahomedans must necessarily lead them to enter into these with less spirit.—*I do 27th June*

PARSIS

The Parsis of India are divided into two sects,—the Shabashahis or "Rashtas," and the Kadvis a "Chirgah" the former of whom constitute the larger portion of the race. This division originated only a cent and fifty years ago, when a learned Persian priest named Jamsap arrived in India, and found that his co-religionists differed from the brethren of Iran in their calculation of time by a full month and in other minor points relating to their liturgy. Serious disputes arose in consequence which ended in the formation of the two sects, the Shabashahis adhering to their own views, and the Kadvis adopting the opinions imported by Jamsap,—thus agreeing with their Persian brethren. Notwithstanding this division an estrangement exists between them in their social intercourse. The difference lies only in their computation of time and in some slight variations in the forms of prayer. Intermarriage is allowed as well as admission to each other's places of worship.

The festivals of the Parsis, are celebrated with little or no outward pomp. Their holidays are mostly occupied in prayers in the mosques and festivities and rejoicings during the rest of the day. Some of their religious institutions are traced to a very ancient period. The festival of the Naomog dates from upwards of three thousand years before Christ and is kept to this day by most of the nations of Western Asia, notwithstanding their differences of creed. The Emperor Akbar adopted the "Nozog," and fourteen other festivals of the Parsis, for the observance of those who were attached to his favourite doctrines of the "Habi Farsh" or the Religion of God which he tentatively endeavoured to introduce upon his people.

PAPETI OR NEW YEAR'S DAY—Among the festivals observed by the Parsis, the first and universally kept is the Papeti or New Year's day. This day is celebrated in honour of Yazdegerd, the last King of the Sassanid dynasty who was dethroned by Khalid Umar about A.D. 640. The ancient Persians reckoned a new era from the accession of each successive monarch and as Yazdegerd had no successor the date of his accession to the throne has been brought down to the present time thus making the current year 1251-52. In their calculations of the year only 304 days are allowed leap year is unknown to them though there are records which prove that in every 120 years one month was added to make it correspond with the solar year. The year is divided into twelve months of thirty days each and five days, called Gathas, as they are called according to the end to make up the deficiency. On these days the Parsis rise early and dress themselves in suits of clothes and those piously disposed say the prayers in the private residences or attend the Anjumanes where large numbers are gathered. After prayers the Parsis visit their friends and families when the Hama-eur or Khatir-e-ha is performed. It is customary for all of good character to participate in this Persian fashion of wishing each other a happy new year. The friends and relatives are invited to breakfast the morning thereafter and the visits and reports are kept up till a late hour. A very early start is made to the public use of the day and new suits of clothes are presented to servants and others.

date the origin of this festival from the time of Jamshid, the third king of the Peshadian dynasty of Persia, Jamshid is supposed by Bailly to have flourished 3200 years before Christ the Shah Namah celebrates him as the first prince of his race who introduced civilization among mankind and established the computation of time. If we are to believe the Persian writers the aquists ba-reliefs among the ruins of Persepolis,—still visible in beauty after a lapse of two thousand years,—are representations of the Court of Jamshid more especially on the festival of the Nauruz. The sculptures at this place contain representations of the Courts of ancient Persia, with the long train of attendants bringing offerings to the feet of the Monarchs and as the Nauruz is a sort of renaissance settlement day when the lords of different provinces lay their annual contributions before the throne and are allowed audience with the monarch the idea of a part of the Persepolitan ba-reliefs being a picture of some ancient king of Persia holding his court on the day of the Nauruz does not appear to be without foundation. In Persia this festival is kept for several days with unusual pomp by all the inhabitants, whether Mahomedans or Persia. In India it is simply a day of rejoicing.

1 A ARIEL SAM JAYAT—Ain, in the Zend text is the name of the angel who pre-
sided at the ceremony. The festival is held in his honour. The Parsis
are required on this day to approach the king, shah or an stream of water
and the / a / ra vi / but owing to the long residence in this country they have
but not many Hindu rites in their use of the Hindu and offerings of sugar
corned to the sun, & c. & c. & c. are not unknown. The better informed portion of
the community however is in join with their brethren in these superstitious acts. In

An Amavasya - Shukla and Krishna are for 15 days, the same 15 which is mathematically exact. This is the most sacred of the twelve months, and the day of the full moon is the greatest part and worthy. On this day the fire temples are closed, and all food and offerings of sandal wood are made to the sacred fire. Amavasya is the day of the new moon.

DESIRE

The (1) of the new world weekly month and early Each seventh and
 the (2) is moreover with it will peculiar solemnities

The weekly festival was held Sabbath at the opera house to rest and cheerful devotion. It was attended by those who loved music and in the work of Cramer, and the proceeds were returned to the city hall at Market Street the 27th. We had been given from before it was a letter in summer on Friday at market on Saturday.

7. In night festival was held on the day of the new moon or the first day of every month with a program of sound of trumpet. The law however did not bludge the people to meet on these days although it also intended particular services.

The 3 sons of the Passover of Pentecost, and of the 3 weeks, were the three principal festivals observed under the law and they were times of rest and festivity. As all the male inhabitants throughout the country were required on these occasions to go up to Jerusalem and the females also permitted to accompany them if they chose the ceremony was generally very great. The religious assemblies, besides commemorating important events in their history, also observed other important purposes. They kept them steadfast in their religion by the view of ceremonies and the Majesty of the divine service they ascribed the means of religious instruction for the law of God was then read and explained and they served more or less to renew the acquaintance and friendship of tribes and families who from a part of the country thus met three times a year in the holy city.

The PASSOVER was instituted to commemorate the departure out of Egypt, because on the night preceding that departure, the destroying angel who slew the first-born of the Egyptians passed over the houses of the Hebrews, they being marked with the blood of the lamb, which for this reason was called the Paschal Lamb. It was celebrated on the 14th day of the first month of the ecclesiastical year (March), and lasted seven days. A lamb, or if that could not be found, a kid without blemish, was killed, roasted and eaten with unleavened bread and bitter herbs. The first Passover was eaten with their loins girded, their shoes on their feet, and their staves in their hands, that they might be in readiness for their journey circumstances which were not observed in its celebration after the Exodus.

The Feast of PENTECOST was celebrated on the fiftieth day after the Passover and was a Feast of thanksgiving to the Lord, wherein they acknowledged his dominion over their country and their labours, by offering to him two loaves, as the first fruits of all their harvests. It also commemorated the giving of the law from Mount Sinai two years & fifty days after their departure from Egypt. The Hebrews counted seven weeks from the Passover beginning on the second day of that solemnity and hence called it the Feast of Weeks but by the Christians it was called Pentecost a name which signifies the Fiftieth Day. It was on the day of Pentecost that the Holy Spirit was poured out from the ascended Saviour upon his apostles, qualifying them with miraculous gifts for establishing the New Testament kingdom.

The Feast of TABERNACLES was instituted as a memorial of their fathers having dwelt in tents for forty years during the passage through the wilderness. It was kept in the first month of the civil year (September), and lasted eight days the first and seventh being the most solemn. During its continuance they lived in booths, tents or tabernacles, constructed of the branches and leaves of trees. On the first day they set down branches of the handmaiden tree, with their fruit, which they carried in company to the synagogue. Holding in their right hand a branch of a palm tree three branches of myrtle and two of willow tied together and having in their left hand a tree and its fruit they waved them towards the four quarters of the world, singing songs and crying Hosanna.

These were the three great Festivals at which all the males were required to go up to Jerusalem to worship. "Three times in a year shall all thy males appear before the Lord thy God in the place which he shall choose in the Feast of Unleavened Bread and in the Feast of Weeks, and in the Feast of Tabernacles. — (Deut. xvi. 16. Ex. xxxiv. 23.)

The feast of TABERNACLES was celebrated on the first day of the civil year (September) its commencement being proclaimed by sound of trumpet, and the day was kept solemn, all business being forbidden, and certain sacrifices appointed to be offered.

There are also two other feasts, though not appointed by law which require men to appear as they are often mentioned in Jewish history. The Feast of Dedication was appointed to celebrate the re-establishment of Divine worship in Jerusalem after Antiochus Epiphanes had been vanquished and the temple purified. It is observed for eight days from the 25th of the third month (December), and is also called the Feast of Lights, from the luminations which the Jews make during these days in their houses. The feast of Purim falls on the 14th and 15th of the fourth month (March) and commemorates the defeat of Haman. On these days they give alms to the poor and presents to their friends.

The 10th of the first month of the civil year is the day of ATONEMENT on which they observe a fast from evening to evening and bewail their sins. Other fasts were also observed in later times, connected with the siege of Jerusalem (10th of tenth month), the capture of the city (17th of the fourth month), the burning of the temple (9th of the fifth month), and the death of Gedaliah (3rd of the seventh month) of the Ecclesiastical era.

Every seventh year was to the Jews a Sabbatical year and we find that Alexander the Great granted them an exemption from tribute on that year.

After seven weeks or Sabbaths of years, that is after seven times seven years, the great Festival of the JUBILEE was celebrated and during the whole year they neither sowed nor reaped. On this fiftieth year every one retained possession of his inheritance whether it were sold, mortgaged, or alienated in any way and Hebrew slaves of every description were set free with their wives and children. Hebrews and others in well-to-do towns were the only kind of property that did not return to the original owner in the year of the Jubilee.

TABLE OF COINS, WEIGHTS, AND MEASURES.

I.—BRITISH INDIAN TABLES.

MONEY

Silver is the legally constituted medium of exchange in all money transactions throughout the British Indian Possessions. Gold coin is a legal tender at a fixed value of 16 rupees for the Gold-mohur of Calcutta, and 15 rupees for the gold rupee of Madras and Bombay but it is not demandable in payment, and is left to find its current value in the market.

An order in council was promulgated January 1841 authorizing officers in charge of public treasuries freely to receive gold coins struck in conformity with the provisions of Act XVII of 1835 establishing the 15 Rupee piece. This continued till December 1852 when the swelling tides of California and Australia began to pour their rich treasures over the globe, when in apprehension that India would be inundated with gold, the proclamation of 1841 was hastily rescinded and gold henceforth debarred from entrance into any of the public treasuries.

The entire Bank-note circulation of the three Presidencies was calculated in 1858 at 1½ millions sterling of which amount the Bank of Bengal had in circulation about one million sterling or one karor of rupees.

		Value Sterling
		£ 0 0s 0½d.
3 Pie	= 1 Paisa or ¼ anna	0 0 08
12 Pie	= 1 Anna	0 0 1½
16 Annas	= 1 Rupee*	0 2 0
15 Rupees	= 1 Gold Rupee	1 10 0
16 Rupees	= 1 Gold Mohur	1 12 0
100,000 Rupees	= 1 Lakh	10 000 0 0
100 Lakhs	= 1 Karor	1 000 000 0 0

* The value of a Rupee is generally assumed as equal to 2s sterling. At the Calcutta Mint price of silver it is worth 2s 0-085d at the Commercial par of Exchange is 11 5½d and at the London Mint price of silver it is worth 1s 11 0½d.

The Rupee weighs 180 grains troy or 1 tola, and consists of 11 parts of silver and 1 of alloy. The Gold Rupee is of the same weight and standard. The Copper coinage are the half anna weighing 200 grains the quarter anna or paisa 100 grains the half paisa, 50 grains and the pie 33½ grains.

In Bombay accounts are still kept in Rupees, quarters and rases 20 rases making one anna.

In Madras, accounts were formerly kept in Star Pagodas fanams and cash

80 Cash	= 1 Fanam or panam
42 Fanams	= 1 Star Pagoda, Hun or Varaha

The pagoda was of gold 10½ carats fine, and intrinsically worth 7s 5½d. but valued at 4 Rupees.

WEIGHTS AND MEASURES.

The British-Indian weights established by Regulation VII of 1833 and now for upwards of a century in use in Bengal, were founded on the tola of 180 grains as a unit.

1 — BASAR WEIGHT

		Av	780	grs. Troy
4 Sikhi or quarters.	= 1 Tola	6¼ drs		1½ oz
5 Tola	= 1 Chhatāq	2½ oz		7½ oz
4 Chhatāq	= 1 Paurā	10½ oz.		2½ lb
4 Paurā	= 1 Sér or Sear	2½ lb.		1½ lb.
5 Sér	= 1 Pansari	10½ lb.		100 lb
6 Pansari, or 40 Sér	= 1 Māq or maund	82½ lb		

The standard sér weighs 80 tola or rupees

The told weighs 11-6038 French grammes the máq, 37 3243 kilogrammes and the gramme weighs 0-00573526 told.

Also 35 sérs are equal to 72 lbs. avoirdupois and 49 máqs are equal to 86 cwt.

The *Factory weight*, adopted by the Bengal Government in 1787, was subdivided as in *Bádr* weight, only lighter 40 of any denomination of *Bádr* weight, being equal to 64 of the same denomination of *Factory* weight and 1½ *Factory* máqs being equal to 1 cwt., or 1 *Factory* máq equal to 74½ lbs. or ½ cwt. Hence 1 *Factory* máq = 0-9014074 *Bádr* máq. It is now disused.

In Bombay the following Local Weights are still used —

The Kurrachi weights approach very nearly to the British-Indian, and were probably intended to be the same. 36 Kurrachi sérs (or máqs) are equal, by the above table, to 35 Bri ish-Indian of the same denomination hence

1 British-Indian máq	= ⅓, or 1-02867	Kurrachi máqs	and.
1 Kurrachi máq	= ⅔, or 0-97222	British Indian máq.	

The Surat Sér within the last 30 years, consisted of 5½ Surat tolas of 18½ 2 grains, and the máq consequently weighed about 37½ lbs avoirdupois the standard tola seems to have been substituted, and the sér now weighs only 14 4 oz., and the máq 36 lbs. avoirdupois. Hence 7 Surat sérs or máqs = 9 Bombay sérs or máqs and—

1 Surat sér = 0-4376 Imp. sér, 1 Imp. sér = 2¼ Surat Sérs.

3.—MEASURES OF LENGTH

The gas or unit of lineal measure not only differs in different provinces of India, but also in the same province for different purposes. The English yard, however is rapidly becoming the only standard unit, especially where English education has obtained a firm footing

5—LIQUID AND DRY MEASURES

India, properly speaking does not possess dry or liquid measures. Where these are employed they represent the séer or the máp weight. The value of any vessel of capacity rests solely on the weight contained in it. In S and W India an equal mixture of the principal grains is taken and a vessel formed to hold a given weight of it.

In Bengal, the following are used for grain—the conversion into English measures being derived from the capacity of a vessel holding a *mán* of water or $1\frac{1}{2}$ bushels

5 Chhatáphs	= 1 Kúnti	11 407	c m	0 5143	pts

6.—MEASURES OF TIME.

The Hindūs reckon by a lunar year for religious, and by a sidereal year for civil purposes. The year begins when the sun enters the first constellation of the Hindu Zodiac, which at present happens about the 12th of April—in Malayala, or from Mangalore to Cape Comorin, however the year commences when the sun enters Kanya (Virgo) answering to the month Aswin, which generally happens about the 16th September

	days.	hours.	minutes.	seconds
The exact length of the sidereal year is	365	5	48	46
By the Surya Siddhanta it is	365	5	46	46
By the Arya Siddhanta	365	5	46	40
By the Brahma Siddhanta	365	5	46	0
By the Parnasara Siddhanta	365	5	46	31 4

And since the Gregorian year has an average length of 365d 5h 49m. 12s the commencement of the Hindu year will fall a day later every 62 or 63 years.

The Hindu month is the time the sun takes to pass through one-twelfth of the Zodiac, and consequently varies in length from 29d 8h 21m when the earth is in perihelion to 31d 14h 30m when it is in apohelion. The civil differs from the astronomical account only in rejecting fractions of a day each civil year and month being accounted to begin at sunrise instead of the exact time of the Sun's entering into the respective signs and if the fraction exceed 30 ghatis or ½ day the civil day or month is accounted to begin one day later than the astronomical.

The Gregorian Year	= 0 99996 Hindu year	

The Mohammedans reckon by a lunar year consisting of months of 30 and 29 days alternately and intercalate a day eleven times in 30 years.

The lunar year is 354d 8h 48 57m and a year of the Hajira is 354d 8h 48m Hence a year of the Hajira = 0 979223 Gregorian year

And a Gregorian year = 1 030686 of the Hajira,

We may find the Christian date from that of the Hajira by deducting 3 per cent from the latter and then adding 621 54 for the date A. D. of the end of the Musliman year or more correctly by multiplying the Hajira date by $\frac{10}{11}$ and adding 621 54—thus $1278 \times \frac{10}{11} + 621 54 = 1240 04 + 621 54 = 1861 58$, which shews that the year A H 1278 ended about the middle of 1862

A Sovereign weighs 123 $\frac{1}{4}$ or 123.274 grains troy and consists of 22 parts of gold and 2 of copper. The *Standard Silver Coin* consists of 37 parts of silver and 3 of copper. The florin weighs 174 $\frac{1}{4}$ grains troy, and the shilling 87 $\frac{1}{4}$ grains. The penny was $\frac{1}{4}$ part of a pound avoirdupois of copper, or 291 $\frac{1}{2}$ grains troy but the copper coins have just been replaced by the new bronze coinage, which is lighter.

At the Calcutta mint price of silver a shilling is equal to 7 s. 11 87 p at the Commercial par of Exchange, to 8 s. 2 p. and at the London mint price of silver to 8 s. 4.004 p.

30	= 1 Aune of Hook

ANGULAR MEASURE.

Most nations divide the circle into 360 degrees, the Chinese however divide it into 365½ and the French, since 1792, into 400 The common method is termed the *sexagesimal*, and the French method the *centesimal* system.

60 Seconds (")	= 1 Minute (')
60 Minutes	= 1 Degree (°)
30 Degrees	= 1 Sign (s)
90 Degrees	= 1 Quadrant.
60 Geographical Miles or 69.045 Statute miles nearly	= 1° of the Terrestrial Meridian.

The circumference of a circle is about $3\frac{1}{7}$ or 3.1416 times (very nearly) the diameter and the diameter is $\frac{7}{22}$ or 0.31831 of the circumference.

BRITISH TIME TABLE

60 Seconds	= 1 Minute 24 pul.
60 Minutes	= 1 Hour 24 shari.
24 Hours	= 1 Day 1 dia
7 Days	= 1 Week	
4 Weeks	= 1 Lunar month	
365 Days, or 52 Weeks 1 day or 12 calendar months	= 1 Common year	
366 Days	= 1 Leap year	
365½ Days	= 1 Julian year	
365d. 5 hr 48 m 49½ sec.	= 1 Solar, or Tropical year	

Every year of the Christian era of which the date is divisible by 4, without a remainder is a *Leap year* except those centuries which are not divisible by 4. Thus 1752 and 1856 were Leap years, because the numbers 1752 and 1856, are divisible by 4 without remainder; but the years 1800, 1900, are not Leap years, because the centuries 18 and 19 are not so divisible, without remainder. In 400 years there are 97 Leap years. The Calendar is called the *Gregorian*, from Pope Gregory XIII who introduced it in 1582. It is used by all the nations of Europe except Russia. The *Gregorian year* is 365d 5 hrs 48 m 24 sec.

With the exception of July and August both of which have 31 days, the months are alternately long and short. In Bissextile or Leap years February has 29 days, in common years only 28 days.

The Months are—

1 January	31 days	7 July..	31 days.
2 February	28 or 29 "	8 August	.. 31 "
3 March	31 "	9 September ..	30 "
4 April.. . . .	30 "	10 October .. .	31 "
5 May	31 "	11 November ..	30 "
6 June	30 "	12 December ..	31 "

The days in each month may be remembered from the lines :—

Thirty days are in September,
April, June, and still November
All the rest have thirty-one,
Saving February alone,
Which hath twenty-eight days clear
And twenty-nine in each Leap year

NOTE.—Cut off two figures of the *Rs.*. Multiply these on the left hand by the Tax rate. To the product add the tabular amount of Tax corresponding to the cut-off figures (or to the next less) taken from the proper Rate column.

Example.—Required the Tax on *Rs.* 1,374, at one and three per cent.

Rs. *a.*
1374 = 13 11 at 1 per cent.

13 × 3 = 39 0
74 = 2 3

58 3 at 3 per cent.

BANKS MANAGEMENT OF CURRENCY NOTES ACT

No. V of 1862

An Act to Provide for the Payment at the Banks of Bengal, Madras, and Bombay, respectively, of Moneys payable at the General Treasuries of Calcutta, Madras, and Bombay

[28th February 1862]

WHEREAS under the provisions of Act XXIV of 1861 (*An Act to enable the Banks of Bengal, Madras and Bombay to enter into arrangements with the Government for managing the issue payment and exchange of Government Currency Notes and certain business hitherto transacted by the Government Treasuries*) The Bank of Bengal has entered into an agreement with the Secretary of State for India in Council through the Governor General of India in Council that so much of the business hitherto generally transacted at the General Treasury of the Government at the Presidency of Fort William as consists in receiving and paying money on behalf of the Supreme Government and the Government of Bengal, shall be carried on and transacted by the said Bank subject to the provisions of the said agreement and to such orders and directions with regard to receipts and payments as may from time to time, be given to the said Bank by the Governor General in Council, or any of the Officers of the Government of India authorised in that behalf

And whereas the Governor General in Council has given notice in the *Calcutta Gazette* that the Treasury of the Secretary of State for India in Council and of Her Majesty's Indian Government at Calcutta shall, from and after the 1st day of March 1862 be established at the Bank of Bengal

And whereas the Bank of Madras and the Bank of Bombay are in treaty with the Governor in Council of Madras and the Governor in Council of Bombay respectively for the purpose of entering into similar agreements, and it is probable that such agreements will be shortly executed, and that similar notice to that hereinbefore mentioned will be given by the Governors in Council of Madras and Bombay in regard to the Banks of Madras and Bombay

And whereas divers promissory notes, and negotiable securities and other obligations for the payment of money made by or on behalf of the Secretary of State for India in Council or by the Governor General of India in Council the Governor of Madras in Council and the Governor of Bombay in Council respectively on behalf of the East India Company and of the Secretary of State for India in Council, are made payable at the General Treasury of Fort William in Bengal the General Treasury at Madras, and the General Treasury at Bombay respectively

And whereas divers, other securities and obligations are made payable to the Secretary of State for India in Council or to the said Governor General in Council or to the Governors in Council of Madras or of Bombay at the said General Treasuries of Fort William in Bengal Fort St. George, and Bombay respectively

It is therefore enacted as follows :—

I On and after 1st March 1862 all sums payable by or to Government to be payable at the Bank of Bengal instead of at the General Treasury at Calcutta —On and after the 1st day of March 1862, and until the expi

ration of fourteen days after notice shall be given in the *Calcutta Gazette* by the Governor General of India in Council that the Treasury of the Government will be no longer held at the Bank of Bengal, all sums payable by or to the Secretary of State for India in Council or by or to the Governor General of India in Council or the Government of Bengal on behalf of the Secretary of State for India in Council at the General Treasury of Fort William in Bengal shall be payable by or to the Secretary of State in Council or by or to the Governor General of India in Council or the Government of Bengal respectively on behalf of the Secretary of State in Council at the Bank of Bengal instead of at the General Treasury at Calcutta

II *Presentment of promissory notes &c at the Bank of Bengal*—Whenever presentment of any promissory notes security or obligation for payment or for any other purpose at the General Treasury of Fort William in Bengal would before the said 1st day of March 1862, have been necessary or sufficient presentment for such purpose at the Bank of Bengal shall be necessary or sufficient as the case may be on and after the said 1st day of March 1862 and until the expiration of four teen days after such notice as in the 1st Section mentioned shall have been given

III *Payments at the Banks of Madras and Bombay of sums payable by or to Government at the General Treasuries at Madras and Bombay*—If the Governors in Council of Madras and of Bombay respectively shall give notice in the *Government Gazette* of their Presidencies respectively that the Banks of Madras and Bombay respectively have entered into agreements or arrangements with the Secretary of State for India in Council through the said Governors in Council for the purposes mentioned in the Preamble of this Act, under the provisions of the said Act XXIV of 1861 and that from and after a date to be specified in such notice the Treasury of the Secretary of State for India in Council and of Her Majesty's Indian Government at Madras and Bombay respectively shall be established at the Banks of Madras and Bombay respectively all sums payable by or to the Secretary of State for India in Council or by or to the Governor of Madras in Council or the Governor of Bombay in Council on behalf of the Secretary of State for India in Council at the General Treasury at Madras or at the General Treasury at Bombay respectively shall from and after the date specified in such notice and until the expiration of fourteen days after notice shall have been given by the said Governors in Council respectively that the Treasury of the Government will be no longer held at those Banks respectively be payable by or to the Secretary of State in Council, or by or to the Governor of Madras in Council or by or to the Governor of Bombay in Council on behalf of the Secretary of State in Council at this Bank of Madras or the Bank of Bombay respectively instead of at the General Treasury at Madras or the General Treasury at Bombay

IV *Presentment of promissory notes &c at the Banks of Madras and Bombay*—In such case whenever presentment of any promissory note security or obligation, for payment or for any other purpose at the General Treasuries at Madras or Bombay respectively would have been necessary or sufficient if such notice had not been given and this Act had not been passed presentment for such purpose at the Banks of Madras and Bombay respectively shall be necessary or sufficient, as the case may be, on and after the date specified in such notice by the Governors in Council of Madras and Bombay respectively and until

the expiration of fourteen days after such notice as aforesaid that the said Treasury will be no longer held at those Banks respectively, shall have been given.

Y. Proviso as to presentment at the several Banks—Nothing in this Act shall render necessary the presentment at the Banks of Bengal Madras and Bombay, respectively of any security or other obligation which it would not have been necessary to present at the General Treasuries of Bengal Madras, and Bombay respectively if this Act had not been passed.

the last preceding Section shall be taken in any Court of Justice to be the proper Stamp required by this Act for the Deed, Instrument, or Writing on which the same is impressed

XVII Clause 1—*In cases falling under Section XV Civil Courts may receive in evidence unstamped or insufficiently stamped Deeds on payment of the proper Stamp Duty and Penalty.* In any case in which a Stamp might be impressed under Section XV of this Act, a Civil Court may receive in evidence any Deed, Instrument, or Writing not bearing the Stamp prescribed by Schedule A annexed to this Act, on payment into Court of the proper amount of Stamp Duty to be determined by the Court whose decision on the point shall be final together with the penalty required by the said Section

Clause 2—*Procedure on payment under preceding Clause.* An entry of such payment setting forth the amount thereof shall be made in a book to be kept by the Court and shall also be endorsed on the back of the Deed, Instrument, or Writing and shall be signed by the Court. The Court shall at the end of every month make a return to the Collector of the Stamp Revenue of the District of the money (if any) which it has so received distinguishing between the sums received by way of penalty and the sums received by way of Duty, stating the number and title of the suit and the name of the party from whom such money was received, and the date if any and description of the document, for the purpose of identifying the same and the Court shall pay over the money so received to such Collector or to such person as he may appoint to receive the same. Such Collector or other proper Authority shall upon the production of the Deed, Instrument, or Writing with the endorsement herein before mentioned cause it to be stamped thereon with a Stamp of the amount paid into Court on account of such Duty. The provisions contained in Clause 6 Section XV of this Act as to the mitigation or payment of penalties paid to the Collector shall be applicable to penalties paid into Court under this Section

XVIII *No unstamped or insufficiently stamped Deed &c. to be stamped except as aforesaid.*—No Deed, Instrument, or Writing executed on unstamped or insufficiently stamped paper shall be stamped at any time after the execution thereof except as herein before provided.

XIX. *Procedure in cases other than those provided for in Sections XV and XVII for determining the proper amount of Stamp Duty to be impressed on any Deed.*—When, in any case or other than the cases provided for in Sections XV and XVII of this Act, any person shall entertain any doubt respecting the proper amount of Stamp Duty for any Deed, Instrument, or Writing, he may apply to the Board of Revenue or the chief Controlling Revenue Authority either directly or through the Collector of Stamp Revenue of the District, for an adjudication with a view to remove such doubt, and shall at the same time pay a fee of Ten Rupees, and thereupon such Board or other Authority as aforesaid shall determine the amount of Stamp which such Deed, Instrument, or Writing should bear and on payment thereof, shall cause such Deed, Instrument, or Writing to be impressed with such Stamp and an additional Stamp denoting that such adjudication fee has been paid. A Deed, Instrument, or Writing so stamped shall be received in evidence as properly stamped in any Court of Justice

XX. *Cost of transmitting Deed &c. to be stamped by whom to be paid.*—The cost of transmitting by post any Deed, Instrument, or Writing required to be stamped under any of the foregoing Sections

of this Act and the cost of registering the same at the Post Office for transmission shall, in all cases be borne by the party applying to have such Deed Instrument or Writing stamped

XXI. Government not responsible for loss or damage to Deed &c — The Government shall not be responsible for any loss or damage which shall occur in respect of any Deed Instrument, or Writing entrusted to the Collector of Stamp Revenue of the District for the purpose of being stamped and no person employed by the Government in the Stamp Department shall be responsible for any such loss or damage unless such person shall wilfully fraudulently, or by any gross negligence cause such loss or damage

XXII. Provisions of Sections XV and XVII not to extend to Bills of Exchange &c — The provisions of Sections XV and XVII of this Act shall not extend to Bills of Exchange or other forms of orders for money or to Receipts for money

XXIII. Exemption from further penalties than those prescribed in Sections XV or XVII — The payment of any penalty under Section XV or Section XVII of this Act shall exempt the person paying the same from any further penalty for any such omission or neglect as is therein described and if any other such penalty shall already have been imposed the same shall be taken so far as it goes in reduction of any penalty under the said Sections

XXIV. Persons receiving unstamped Drafts or Order for payment of money on demand may affix Stamps thereto — When any Draft or Order for the payment of money on demand chargeable with the Stamp Duty of one Anna shall come to the hand of any person unstamped, it shall be lawful for such person to affix thereto the necessary adhesive Stamp and to cancel the same in the manner required by this Act and upon so doing to charge the Duty against the person who ought to have paid the same or to deduct such duty from the sum so directed to be paid, and such Draft or Order shall so far as relates to the Stamp Duty chargeable thereon be good and valid but this shall not relieve any person from the liability to the penalty which he may have incurred by issuing the said Draft or Order unstamped

XXV. Penalty for executing or receiving only one number of a Policy of Marine Insurance purporting to be drawn in a set of two — If any person shall within the British Territories in India, execute any policy of Marine Insurance purporting to be drawn in a set of two and shall not at the same time execute on paper duly stamped as required by this Act the two numbers of which such Policy purports the set to consist, every such person so offending shall forfeit a sum not exceeding One thousand Rupees.

XXVI. Refund in certain cases of half the amount of Stamp Duty on plaint in the event of agreement, compromise, or satisfaction — In modification of so much of Section 98 of the Code of Civil Procedure as declares that on the application of the plaintiff reciting the substance of any agreement, compromise, or satisfaction, in accordance with which a suit is adjusted and disposed of the Court, if satisfied that such agreement, compromise or satisfaction has been actually entered into or made shall grant a certificate to the plaintiff authorising him to receive back from the Collector the full amount of Stamp Duty paid on the plaint, if the application shall have been presented before the settlement of issues or half the amount if presented at any time after the settlement of issues and before any

witness has been examined,—it is enacted that, if such applications shall have been presented before the suit is called up for the settlement of issues or in suits in which the summons to the defendant shall be for the final disposal of the suit, as directed in Section 41 of the said Code and in Section 9 of Act XLII of 1860 (*for the establishment of Courts of Small Causes beyond the local limits of the jurisdiction of the Supreme Courts established by Royal Charter*) before the hearing of the suit has commenced, the Court, if satisfied that such agreement, compromise or satisfaction has been actually entered into or made shall grant a certificate to the plaintiff, authorising him to receive back from the Collector half the amount of Stamp Duty paid on the plaint. Provided that no such certificate shall be granted if the adjustment between the parties be such as to require a decree to pass on which process of execution can be taken out, or in any appealed suit.

XXV II *What sum recoverable under a writing bearing an optional stamp*—No larger sum shall be recoverable in any Court of Justice by reason of any Deed Instrument or Writing, for which an optional Stamp is indicated to be proper by the Schedule A annexed to this Act than the largest sum for which if specially stated in a Deed, Instrument or Writing of the same denomination, the Stamp actually used under the option so given would be of sufficient value. And no such Deed Instrument or Writing shall be held by any Court of Justice to be valid in respect to any sum of money larger than that for which the Stamp, on the said Deed Instrument, or Writing would be sufficient.

XXVII *Stamp on certain affidavits*—No Justice of the Peace or any Officer before whom an affidavit not made for the immediate purpose of being filed, read, or used in any Court of Justice may be taken shall receive or attest such affidavit unless it be written on a Stamp of not less than the value prescribed by the Schedule A annexed to this Act.

XXIX *Expense of providing Receipt Stamps &c*—Every person receiving payment of any sum of money the receipt for which under this Act requires a Stamp, shall (if required) give a receipt bearing the proper Stamp indicated by this Act, and shall bear the expense of furnishing the same and in case of refusal shall be liable to a penalty not exceeding One hundred Rupees. The expense of providing the Stamp of any Bill of Exchange Letter of Credit, Draft Cheque on a Banker or other person Promissory Note or other Order or Obligation for the payment of money made or drawn in the British Territories in India (not being a Bond, Instrument or Writing bearing the attestation of one or more witnesses), shall be borne by the person making or drawing the same.

XXX *Stamp Duties under Schedule B*—Except in any Court of Justice established by Royal Charter or in any Courts of Small Causes established within the local limits of the jurisdiction of any such Court no Instrument or Writing of any of the kinds specified as requiring stamps in the Schedule B annexed to this Act shall be filed exhibited, or recorded in any Court of Justice or Government Office, or shall be received or furnished by any public Officer unless such Instrument or Writing be upon a Stamp of a value not less than that indicated to be proper for it by the said Schedule B. Provided that nothing in this Act shall be held to repeal any special provision in the Code of Civil Procedure or in any other Act or Regulation for the use of plain or unstamped paper in any judicial proceeding, unless such provision shall be expressly repealed by this Act.

XXXI *Effect of provision contained in the Schedules*—Every provision contained in the Schedules annexed to this Act, shall be of the same force as if it were contained in the body of the Act.

XXXII *Decision of questions regarding valuation of claims*—All questions relating to the valuation of claims for the purpose of determining the amount of Stamp duty chargeable under Schedule B annexed to this Act on any petition of plaint or appeal shall be decided by the Court in which such petition of plaint or appeal is filed, subject to any appeal to which the orders of such Court are open.

XXXIII *Governor General in Council may lower rates of Stamp Duty in any District or altogether exempt the same &c*—The Governor General of India in Council may from time to time by an order to be published in the Official Gazette, direct that, in the whole or in any part of the British Territories in India to be specified in such order such lower rates of Stamp Duty as he shall prescribe shall be taken on all or any of the Deeds, Instruments, or Writings specified in the Schedules annexed to this Act, or altogether exempt the same and in like manner as occasion shall require, cancel or vary such order to the extent of the powers hereby given. Such cancellation or variation shall also be notified in the Official Gazette.

XXXIV *Appointment of Officers for collection of Stamp Revenue*—The local Government shall appoint Officers for the collection of the Stamp Revenue and shall assign Districts to such Officers.

XXXV *Orders of Collectors of Stamp Revenue open to revision by Board of Revenue &c*—All orders passed by the Collectors of Stamp Revenue shall be open to revision by the Board of Revenue or other chief controlling Revenue Authority except orders passed under Section XV of this Act, when the Collector shall allow a Deed, Instrument, or Writing not bearing the proper stamp to have the proper Stamp impressed upon it and orders passed under Section I_o of this Act when the Collector shall allow a new Stamp or the value in money to be given in lieu of any Stamp which shall have been damaged, soiled, or rendered unfit for use. All such orders shall be final and shall not be open to revision.

XXXVI *Licensed Stamp Vendors*—The local Government may license or cause to be licensed Vendors of Stamps and may direct how and under what conditions Stamps may be supplied to such Vendors for sale, and what accounts of such Stamps shall be kept by them. The license may be for any time and may at any time be revoked by the authority granting the same.

XXXVII *Licences and Schedules to be stuck up in Stamp Vendor's shop*—Every Vendor of Stamps shall at all times have his license together with the Schedules annexed to this Act in the Vernacular language of the District, stuck up in a conspicuous situation in the place where he sells the Stamps, on pain of a fine not exceeding Fifty Rupees.

XXXVIII *Endorsement of Stamps by Vendors*—Every Vendor of Stamps shall write on the back of every Stamp which he sells, except adhesive Stamps and Stamps used for Receipts, or for Bills of Exchange, Promissory Notes, Drafts or other Orders for money, Agreements for loans falling under Article 13 of the Schedule A annexed to this Act, or Bills of Lading, the date of sale, the name of the person to whom the Stamp is issued and his own ordinary signature, on pain of a fine not exceeding One hundred Rupees.

Collector or (Commissioner)

ACT TO REPEAL CERTAIN ACTS RELATING TO CRIMINAL LAW PROCEDURE.

No. XVII. of 1862.

An Act to repeal certain Regulations and Acts relating to Criminal Law and Procedure. 1st May 1862

WHEREAS by Act XLV of 1860 a Penal Code has been prescribed for British India, and the said Code came into operation on the 1st day of January 1862; and whereas by Act XXV of 1861 a Code of Procedure is provided for the Courts of Criminal Jurisdiction not established by Royal Charter, and the said Code likewise came into operation on the 1st day of January 1862 in the Presidencies of Bengal, Madras, and Bombay, and was at the same time, or has since been, or hereafter may be extended to other parts of British India; and whereas it is expedient to repeal, in the manner hereinafter provided, certain Regulations and Acts, relating to Criminal Law and Procedure: It is enacted as follows:—

I. *Repeal of Regulations and Acts providing for the punishment of offences.*—The several Regulations and Acts set forth in the Schedule hereto annexed, so far as they provide for the punishment of offences, shall be held to have been, and are hereby repealed from the 1st day of January 1862 in the Presidencies of Bengal, Madras and Bombay, and in the other parts of British India in which such Regulations and Acts or any of them were in force on the said 1st day of January 1862, except in so far as they repeal the whole or any part of any other Regulation or Act, and except as to any offence committed before the said 1st day of January 1862.

II. *Repeal of Regulations and Acts not repealed by last Section, in places where Code of Criminal Procedure came into operation on 1st January 1862.*—To the extent expressed in the Schedule annexed to this Act, the Regulations and Acts set forth therein, which are not repealed by the last preceding Section, shall, except in so far as they repeal the whole or any part of any other Regulation or Act, and except as to any offence committed before the said 1st day of January 1862, be held to have been and are hereby repealed from the said time in the Presidencies of Bengal, Madras, and Bombay, and in the other parts of British India in which such Regulations and Acts or any of them were in force on the said 1st day of January 1862, and in which the said Code of Criminal Procedure came into operation on such date.

III. *Repeal of the same Regulations and Acts in places where Code of Criminal Procedure did not come into operation on 1st January 1862.*

—To the extent expressed in the Schedule annexed to this Act, the Regulations and Acts set forth therein, which are not repealed by Section I of this Act and which were in force on the said 1st day of January 1862 in any part of British India in which the said Code of Criminal Procedure did not come into operation on the said 1st day of January 1862, shall, except in so far as they repeal the whole or any part of any other Regulation or Act and except as to any offence committed before the date on which the said Code shall have been or shall hereafter be extended to such part of British India, be held to have been or shall be repealed in such part of British India from the date on which the said Code shall have been or shall be so extended thereto.

IV *Procedure and powers in the investigation and trial of offences committed before 1st January 1862*—In the investigation and trial of offences committed before the said 1st day of January 1862 the Criminal Courts of the several grades and the Officers of Police shall after the passing of this Act be guided by the provisions of the Code of Criminal Procedure so far as the same can be applied wherever the said Code shall be in operation at the time of such investigation or trial, and for the trial and punishment of such offences such Courts shall exercise the jurisdiction and powers vested in them under the said Code of Criminal Procedure provided that no person convicted of any such offence shall be liable to any other punishment than that to which he would have been liable had he been convicted of such offence before the said 1st day of January 1862 and that no such person who shall claim the same shall be deprived of any right of appeal or reference to a Sudder Court which he would have enjoyed had the trial been held under any of the Regulations or Acts hereby repealed.

V *Procedure in the investigation and trial in places to which the Code of Criminal Procedure is extended after passing of this Act of offences committed before date of extension*—In any part of British India to which the Code of Criminal Procedure shall be extended after the passing of this Act the said Code shall subject to the provisions of the last preceding Section be followed in the investigation and trial of any offences committed before the date of such extension.

VI *Saving of certain sentences passed for offences committed before Code of Criminal Procedure came into operation by reason only of the procedure of that Code having been followed*—No sentence passed before the passing of this Act for any offence which shall have been committed before the 1st day of January 1862 (or when ever the said Code of Criminal Procedure shall not have been extended to any place in British India on the said 1st day of January 1862, then before the date on which the said Code shall have been extended to such place) shall be liable to be quashed or set aside by reason only of the procedure in the investigation or trial of any such offence having been wholly or in part the procedure provided by the said Code of Criminal Procedure. Provided that, if in any such case it shall appear that the accused party has been deprived of any right of appeal or reference to a Sudder Court which he would have enjoyed had the trial been held under any of the Regulations or Acts hereby repealed, the Sudder Court or the highest Court of Criminal Jurisdiction may call for the proceedings in the case and pass such order thereon as it may deem just and proper.

VII *Saving of certain sentences passed, &c. before passing of this Act*—Nothing in this Act shall affect any sentence or order passed, or any proceeding held, or any act done, previously to the passing of this Act, and in accordance with any Act or Regulation repealed by this Act.

MARKETS AND FAIRS ACT

No IV of 1862

An Act for Regulating the Establishment of Markets and Fairs

Received the assent of the Governor General on the 14th day of Apr 1862, and published by the Governor of Bombay on the 21st day April 1862

WHEREAS the establishment of new Markets or Fairs in the neighbourhood of places where Markets or Fairs have been previously established leads to disputes between the Owners of the lands on which such new and previously established Markets or Fairs are held and such disputes not unfrequently occasion breaches of the peace and serious inconvenience to the frequenters of such Markets or Fairs It is enacted as follows—

I *Any new Market or Fair to be established without permission of the Magistrate of the District*—After the passing of this Act no person shall establish a new Market or Fair without permission in writing from the Magistrate of the District. If any person shall attempt to establish a new Market or Fair without such licence he shall in conviction by the Magistrate be subject to a fine not exceeding two hundred Rupees or in default of payment to simple imprisonment for any period not exceeding two calendar months

II *Application for permission*—When any person desires to establish a new Market or Fair he shall make application in writing to the Magistrate of the District. The application shall specify the name of the place at which it is proposed to establish such new Market or Fair the days on which it is to be held the name of the place where the nearest existing Market or Fair is held and the days on which it is held, the distance in English miles between the two places and the reasons of the applicant for desiring to establish the new Market or Fair

III *Issue of Proclamation and Notice*—On receipt of the application the Magistrate shall issue a proclamation stating the desire of the applicant to establish a Market or Fair at the place named by him and the days on which it is proposed to be held and calling upon any person who may have any objection to the establishment of the Market or Fair to state his objection in writing within six

weeks from the date of the proclamation. The proclamation shall be fixed in a conspicuous place in the Village or Town in or near to which it is proposed that the new Market or Fair shall be held and a copy of the same shall be affixed at the Police Station within the jurisdiction of which the Village or Town is situate and in the Court of the Magistrate. If it shall appear that any existing Market or Fair is held within a distance of four miles from the place where it is proposed that the new Market or Fair shall be established the Magistrate shall cause a Notice to the effect of the Proclamation to be served upon the owners of the land where such existing Market or Fair is held. The Proclamation and Notice shall be published and served at the expense of the Government.

BHAGDAREE AND NURWADAREE TENURES ACT

No V of 1862.

An Act for the Preservation of the Bhagdaree and Nurwadaree Tenures.

[Received the assent of the Governor General on the 14th day of April 1862 and published by the Governor of Bombay on the 24th day of April 1862]

WHEREAS it has been found that the permanence of the tenures known as the Bhagdaree and Nurwadaree tenures which have existed from time immemorial in certain parts of the Presidency of Bombay is endangered by the increasing practice of attachment and sale by civil process of the homesteads and building sites (Gubhan) appurtenant or appendant to the constituted Bhags or the recognized sub-divisions of such Bhags or Shares in Bhagdaree or Nurwadaree Villages

And whereas it is desirable to prevent the alienation assignment mortgaging charging or encumbering of any portion of any Bhag or Share in any Bhagdaree or Nurwadaree Village other than a recognized sub-division of such Bhag or Share or the alienation assignment mortgaging charging or encumbering of any homestead building site Gubhan or premises appurtenant or appendant to any such Bhag or Share or recognized sub-division separately or apart from such Bhag or Share or recognized sub-division It is therefore enacted as follows —

I No portion of a Bhag or Share in any Bhagdaree or Nurwadaree Village to be liable to seizure or attachment or sale by the process of any Civil Court — No portion of a Bhag or Share in any Bhagdaree or Nurwadaree Village other than a recognized sub-division of such Bhag or Share shall from and after the passing of this Act be liable to seizure or attachment or sale by the process of any Civil Court and no process of such Court shall be enforced so as to cause the dismemberment from any such Bhag or Share or recognized sub-division thereof of any homestead building site Gubhan or premises appurtenant or appendant to such Bhag or Share or recognized sub-division thereof

II Whenever any such process has issued it shall be lawful for the Collector of the district to move that such process be set aside or quashed — And the Court shall not aside or quash such process if it be of opinion that the case is one falling within this Act — Whenever any process has issued out of any Civil Court for the seizure or attachment or sale of any portion of a Bhag or Share in any Bhagdaree or Nurwadaree village other than a recognized sub-division of such Bhag or Share or for the seizure or attachment or sale of any homestead building site Gubhan or premises appurtenant or appendant to such Bhag or Share or recognized sub-division thereof it shall be lawful for the Collector or other chief Revenue Officer of the District in which any such Bhagdaree or Nurwadaree Village is situated although not a litigating party to move in such Civil Court that such process shall be set aside or quashed and that the provisions of this Act be put in force and if such Court be of opinion on the evidence adduced by the Collector or other chief Revenue Officer of the district on such motion that the case is one falling within this Act it shall set aside or quash

such process, and cause the provisions of this Act to be put in force and it is hereby further enacted that any order which the said Court may make on such motion shall be appealable in the same manner as a decree of the Court in which it is made

III It shall not be lawful to alienate, assign mortgage or otherwise charge or encumber any portion of any Bhag or Share in any Bhagdaree or Nurwadaree Village other than a recognized sub-division of such Bhag or Share — It shall be lawful for the Collector or chief Revenue Officer of the District summarily to remove any person or persons who may be in possession of any portion of any Bhag or Share as aforesaid — It shall not be lawful to alienate assign mortgage or otherwise charge or encumber any portion of any Bhag or Share in any Bhagdaree or Nurwadaree Village other than a recognized sub-division of such Bhag or Share or to alienate assign mortgage or otherwise charge or encumber any homestead building site Gubhan or premises appurtenant or appendant to any such Bhag or Share or recognized sub division appurtenant or appendant thereto apart or separately from any such Bhag or Share or recognized sub division thereof Any alienation, assignment mortgage charge or encumbrance contrary to the provisions of this section shall be null and void And it shall be lawful for the Collector or other chief Revenue Officer of the District whenever he shall upon due inquiry find that any person or persons is or are in possession of any portion of any Bhag or Share of any homestead building site Gubhan or premises appurtenant or appendant to such Bhag or Share in any Bhagdaree or Nurwadaree Village other than a recognized sub division of such Bhag or Share in violation of any of the provisions of this Section summarily to remove him or them from such possession and to restore the possession to the person or persons whom the Collector shall deem to be entitled thereto and any Suit brought to try the validity of any order or orders which the Collector may make in such matter must be brought within three calendar months after the execution of such order or orders

IV Act not to prohibit the issue and execution of any process in other respects authorized by law — And it is hereby further declared that nothing in this Act contained shall be construed as prohibiting the issue and execution of any such process as aforesaid against any Bhag or Share or recognized sub division of any Bhag or Share in any such village as aforesaid conjointly and in the gross with its homestead building site Gubhan and other proper appurtenances if the issue and execution of such process be in other respects authorized by law

V Act not to prohibit the alienation assignment mortgaging charging or encumbering any Bhag or Share as aforesaid if in other respects warranted by law — And it is hereby further declared that nothing in this Act contained shall be construed as prohibiting the alienation assignment mortgaging charging or encumbering any Bhag or Share or recognized sub division of any Bhag or Share in any such village as aforesaid conjointly and in the gross with its homestead building site Gubhan and other proper appurtenances if such alienation assignment, mortgage charge or encumbrance be in other respects warranted by law the object and intention of this Act being to prevent the dismemberment of Bhags or Shares or recognized sub-divisions thereof in Bhagdaree or Nurwadaree Villages and also to prevent the severance of homesteads building sites Gubhan or other premises appurtenant or appendant to Bhags or Shares or recognized sub divisions of Bhags or Shares from the same or any of them

CIVIL ABSENTEE RULES

PORT WILLIAM FINANCIAL DEPARTMENT THE 27th JUNE 1854.

The following Rules for the grant of Leave of Absence, for regulating Deductions from Salaries and Deputation Allowances, and for limiting the period of service of Civil Servants are published for general information and will take effect in all the Presidencies and Settlements under the Government of India from the date of the publication of this Notification, in supersession of the Rules of the 17th May 1843 and the 25th August 1851 —

CHAPTER I

RULES FOR APPLICATION FOR LEAVE OF ABSENCE

Section I — No leave of absence from any Office or Station can be granted but by the Government under which the applicant is held and in the application of the part of the Government in which leave is to be granted.

NOTE — This Rule must be considered as superseding the Rule under which Commissioners of the Land Revenue and other Officers have heretofore been allowed to grant leave of absence in Bengal.

Application must be made publicly through the regular channel in the Department in which the applicant may belong.

Section II — The Office and Allowances of the holder of a Civil Office quitting his Station without leave will entirely cease from the date of his quitting until his return or in the event of his subsequently obtaining leave to the date of such leave being granted him.

Section III — No leave of absence shall have any retrospective effect, except in cases of sickness, to be attested by medical certificate, conforming in every respect to the directions contained in Section V.

1. Privilege leave with retrospective effect not claimable by an Officer compelled to absence from office without waiting for leave. (Notification of 23rd May 1848)

2. The Commissioners of Revenue and Police the Commissioner in Sind and the Resident in the Persian Gulf are vested with power of granting privilege leave for one month only to the officers subordinate to them, and in cases where leave for more than one month is applied for the sanction of Government is necessary. The Commissioners are also vested with power to grant leave to their subordinates to proceed to Bombay for the purpose of undergoing examination.

3. The reckoning of leave of absence is made from the date of relinquishing charge of office without reference to the specification of commencement of leave in the Government orders.

4. Officers are to return to their station on the termination of leave whether that day falls on Sunday or otherwise.

5. Leave of absence whether on medical certificate or on private affairs granted without specification of the date of its commencement may be taken from any date within one month after the date of the Government order, otherwise a fresh application will be necessary.

6. The Secretary of State for India will not accept a resignation from any Civil Servant whilst on leave in Europe without ascertaining that there are no demands against him.

Every Civil Servant immediately on his arrival in England is to forward to the office of the Secretary of State for India a copy of the Government letter granting him leave to Europe.

7. He should also forward a certificate from the Civil Pay Master showing the date of sailing of the vessel in which he embarked, the period for which leave has been granted the amount of salary the proportion thereof, to which an absentee is entitled under the regulation, during absence and whether it is to be drawn in India or otherwise.

- 9 In a case of urgent necessity the local Government may grant leave to an officer of the Account Department, but as a rule no Department or Government should give leave except the one under which the officer is serving as none other can possibly know how his absence will affect the service

CHAPTER II

RULES FOR SICK LEAVE

Section IV—Upon application duly made, the Government may grant leave of absence on medical certificate to any Civil Servant to any place in India or Europe, or elsewhere as he may consider most conducive to the restoration of his health without any restrictions whatever as to the places to which he may resort.

Section I—When an application for leave of absence is made on the ground of illness it must be accompanied by a certificate and a statement of the case from the Medical Officer to whom the applicant has been attended distinctly stating (1) the personal description of the nature of the disease, the symptoms by which it is manifested, the period during which it has existed as far as the knowledge of the Medical Officer extends, and the necessity for temporarily removal to some other place in India or in Europe or elsewhere as laid down in Section IV and in case of the applicant visiting the President's Representative to obtain leave the certificate must be countersigned by the Members of the Medical Board on their being satisfied on a personal of the Medical Attendant's statement of the case that the leave applied for is absolutely necessary towards his recovery. (2) With the applicant's Medical Attendant he or she must proceed to a sanatorium or other place without visiting the Presidency the certificate must, in the interim, be countersigned by the Superintending Surgeon of the Division in which the applicant may be located and afterwards submitted with the statement of the case for the consideration and countersignature of the Members of the Medical Board.

The certificate shall be given in the following form—

I, A. B. Surgeon at (or of) — do hereby certify that E. F. of the Civil Service is in a bad state of health and I solemnly and sincerely declare that a curing to the best of my judgment, a change of air is essentially necessary to his recovery and do therefore recommend that he may be permitted to proceed to sea, or to such place as the Surgeon may think fit to express in the certificate.

The following form shall be observed by the Members of the Medical Board or the Superintending Surgeon, in countersigning the Surgeon's certificate—

We (or I) do hereby certify that according to the best of our (or my) professional judgment after careful personal examination of his case we (or I) consider the state of health of E. F. to be such as to render leave of absence for a period of ———— absolutely necessary (or highly desirable) for his recovery.

An application for extension of leave must, if the applicant be in India, be accompanied by a certificate to a like effect from the Medical Officer by whom the applicant is attended together with a statement showing sufficient reason for the extension solicited and such certificate must be countersigned by the Members of the Medical Board or the Superintending Surgeon of the Division in which the applicant may be located. (1) The case may be on personal of the statement. In like manner if the applicant at all have proceeded to the territories under the Government of the East India Company he must furnish a certificate and statement to the required effect from a Surgeon Physician at the place of his temporary residence by whom he has been attended, such statement and the period if it be stated and the certificate to be countersigned by the examining Physician of the East India Company if the applicant is in England or if in England by the Principal Medical authority of the colony or country to which the absence may have proceeded, or some sufficient reason stated for the want of such counter signature if the certificate be not so countersigned. The Medical Board or Superintending Surgeon before countersigning a certificate as above mentioned must either personally examine the applicant or state some sufficient reason why they or he have or hath been unable to do so. When any of the required particulars are neglected leave will be refused.

Section II—The following condition will in future attach to leaves of absence granted to Civil Servants who may be declared by a sufficient medical certificate to require such leave for the recovery of their health—

Let the total period of absence with the privileges hereinafter provided shall not (as is especially excepted in Clause 5 of this Section and in Section VII of these Rules) exceed eighteen months in the whole nor shall it exceed fifteen months on any one occasion.

2ndly—The office of the absentee will be considered to be vacated if he shall be

absent beyond eighteen months altogether or beyond fifteen months at any one time unless he shall obtain leave under Clause 5 of this Section such absence to be computed if he shall proceed to a Sanitarium within the Presidency from the date of his arrival thereat to the date of his quitting the Sanitarium; if to any place beyond the Presidency but within the continent of India, from the date of his leaving the frontier of his own Presidency to the date of his return thereto; and if he shall proceed to sea, from the date of the sailing of the vessel on which he may have embarked from any port in India which is not more distant from his Station than the port of his own Presidency to the date of the arrival at any port within the Presidency to which he belongs, or at any other port which is not more distant from his Station than the port of his own Presidency.

3dly.—The absentee will be entitled to draw a moiety of his salary and (the same will be paid to him during such period of absence provided that he shall in no case draw a larger sum than Rupees 10,000 (£1,000) per annum during that period) in cases in which the emolument out of the absentee's office does not exceed Rupees 5,000 per annum, no deduction therefrom shall be made for the period of eighteen months, nor shall such deduction be made in other cases as shall reduce the allowance below Rupees 5,000 (£500) per annum. In cases in which the salary of the absentee may not be of that amount the full salary will be granted.

4thly.—For the interval elapsing, between departure from Station to the commencement of reckoning absence, or between the end of reckoning absence and re-arrival at Station the absentee will be allowed a special leave for an additional period of one month, two months or three months, according to the distance to be travelled as prescribed in Section XX of these Rules and during this additional period the absentee will be entitled to draw the same salary as is allowed by Clause 3 of this Section.

5thly.—Civil Servants proceeding on sick leave beyond sea, will be allowed special leave for the interval elapsing between departure from Station and the commencement of reckoning absence, and between the end of reckoning absence and re-arrival at Station, for an additional period of four, six or eight weeks according as the distance to be travelled shall not exceed 300 or 600 miles or be in excess of the last mentioned distance on the condition that during this additional period the absentee shall be entitled to draw the same rate of allowance as laid down in Clause 3 of Section VI. If the leave on medical certificate be taken in India the preparatory leave is to be calculated at the rate of one day for every fifteen miles of the distance to be travelled to the Sanitarium and it is allowed on both occasions: at the time of proceeding to the Sanitarium and also at the time of returning to Station. (Notification of the Government of India, 14th October 1885) and the resolution of the Government of India, 14th May 1860.

6thly.—Sick leave is not allowed when proceeding to Europe in extension of sick leave taken in India. (Bombay Government letter 2nd April 1861)

7thly.—Officers proceeding on sick leave to Europe from a Presidency Town are allowed preparatory leave for a period not exceeding one month. (Government of India, 7th September 1861)

8thly.—Separate applications for the special leave above referred to are no longer required in the cases of Civil Servants proceeding on leave on medical certificate. In cases of Furlough on private affairs separate applications for leave for the purpose of travelling must still be submitted. (Resolution of the Government of India, 1st April 1885)

9thly. (As amended by the Government of India on the 22nd December 1885.)—If the absentee shall apply under medical certificate to remain absent for a longer period than eighteen months, or fifteen months at any one time and it shall appear to the Honorable the Court of Directors to be absolutely necessary after examination by their Medical Officers in England that he should do so, the leave which may have been granted in India, will under the orders of the Honorable Court be extended to the limit of two years, with permission to retain office and half salary within the limits enjoined during such extension. If the absentee be in India, the leave may be extended to the limit aforesaid, under the orders of the Government of India, or the subordinate Governments, upon the certificate of a Board of Medical Officers, to be summoned to report on the state of the absentee's health.

10thly.—If the absentee be compelled by the state of his health under due medical certificate to remain absent for a longer period than eighteen months, or fifteen months at any one time or beyond two years in the case of an extension under Clause 4 he will as before stated, vacate his appointment but he will be permitted to receive an allowance at the rate of £300 per annum if above ten years' standing at the time

when the leave was granted or of £250 if not above ten years standing at the time when the leave was granted, for such further period of absence as shall not exceed the entire term of three years in the whole. At the expiration of that term all allowance must cease until he reports his return to his Presidency.

Section VII—If a Civil Servant of more than fifteen years service, after having been absent on sick leave for eighteen months in the whole or for fifteen months of one time at whatever period of his service such sick leave shall have been taken shall be again compelled by the same cause to apply for leave of absence the Government of India and the subordinate Governments may on special grounds grant leave of absence for one further period not exceeding six months during which the absentee may retain his office and half his salary under the same conditions as before.

Section VIII—If a Civil Servant, after fifteen years service shall be compelled by ill health to apply for further leave of absence, he may be permitted on special ground to obtain it but his absence will involve the loss of office and salary the Government of India and the subordinate Governments will however respectively exercise a discretionary power to grant in such last mentioned cases a Sick Absentee Allowance not exceeding in Europe, £1,000 or £500 per annum for a further period not exceeding twelve months.

Section IX—A Civil Servant who has taken sick leave under the Rules of the 17th May 1845 will not be debarred by that circumstance from taking such leave again under the above Rules with the privilege of retaining office provided the leave be not granted till three years have expired after his return from his leave under the Rules of 17th May 1845.

Section X—None of the above mentioned Rules will be applicable to Members of Council. Each Member may however with the sanction of the Government be permitted to be absent under medical certificate for a period not exceeding six months retaining his office and receiving half his salary which shall be paid to him during such absence but if his absence shall exceed six months his office will be vacated.

Section XI—Civil Servant who may leave to draw their allowances while absent on account of sickness under the above Rules will be required to give security in such amount and form as may be fixed by the Government for the refund of any excess that may be drawn either by the Agents at the Presidency or by themselves in case of her coming under retrenchment.

Absentees in Europe on medical certificate are not under the necessity of drawing their salaries through their Agents in India on bills submitted by the Civil Pay Master but are at liberty to draw them at the office of the Secretary of State for India at the rate of 2s the rupee on the production of the last certificate. An Officer residing in England may draw his salary during his absence through his Agents on guarantee on application to the Civil Pay Master instead of as is now the rule going up to Government for sanction in each individual case.

CHAPTER III

RULES FOR SHORT LEAVE ON PRIVATE AFFAIRS

Section XII (*As amended by the Government of India on the 31st May 1856*)—The Government may grant to Civil Servants leave of absence to any place in India Europe or elsewhere without any restriction whatever as to the place to which they may resort for a month in each calendar year with or without salary at the discretion of the Government drawn by such Servant. Such leave however will not be granted when the Government is satisfied that no inconvenience will arise from the departure of the Officers being. No second leave can be granted under this Rule until the completion of eleven months from the expiration of the last leave if taken at the same time (if not the latest return in any such leave or until the completion of six months from the expiration of the last instalment of a leave if it has been divided). Servants not availing themselves of this indulgence in any one year may obtain under the like condition half absence for two successive months to commence at or after the expiration of twelve months from the termination of their former leave and if two years elapse with an interval the privilege of leave for three months may in like manner be granted at the expiration of thirty-three months from the termination of the last preceding leave but no leave shall be granted under this Rule for any period exceeding three months. If an Officer shall not return at the expiration of the period of leave granted him under this Rule he shall forfeit all pay and allowance during the time of his remaining so absent without leave and if he shall so continue absent for more than one month beyond the term granted his office shall become vacant.

1 When the leave is divided, it is not necessary that six months should elapse before granting the second instalment provided it is taken in the same calendar

3. An Officer of the Department of Account taking Furlough to England retains a *locus in loco* on the appointment he holds at the time, and will be entitled to return to it on coming back to India. During such absence he will be entitled only to the usual Furlough allowance leaving the whole salary of his appointment available for his *locus tenens*.

4. The two years passed at Haileybury are not allowed to count as actual residence in calculating the period after which an officer is entitled to Furlough. Officers intending to take Furlough or to return from the service will in future be required to continue to serve unless disabled by sickness for a period of three months. After return to duty from privilege leave under the Civil Absentee rules failing which the advantages will be forfeited.

5. The period of preparatory leave prior to Furlough on private affairs during which the Absentee shall be allowed a moiety of his allowance without limitation shall be governed by the rules applicable to similar leave in case of medical certificate (Clause 4 Sec VI) extending to 4, 6 or 8 weeks according to circumstances, and a separate application for this leave must be submitted.

6. Officers stationed at the Presidency Town will be allowed preparatory leave for a period not exceeding one month.

7. The rule laid down in the two preceding articles is applicable also to officers retiring from the service, provided it can be granted without detriment to the Government service.

Section VII.—The Furlough Allowance granted during the periods mentioned in the last section will be at the rate of £500 per annum and the receipt of it will not on any grounds whatever be permitted if it is any less than the above.

Section VIII.—Civil servants who may have been employed by the Government to quit the service on a medical certificate before completion of their term of residence in India will be entitled to receive during their absence on private affairs taken subsequently to their completion of that period of residence the ordinary Furlough Allowance of £500 per annum for three years.

Section IX.—In applying the provisions of the present rules in substitution of those before existing periods of absence of less than three years will not be taken into account in India in the case of a year or more until the present qualification of twenty years residence has been attained.

Clause 1.—Absence on medical certificate to the extent of one year will reckon as service in the service of the Government. In addition to the three years of service under the provisions of the present rules, the Government will allow to be reckoned as Indian service all periods of absence on private affairs taken under Sections XII and XIV of these rules will also count as service and residence.

MILITARY OFFICERS.

Section XI.—Military Officers employed in the Civil Department will be subject to the Rules laid down in General Order No. 1150 dated 17th November 1854 for the grant of leave of absence and subject to Officers holding Military Staff appointments.

1. Military Officers in Civil employment shall be entitled to leave of absence for two or three months (as the case may be) and shall be allowed the commensurate leave for two or three months (as the case may be) during which an absence is to be regulated by the Military rules under which any expenses incurred in providing for the performance of the duties of the absentee is made good to him. (Notification 1st September 1854 and a Resolution of the Government of India 25th September 1854.)

2. Military Officers get leave in continuation of three months prior to departure either on sick leave or on private affairs, and receive ordinary first two months full allowance (the expenses incurred for the performance of the duties of service paid by himself) and afterwards the deduction in case of sickness or private affairs will commence. (Government of India's Resolution 18th September 1854.)

3. Military Officers interruptedly at his duty in the Military Department when temporarily acting in the Civil Department does not lose his title to privilege leave. (Government of India's Notification 18th July 1856.)

4. Military Officers entering the Civil employment shall be subject to the Civil Department rules for the number of months prior to the Civil Absentee Rules to entitle them to privilege leave for one two or three months. (Government of India's Notification 26th January 1856.)

5. Medical Officers in Civil employment shall be subject to the Civil Absentee Rules in respect of privilege leave, and the expenses incurred in providing for the performance of the duties of the absentee is made good to him. (Notification 1st September 1854.)

6. Preparatory leave in Military Officers in Civil employment is regulated by the Military rules with the exception that such leave shall in no case be extended

beyond a period of four six, or eight weeks according to the distance travelled, which shall not exceed 300 or 600 miles or be in excess of the last mentioned distance (Government of India's Notification 14th January 1860)

7 Military Officers when absent from Head Quarters for the purpose of appearing before the Examination Committee in Bombay are regarded as on duty (Bombay Government Notification 18th January 1860)

CHAPTER V

RULES FOR JOINING STATIONS

Section XX—There shall be allowed to Officers appointed to any new office the periods of one month two months or three months for joining according as the distance may not exceed 300 or 600 miles, or be in excess of the last mentioned distance. Officers not joining their Station within the said periods respectively shall forfeit their salary

NOTE—The time allowed for joining is computed from the date of the order reaching the Officer appointed

and the wages or subsistence allowances for the time delayed in excess of the above periods and if such excess shall exceed one month the office shall be vacated unless otherwise specially ordered by Government

1 An Officer transferred from one station to another whilst absent on leave is entitled unless he receives instructions to the contrary to joining time in addition to the period of his leave and such time as well as his travelling allowances (if he is entitled to any under the rules) will be regulated by the distance from the old to his new station or from the place where he receives the order appointing him to his new station which ever in the case of joining time is the nearest of his new station and in the case of travelling allowance in least expensive to Government.

2 The time allowed for joining an appointment is computed from the date of order reaching the Officer appointed

3 For the purpose of joining an appointment by railway one hundred miles a day and all well for the purpose of travelling by steam one hundred miles a day or the time actually occupied in the voyage (Notification of the Government of India, 18th April 1861)

4 A Candidate is allowed for preparation to a Civil Servant when proceeding to join an appointment either by railway or by sea (Notification of the Government of India, 18th September 1861)

Section XXI—Upon the first appointment of a Civil Servant who shall be reported on duty for the Public Service the examiners appointed by the Government to any Civil Station there shall be allowed for travelling expenses to the Station an allowance at the rate of 8 annas per mile by the direct road according to the Police and Tables of the Public Office the bill for which allowance will be presented to the Civil Auditor after the Officer shall have joined the Station if required in advance an order of the Government shall be necessary

1 An Officer attending an examination in the Vernacular languages has in no case a claim to travelling allowances unless he can produce a certificate of expenditure from the examiners

2 Travelling allowance at the usual rate of eight annas per mile to be drawn by all Civil Station holders and by all other persons who are removed from one place to another or on promotion or at their own request

3 Officers proceeding by Railways on the public service are entitled for such distance to travelling allowance at 3 annas per mile

Section XXII—The salary of the office will be payable from the date only of the Officer joining, but in case of Junior Civil Servants the salary of Assistant will be payable from the date of their being reported qualified for the public service unless stated under the preceding Rule through delay in joining the Station to which they may be appointed.

The Rule of June 1841 is not superseded by this Section (Circular on the Out of employ List is entitled to salary from date of appointment, if not coming under forfeiture for late joining) (Notification of 23rd May 1860)

Section XXIII—In case of a change of office when an Officer is appointed to a higher situation he shall not draw the higher salary until he joins. For the period occupied in travelling the Rule No XX regulating the time and distance for joining station shall be applicable and the Officer will for the periods allowed in that rule, respectively draw out of the salary of the office he is about to join a sum equal to that of the previous situation

CHAPTER VI

RULES FOR DEPUTATION ALLOWANCES.

Section XXII.—The sum of Company a Rupees 52,200 per annum having been fixed

Note—This rule will equally apply in case of a Political Resident taking a leave of absence for two or three months, for which in other cases he would suffer no deduction. The excess above the maximum monthly salary will in that case be enjoyed by the person in charge.

under the orders of the Court of Directors, as the maximum salary of Civil Officer for the offices of Government under the situation of Member of Council Civil Servants who may draw larger allowances than this annual sum as a consolidated personal and sumptuary allowance in consideration of the necessary expenses of their position will, in all cases of absence, be treated in respect to deductions as drawing only the allowance thus limited and the excess above the monthly salary yielded by that annual sum shall remain as a local addition to the usual Deputation Allowance to be drawn by the Officer performing the duties, to meet the necessary expenses of his position provided however that in the cases of Civil Servants appointed to offices of the description referred to subsequent to the 2nd June 1834 the sum of Rupees 50,000 shall be held to be the maximum salary under the Government Resolution No. 563 of that date.

Section XXIII.—Deputation Allowances shall be granted to Civil Servants temporarily performing the duties of an office according to the following rates, and subject to the limitations and conditions hereinafter laid down:—

1. To Civil Servants not holding any substantive appointment at the rate of 50 per cent. on the monthly salary of the appointment officiated in, such Deputation Allowance being in addition to the Substantive Allowance of their respective ranks.

2. To Civil Servants holding an office of inferior emolument when officiating in an office of superior emolument, at the rate of 20 per cent. upon the monthly salary of the appointment officiated in, in all cases in which the salary of such appointment shall not exceed Company a Rupees 2,000 per mensem and in respect to all appointments of such the salary shall be more than Company a Rupees 2,000 per mensem, at the rate of 20 per cent. upon Company a Rupees 2,000 and of 10 per cent. on the amount in which the monthly salary may exceed Company a Rupees 2,000; provided, however that no lower rate of Deputation Allowance shall be given than Rupees 200 per mensem.

3. The Deputation Allowance shall in all cases be in addition to the salary of the substantive appointment held by the Officer on Deputation.

4. The above rates are granted provisionally subject to future revision.

5. In the Punjab, Agra, and other places where appointments are by leases, the sum of Deputation Allowance payable at such rates will be calculated not upon the salary of the individual Officer holding the substantive appointment in which the Officer deputed is or be temporarily officiating but on the average rate of salary attached to the particular class to which the appointments may belong.

6. A Civil Servant acting for another shall have no claim to commission or fees, where any such sources of emolument exist. These shall be regarded as forming part of the income of the Officer to be relieved, subject to the prescribed deductions.

7. A Civil Servant acting in an appointment of the nature of which is to be reduced on the retirement of present incumbent, will draw Deputation Allowance on the reduced salary.

8. An Officer officiating in more than one appointment will be entitled to Deputation Allowance, regulated by the aggregate amount of the salary of the offices.

9. An Officer appointed permanently to a higher situation but prevented from joining his appointment by an order of Government and detained to officiate in a situation of still higher emolument than the one to which he has been permanently appointed, will be entitled to a Deputation Allowance in addition to the higher salary to which he has been promoted.

10. Deputation allowance is restricted to actual charge.

11. Officers in charge of the current duties of an office are to receive a moiety of the sum which is the regulated allowance for officiating in the appointment, provided it does not raise the total receipt of the officer beyond the salaries of his higher office.

12. An officer absent on privilege leave is clearly not entitled to acting allowances such being payable only for the period during which he is in the actual performance of duty.

13. An officer officiating in the Department of Account in an appointment of which the permanent incumbent has applied for Furlough will be entitled to the full salary from the date of the embarkation of the Absentee.

Section XXVI—No Civil Servant temporarily officiating for another shall draw an amount larger than the entire emoluments of the office in which he is officiating and if the amount of the Deputation Allowance according to the prescribed scale added to the permanent emoluments of the officiating Servant would exceed the emoluments of the office in which he is temporarily acting the excess shall not be drawn. But this provision shall not apply to the case of any Officer deputed for special reasons to act in an office of inferior emolument to his own. In cases where an Officer holding two appointments, on being deputed to officiate for another shall be relieved only from one, he shall receive no Deputation Allowance, unless the emoluments of the office in which he is deputed to act exceed the united emoluments of his permanent appointments and in that case the Deputation Allowance shall be limited to the difference.

The deputation allowance of an Officer acting at one and the same time, in more than one appointment is calculated at the rate of 20 and 10 per cent on the aggregate amount of the salaries of the two appointments, provided the Deputation Allowance when added to the substantive salary of the acting Officer does not exceed the emoluments of the higher office in which he officiates.

Section XXVII—No subordinate Officer acting for his principal or for any other person holding a superior appointment, in the same office or establishment, at the same Station shall be entitled to any Deputation Allowance until after the expiration of one month and then the allowance is not to be drawn in arrears. But a Servant previously out of employment or who may be deputed to act from a different Station shall be entitled to Deputation Allowance from the date at which he may enter upon his discharge of the duties to which he has been temporarily appointed.

1. A subordinate officer who has acted in any appointment on two occasions within a brief period may in the interval be permitted to draw acting allowance from the beginning.

2. A subordinate officer acting in a superior appointment taking privilege leave after first in which the next officer who is also a subordinate required to act for another month without officiating allowance as the provision of Section XXVII of the rules refer not to a superior Officer but to a superior office in the same station and therefore no subordinate is entitled to draw any acting allowance until he himself has acted for one month.

3. When a Covariant Officer officiates for an Uncovenant Officer or Military and Medical Officers in Civil employment on sick leave the Deputation Allowance shall be regulated on the same principle as if the absence were a Civil Servant.

Section XXVIII—Civil Servants, if deputed to act at a distance from the Stations where they are employed or if ordered by Government on special duty shall be permitted to draw Travelling Allowances at the rate sanctioned in the case of a first appointment.

CHAPTER VII

RULES FOR LIMITING THE PERIOD OF SERVICE

Section XXIX—After thirty five years service no Civil Servant shall be appointed to any new office nor be permitted to retain an office which he has held for a period of five years and upwards except in special cases which are to be referred to the decision of the Home Government. This Rule will be applicable to every Civil Servant appointed to office after its promulgation and to the case of every other Civil Servant to whom it relates at the close of five years from the 25th August 1834.

CHAPTER VIII

RULES FOR THE GRANT OF LEAVE OF ABSENCE TO LAW OFFICERS

Section XXX—Law Officers may obtain sick leave and short leave on private affairs, under the conditions prescribed in the case of Civil Servants, both as respects the periods of absence and the limitation of Allowances during such absence. Leave will however only be granted at the convenience of the Government and no additional expense will on any consideration be incurred by the Government on account thereof.

If any Law Officer shall quit his duty save on leave under medical certificate, or on short leave on private affairs, he will be considered to have vacated his appointment.

The foregoing rules are made applicable to Administrator General.

CHAPTER IX.

RULES FOR CHAPLAINS AND ASSISTANT CHAPLAINS

Section XXXI—Chaplains and Assistant Chaplains may take furlough on private affairs and on medical certificate: also privilege leave and leave for short periods on private affairs and on medical certificate in or out of India, on the same terms and conditions, as Military Officers, with the following modifications—

1st—Chaplains being allowed to retire after twenty years service the period of Furlough on private affairs is in their case limited to the present term of three years. The Furlough may however either be taken in one period or be divided into two periods, whether of eighteen months each or of two years and one year respectively and if divided, the first Furlough may be taken as at present, after seven years residence and the second Furlough after a further residence of ten years in India. As respects Chaplains and Assistant Chaplains appointed before the 11th January 1854 when the period of service was only eighteen years, their second Furlough if they should exercise the option of taking Furlough in two periods, will be available after a second residence in India for a term of eight years.

2ndly—No Furlough or leave of absence, whether on private affairs or on sick certificate, taken in Europe or elsewhere out of India in excess of three years will be allowed to count as service in India in the twenty years which qualifies Chaplains for their Retiring Pensions.

The new Rules not to have retrospective effect so as to deprive Chaplains of the privilege of counting as service leave already taken under the Old Rules. (Para 3 of the Honorable Court's Despatch No. 21 of 5th March 1856)

Section XXXII—The Furlough Pay of Chaplains will remain as at present. With regard to their Allowance during sick leave to any place out of India, they shall receive salary (but at a rate not exceeding £600 per annum) for the first six months of absence and for the remainder twelve months, an Allowance equal to the Furlough Pay of their standing. If the leave be extended an Allowance equal to Furlough Pay may be drawn for a further period of eighteen months.

Chaplains and Assistant Chaplains may be granted leave of absence in India on medical certificate to the extent of one year on their full salaries, subject to a deduction of one-third, but not to reduce the salary below Rs. 500. (Para 4 of the Honorable Court's Despatch No. 21 of 5th March 1856)

Chaplains and Assistant Chaplains may have privilege leave once in every five months, and be allowed accumulated privilege leave to the extent of three months after fifteen months continuous duty. (Notification of the Government of India, 18th September 1857)

Chaplains and Assistant Chaplains granted sick leave to Europe or beyond sea, receive salary at the rate of Rs. 500 for the first six months, and their Furlough Pay for the remainder of their leave. (Para 4 of the Honorable Court's Despatch No. 78, of 5th September 1855)

Leave under Section XII cannot be granted preparatory to Furlough or retirement from the Service and to have the benefit of its advantages the party must continue to serve, unless disabled by sickness, for three months from the date of his return from privilege leave. (Notification of the Government of India, 19th September 1856.) Reprietary leave may however be granted on half salary under the same conditions. (Declared applicable to Chaplains and Assistant Chaplains by Government Letters No. 1 of 3rd January and No. 87 of 5th March 1857)

Chaplains and Assistant Chaplains during leave preparatory to proceeding on Medical leave out of India are entitled to Rs. 416-10-5 per month.

Chaplains and Assistant Chaplains on returning from Furlough to Europe are entitled to the pay of their respective ranks from the date of their return.

Chaplains of the Church of Scotland are under the same rules as Ecclesiastical Officers of the Establishment of the Church of England in respect to Absenteeism and Absence Allowance whether in or out of India.

UNCOVENANTED ABSENTEE RULES,

PASSED BY THE GOVERNMENT OF INDIA UNDER DATE THE 5TH MARCH 1856.

CHAPTER I

RULES FOR APPLICATION FOR LEAVE OF ABSENCE

Section I—Leave of absence to Officers not in the Covenanted Service of the East India Company receiving their appointments direct from Government, will be granted by the Government only under which office is held on application made publicly through the regular channel in the department to which the applicant may belong but in respect of all other Officers it will be optional with the local Governments to delegate to heads of offices or departments power to act upon the rules without special reference to higher authority.

The rules to be held applicable from 5th March 1856 (Notification of the Government of India 22nd February 1856)

Section II—Absence without leave will render the absentee liable to loss of appointment, and will be attended with entire forfeiture of salary for the whole period of such absence.

Section III—No leave of absence shall have any retrospective effect except in cases of severe illness to be attested by medical certificate conforming in every respect to the directions contained in Section IV.

1st The grant of leave to Uncovenanted Servants either on medical certificate or on private affairs whose salaries are less than Rs. 100 per mensem the Heads of Offices will be guided by the spirit of the rules applicable to those who are in the receipt of Rs. 100 and upwards.

2nd Casual leave granted by Heads of Offices to their subordinates on the Establishment is not to be reported to the Civil Pay Master in the monthly leave return.

3rd The Revenue and Police Commissioners the Commissioner in Sind and the Resident at the Persian Gulf are vested with the power of granting privilege leave for one month only to the Officers subordinate to them and in cases where leave for more than one month is applied for the sanction of Government is necessary.

CHAPTER II

RULES FOR SICK LEAVE

Section IV—When an application for leave of absence is made on the ground of illness it must be accompanied by a statement of the case from the medical man by whom the applicant has been attended distinctly stating from personal observation the nature of the disease the symptoms by which it is manifested the cause by which it has been probably produced and the period during which it has existed as far as the knowledge of the medical officer extends and by a certificate from the chief medical officer of the station or district or at a Presidency town from a Presidency or other official Surgeon, certifying after careful personal investigation the necessity for temporary removal, and the period for which it is, in the best of his judgment, absolutely requisite for restoration to health. If the requisite leave be for a longer period than six months, the certificate must in the first instance be countersigned by the Superintending Surgeon of the division in which the applicant may be located and in cases of leave to be and to be afterwards submitted with the statement of the case, for the consideration and countersignature of the Members of the Medical Board.

The certificate shall be given in the following form—

I A B Surgeon at or of ——— do hereby certify that E F (here enter designation of office) is in a bad state of health and I solemnly and sincerely declare that, according to the best of my judgment a change of air is essentially necessary to his recovery and that the circumstances of his case are such as to render leave of absence for the period of ——— absolutely necessary (or highly desirable).

The following form shall be observed by the Superintending Surgeon and Members of the Medical Board in countersigning the certificate—

I (or we) do hereby certify that according to the best of my (or our) professional judgment after careful consideration of his case I (or we) believe the state of health of E F to be such as to render leave of absence for a period of ——— absolutely necessary (or desirable) for his recovery.

An application for extension of leave must, if the applicant be in India, be accompanied by a certificate to a like effect from the medical officer by whom the applicant attended together with a statement showing sufficient reason for the extension solicited and such certificate must be countersigned by the Members of the Medical Board or by the Superintending Surgeon of the division in which the applicant may be located. In like manner if the applicant shall have proceeded beyond the territories under the Government of

Yedia he must furnish a certificate and statement to the required effect from a surgeon or physician at the place of his temporary residence, by whom it has been attested that he is not a dangerous person, and that he is not to be regarded as a threat to the community. If he is not a threat to the community, it is in Europe, but there is no mention of it in the country to which it is sent. He must have received a certificate from the competent authorities for the want of such a certificate.

The Officer, upon receiving such letter, shall examine the applicant or state a more sufficient reason why he is unable to do so when any of the required particulars are neglected, or leave it to be returned.

Section VIII.—In addition to the above, and on sufficient cause being shown, leave of absence may be granted on private affairs for not more than six months, one-half the absentee's salary being deducted for each period of absence, provided the rate of Rs. 500 (Rs. 500) per annum be not exceeded.

3.—The leave granted under this Section will be computed from the date of the absentee's quitting his post to the date of his return thereon. A second leave of the same description cannot be taken till the expiration of six years from the date of return to duty from a former leave. No portion of the salary allowed to be drawn will be claimable till the absentee shall have returned to his duty.

4.—Leave taken under this and the preceding Section will reckon as service qualifying for pension.

5.—Leave under Section VIII cannot be granted continuously with leave under Section VII and Section IX. (Notification, 15th November 1896, and the Financial Regulation of the Government of India, 15th July 1899.)

6.—Preparatory leave is not allowed to an Unconvenanted Servant while absent on leave under Section VIII. (Bombay Government Notification, 15th March 1901, page 558.)

7.—Leave under Section VIII cannot be granted in instalments but being allowed for a shorter period than 5 months, provided the condition of leave not being claimable for 5 years is maintained.

8.—An Officer absent on special leave on private affairs should be not return on the expiration of such leave but resign the service cannot be allowed to draw any portion of his absentee allowances.

9.—An Unconvenanted Servant while absent on leave under Section VIII obtains an endorsement of leave on medical certificate will be liable for the whole period of his absence to the Rules applicable to leave on medical certificate.

10.—No interval is required to elapse after return from privilege leave under Section VII before special leave under Section VIII can be taken. The general restriction that both leave cannot be taken together is a sufficient protection against any abuse of the former leave.

Section IX.—In addition to the leave which may be granted under the preceding rules on medical certificate or private affairs, Government may at any time, under special circumstances, and at its discretion, grant leave of absence once during the period of service, not exceeding twelve months on private affairs, without forfeiture of appointment, but without pay; such period of absence not to count as service towards pension.

1.—An Officer officiating for an absentee on leave under Section IX is entitled to the full salary forfeited, and in like manner all others who are appointed consequent on such change to Acting Officers the salary of which becomes available accordingly.

2.—The Rule laid down in the preceding Article is not applicable to all acting appointments from whatever cause arising, provided the full salary is available but to extent in which the actual incumbent is absent on leave granted under Section IX of the rules.

3.—A Furlough under Section IX, can be granted only once for a period not exceeding 15 months under special circumstances, and at the discretion of Government and without pay and an absence on Furlough does not count for service towards pension, it is not considered necessary to prescribe intervals as to time after which Furlough is obtainable by Unconvenanted Servants.

4.—Leave of absence under Section IX, cannot be granted in continuation of leave under Section VIII.

5.—A period of 3 months is necessary from the date of return from privilege leave to the grant of Furlough.

6.—No interval required between the grant of sick leave under Section IV and V and special leave under Section VIII, and Furlough under Section IX, the condition laid down in the last mentioned rules being considered a sufficient check against any abuse of the privilege of taking Furlough.

7.—The provisions of Section IX clearly shows that Furlough cannot be taken by instalments by an Unconvenanted Servant. It may however be taken anywhere in or out of India, but if taken in India preparatory leave cannot be granted.

Section X.—No leave of absence on private affairs shall be claimable by any party whatever under these rules as a matter of right; such leave will be granted only at the pleasure of the Government or its authorized officers when the convenience of the Indigenees in no way interferes with the interests of the public service, and it shall be the duty of the Government to every instance (except in the case of leave granted under Section VI.) to consider and determine whether the grounds of the application are sufficiently urgent to justify the concession of the leave.

CHAPTER IV

RULES FOR ALLOWANCES, &c.

Section XI—No person appointed to a situation under the Government shall draw the salary of his appointment for any period prior to the date of his joining it.

Section XII—An officer holding a situation, appointed to one of equal or higher value, will until he join draw so much of the salary of his new office as may be equal to the salary of his former situation provided he does not exceed the time allowed for joining under the following rules; should he do so, no salary will be passed to him for such period in excess.

Section XIII—The time ordinarily allowed for joining an appointment is to be calculated at the rate of fifteen miles a day (Sundays excepted), together with a week to prepare for the journey; but on occasions of emergency it will be optional with the Government to prescribe the period within which any journey is to be performed.

For the portion of the journey traversable by Railway one hundred miles a day are allowed; for the portion traversable by steamer one hundred miles a day or the time actually occupied to the voyage. (Notification, 30th March 1861 G. O. page 678)

A fortnight is allowed for preparation to an Ungoverned Servant when proceeding to join his appointment either by Railway or by sea. (Government of India, 7th September 1861)

Section XIV—A person officiating temporarily in any situation, will draw so much of the salary of such situation as may equal the sum deducted on account of absence from the real incumbent, and the subsentive allowances of every officer temporarily acting in a situation of superior emolument will be subject to deduction at the same rate but no additional expense is on any account to be incurred by the absence of any officer on leave.

Medical or Military Officers acting for Ungoverned Officers, and Ungoverned Servants acting for Civil Servants to receive certain allowances agreeable to the Civil Absentee Rules (Resolution of the Government of India, 22nd February 1856, and Notifications, 20th April 1856 and 5th October 1856)

An officer holding a permanent appointment and acting in an inferior one to his own not entitled to deputation allowance.

In the case of an Ungoverned Officer officiating in more than one appointment he will be entitled to deputation allowance regulated by the aggregate amount of the salaries of the offices in addition to the full pay of his substantive appointment.

Travelling Allowances.—Travelling allowance at the rate of 2 annas per mile to be drawn by all Ungoverned Servants when transferred from one substantive appointment to another on public service, but not by those who are removed from one place to another on promotion or at their own request.

Preparatory Leave prior to resignation of Service.—European Ungoverned Servants intending to proceed to Europe immediately on retirement shall be allowed preparatory leave on half pay on the same condition as the Governed Officers, provided it can be given without detriment to the public service.

For Certificate on required on proceeding on leave, see Civil Absentee Rules. (Notification, 18th April 1860)

Leave for passing Examination.—An Ungoverned Servant not entitled to privilege leave can obtain leave for the purpose of undergoing an examination at the Presidency subject to deduction of half salary but if the party pass the examination successfully the retrenched portion of pay will be refunded upon a certificate of a Superintendent in the case of a Revenue Survey officer that the time occupied was absolutely necessary (Bombay Government, 7th March 1857)

MILITARY FURLOUGH REGULATIONS

G.O. No 75 of 6th December 1851—The Right Honorable the Governor in Council is pleased to republish the following General Order by the Most Noble the Governor General in Council No 1150 dated Fort William 17th November 1851—

"The Honorable the Court of Directors having transmitted to the Government of India further explanatory instructions regarding the Furlough Regulations published in Government General Order No 110 of the 1st of February 1851 the Most Noble the Governor General in Council is pleased to annul that General Order and to promulgate in connection therewith the Rules which have been laid down by the Honorable Court for regulating Furlough and Leave of Absence—

"With the view of adapting the Regulations to the present increased facilities of communication and to correct a few provisions in them to deter Officers from resorting to the means which may be most conducive to the restoration of their health when a leave of absence is required for that purpose the following Rules are established and are to have effect from the 1st February 1851—

1. All Regimental Officers in the Service on the 1st February 1851 who prefer retaining what was formerly the full antedotal of the Old Regulations, and so permit themselves to avail of that right when they next require furlough or leave of absence will continue to be subject to the former regulations, and Officers who make this election will not be entitled to any other choice but will be afterwards subject to the New or Old Regulations, according to their election—

Paragraph 4.—I have to inform you that it has been decided that those Officers who have been allowed to count their leave on work certificates as service for Pension, will be ineligible to a Furlough, on private affairs, until they have served six years in India from the date of their return to duty.

G.O. No. 578, 17th August 1860.—Under Instructions from Government the Commander in Chief directs that application from Officers of the Bombay Army for Furlough to Europe on private affairs, shall be accompanied by a statement in duplicate, in the following form, the columns Length of Service and periods of absence on Furlough or Medical Certificate only will be filled in at the Office of the Adjutant General of the Army. All other details must be entered at the Head Quarters of Regiments.

In the instance of Officers proceeding to Europe on medical certificates, Officers Commanding Regiments on the receipt of the General Order granting the leave will prepare and immediately transmit to the Deputy Adjutant General, similar statements relating to the Officers concerned.

Officers Commanding Regiments are required to prepare and keep a Record Book of the service of the Officers under their respective commands, in order that they may at all times be prepared to transmit the statements in question which the Secretary of State for India requires on an Officer proceeding to Europe.

Blank Forms of these Statements will be furnished from the Adjutant General's Office, and renewed from time to time on the applications of Commanding Officers.

"*W.* The second Furlough of two years will only be granted after ten years' service in India from the date of its return to duty after the first Furlough of two years. These Furloughs are not to be cumulative under any circumstances, but are limited to two years. Officers who have taken leave of absence on sick certificate in Europe or elsewhere beyond sea, will be ineligible to a Furlough on private affairs until they have served six years from their last return to duty. This rule does not apply to short leaves to sea. (See Orders following Rules 20 and 21.)

G O C 3rd July 1855.—With reference to Rules 6 and 7 of the revised New Furlough Regulations, the Commander-in-Chief is pleased to notify that under a decision passed by the Government of India Officers who may have availed themselves previously to the 1st February 1855 of Furlough to Europe, on private affairs, with pay after ten years' service in India, will in the event of their adopting the New Furlough Rules, be entitled after completing ten years' additional service, to a second Furlough, with pay under the provisions of Rule 7 for two years, deducting therefrom each period in excess of two years as they may have been previously absent on Furlough with pay.

G O C 23rd August 1855.—With the sanction of the Right Honorable the Governor in Council the following decisions of the Government of India, on points connected with the revised New Furlough Rules, are published to the Army—

Question.

"Are the periods of ten and twenty years' service in India, which will entitle Officers, under the New Furlough Rules, to Furloughs on private affairs to Europe or elsewhere beyond sea, with pay to be understood to include all leaves of absence in India or are all such leaves (excepting only the period of leave of one month in 12) to be reckoned against service towards Furloughs on private affairs with pay?"

Decision.

The ten years' service in India, after which an Officer is entitled to a Furlough is understood to include all leaves in India. The second Furlough of two years is only granted after ten years' service in India from the date of return to duty after the first Furlough of two years.

"All leaves in India are counted as service, except for Retiring Pension, for which only a portion of an Officer's (total) leave in and out of India can be so reckoned.

G O C No. 560, of 10th July 1856.—The Honorable the Court of Directors, in their letter No. 56, of the 25th April 1856, have communicated the following decision regarding Nos 6 and 7 of the New Furlough Rules published in Government General Order No. 1150, dated the 17th November 1854—

"Officers who take their first Furlough after twenty years' service in India, may take their second Furlough after an additional service of five years from the date of their last return to duty."

"*S.* All grants of Furlough on private affairs are subject to the exigencies of the public service and to the Regulations framed for the preservation of the efficiency of each Regiment, by limiting the number of absences.

G O C No. 364, of 15th April 1857.—Under the authority of the Honorable the Court of Directors, the Right Honorable the Governor General in Council is pleased to extend to Officers generally at the three Presidencies, the privilege granted to Officers at Moultan and Peshawar of being allowed, when the demands of the Service will permit, temporary leave, without pecuniary loss, or loss of service, for sixty days consecutively in the course of each year or of thirty days consecutively in each half year as may be preferred by them.

G O C 13th August 1855.—Although privilege leave for sixty days consecutively is granted it does not authorize Officers commanding Divisions or Forces to grant leave in excess of the periods laid down in Section XXVI para. 327 of 3rd Appendix Jamson's Code. Applications for leave exceeding thirty days must be submitted for the sanction of His Excellency.

G O C No 46 of 1862.—Officers employed in the Military Department are not allowed to go to Europe or elsewhere out of India on privilege leave without the sanction of Government.

G O C No. 55 of 1862.—The practice of announcing in General Orders the grant of privilege leave is discontinued, and restricted to announcement in Division or Separate Brigade Orders. Applications for this leave in excess of 30 days to be forwarded as heretofore to the Adjutant General of the Army, who will confer thereon the Commander-in-Chief's decision, returning them to the submitting Officer.

● Officers holding Staff or other detached appointments may be allowed Furlough for a period of six months, without losing their appointments; but during that period they will not be entitled to any portion of their Staff salary which will be drawn in full by the Officers occupying for them.

G O C 23rd January 1855.—The Honorable the Court of Directors have been pleased to decide that Rule 9 of the revised New Furlough Regulations is not applicable to Officers proceeding on Furlough to Europe or elsewhere beyond sea, whose service in India may fall short of the periods specified in Rules 6 and 7 and that Furlough can be granted to such Officers only under the special provisions of Article "a" Section XXVI, page 577 of Jamson's Code which is to be considered as still in force.

G O C No. 312, of 11th April 1856.—Letter from the Honorable the Court of Directors to the Government of India, No. 8, dated 23rd January 1856.—

Letter No 913 dated 24th Sept 1856

Government forward correspondence relative to certain questions connected with the New Furlough Regulations and request to be informed as to claims of an Officer to the residue of his Furlough on private affairs when he has been already absent on leave to England on public affairs for six months.

Para B. We have to state in reply to your enquiry that an Officer proceeding on leave to England for six months, retaining his appointment or otherwise is not to be considered as having taken his authorized Furlough after ten or twenty years as the case may be but may with your permission be allowed at any time to take the remainder of the two cuts authorized Furlough on private affairs.

G O C No 548, of 19th July 1856.—The Honorable the Court of Directors, in their letter No 56 of the 25th April 1856, have communicated the following decision regarding No. 9 of the New Furlough Rules published in Government General Order No. 1150, dated the 17th November 1854.—

"Absence for six months, under this Rule, does not preclude an Officer from taking his Furlough to Europe after ten years service."

30 All Officers, whether Staff or Regimental, while on Furlough on private affairs, will be entitled to Furlough pay only.

G O C 25th May 1859.—Applications from Military Officers for Furlough on private affairs beyond Presidency limits, to be embodied in the following form and forwarded without accompaniment through Station and Divisional Authorities for counter-signature to the Officer in charge Adjutant General's Office Presidency for the order of His Excellency—

By order of His Excellency the Commander in Chief
 _____ Adjutant General.

Adjutant General's Office, Head Quarters,

G G O No. 434 of 1860.—Officers allowed to count their leave on sick certificate as served for Furlough on private affairs until they have served six years in India from date of return to duty

G G O No. 493 of 1860.—Officers proceeding on medical certificate not required to furnish No Demand Certificates.

Officer in charge of Cash or Stores to furnish Certificate from Officer taking charge of his duties that as far as can be ascertained nothing irregular nor any known demands against him remain unadjusted.

Officers leaving on private affairs to furnish No Demand Certificates

Officers on medical certificate intending to retire to give earliest intimation to the Accountant General through the Paymaster so that the requisite No Demand Certificate may be prepared as retirement is not permitted without such Certificate

LEAVE OF ABSENCE ON SICK CERTIFICATE

11. Leave of absence on sick certificate will be granted for a term not exceeding eighteen months whether it be to any place in Europe, or elsewhere out of India.

G G O No. 380 23rd July 1861.—It appears to be commonly supposed that if an Officer obtain a medical certificate for a Furlough to Europe he is entitled to the maximum period

The practice of Medical Boards has tended to confirm this erroneous supposition

The period of eighteen months is a maximum (under the New Furlough Regulations) and fifteen months is a maximum within which an Officer may retain a Staff Appointment during such absence.

The prospective extension of these periods announced in paragraph 86 of the G O by the Government of India, No. 332, of 10th April renders it peculiarly necessary to remind Medical Officers that it is their duty to limit the period named in the medical certificate to the necessities of the applicant in respect of recovery of health alone

12. Extensions of such leave may be granted as at present, on production of medical certificates, for further periods not exceeding eighteen months in the whole

"13. An Officer holding a staff or other detached appointment will be allowed to be absent on sick certificate in England, or elsewhere beyond sea, for a period of fifteen months, without losing his appointment, and during the first six months on such absence he will be entitled to draw half the Staff salary of his appointment, the Officer officiating for him drawing the remaining half salary during the first six months, and the whole salary during the remainder of the time.

"14. An Officer's claim to half Staff salary for six months as sanctioned in the preceding Article will not be affected by his subsequently retiring from the Service in Europe or elsewhere

G G O, No. 429, 20th August 1861.—The following General Order by the Government of India, dated 25th June 1861 No. 565, is republished —

"His Excellency the Governor General in Council is pleased to resolve that absence from India on authorized leave within the periods allowed by the New Furlough Regulations shall not debar an Officer whose efficiency has been proved and certified to the full satisfaction of the Governor General in Council from Despatch and promotion temporary or permanent.

In such cases the absent Officer will not, till he resumes charge of his duties, have any claim to the salary of the higher Office which will be drawn by the Acting Officer "

G G O No. 395, of 28th April 1861.—Under instructions from the Honorable the Court of Directors, the Right Honorable the Governor General in Council is pleased to publish the following Notification —

"The grant of leave of absence to Staff Officers on medical certificate with half Staff Allowances for six months, and with the privilege of returning to their offices if their absence from India be not prolonged beyond fifteen months, is bestowed by

the Honorable Court in order to enable such officers to regain their health and in the expectation that they will be thereby qualified to render additional service to the Government. But if leave of absence be taken merely to run out a prescribed period of service, and without any intention of returning to duty the principle on which the rule is founded is infringed and the indulgence of the Honorable Court is abused. Wherefore the Right Honorable the Governor General in Council hereby notifies for general information, that if there be an avowed intention on the part of an Officer not to return to duty or if the Government have valid grounds for concluding that the Officer has no intention to return to duty the indulgence of leave on sick certificate, retaining office will not be granted in future."

"25. No portion of command Allowance Medical Staff Salary or other similar allowance, which under the Old Rules was inadmissible to Officers absent from their Corps or Stations at the Cape or elsewhere will be allowed to absent Officers under these Regulations.

"26. All Officers whether Staff or Regimental, while on leave of absence on sick certificate will be entitled for a period of six months to the same rate of Indian pay and allowances as was allowed under the Old Regulations to Officers proceeding to the Cape on medical certificate, and for the remaining period of their leave they will receive Furlough pay only.

"27. If the leave on sick certificate be extended, Furlough pay will be continued but under no circumstances for a longer period than three years altogether from the commencement of the absence.

G. O. C. 34th October 1858.—Officers who have had an undue proportion of leave and may be proceeding to Europe on sick certificate will if requisite, be subject to examination as to their fitness for further service.

G. O. C. 30th August 1859.—An Officer proceeding sick to England, to show the statement of his case to the Surgeon of the ship in which he is a passenger for the Surgeon's guidance. Such Officers allowed, if necessary a soldier to accompany them to Bombay.

"STAFF OFFICERS."

"28. The term Staff Officers applies to all Officers holding Staff or detached appointments, Military (General or Regimental), Political, or Civil, also to General Officers commanding Divisions, Members of the Medical Board, Superintending Surgeons, and others who under the Old Rules were entitled to draw half Staff Allowance when absent at the Cape (See G. O. C. No. 111 of 30th January 1856 following Rule 31).

"29. Staff Officers absent on leave beyond the period stated in Rules 9 and 13, respectively cannot retain their appointments and allowances, except on special grounds to be sanctioned by the Government of the Presidency. Any such special grant of leave is to be reported at once to the Honorable the Court of Directors, with the reasons for it and to be subject to their approbation.

"30. The privilege of retaining Staff appointments during leave of absence on sick certificate or on Furlough on private affairs, will not be available a second time, if the first leave is on sick certificate, until an Officer has been three years, or if on private affairs until he has been six years, in the discharge of the duties of his appointment from the date of last return to it.

G. O. C. 27th August 1855.—With the sanction of Government, the following decision of the Government of India is published to the Army —

"Under the New Furlough Rules Furlough granted without pay or other privileges, does not bar privileged leave hereafter."

31. This Rule, however (No. 20), does not apply to leaves of absence whether on sick certificate or on private affairs, in India, or for brief periods to Ceylon, the Mauritius, or other places out of India.

G. O. C. 12th July 1856.—The Government of India has fixed these months as the maximum period which is to be understood by the terms "short leave" and "leave for brief periods" used in Rules 7 and 21 of the New Furlough Regulations.

22. Officers commanding Troops of Horse Artillery and Light Field Batteries, and Officers generally in employment, will be allowed leave out of India, under the same Rules, with respect to allowances and issues of command or office as regulated the grant of leave to the Cape to such Officers under the Old Regulations, except as to the duration of those advantages: the time for their continuance being subject to the provisions of the New Regulations.

" DATES OF FURLOUGH AND ADVANCES OF PAY

23. The period of Furlough on private affairs, or leave of absence on sick certificate is to be calculated from the date of the departure from India of the ship in which the Officer proceeds.

G O C No 363, 21st March 1861.—The Secretary of State for India has intimated that henceforth, the permission to return to duty granted to Officers will hold good for three months from the date of such permission provided they embark for India within that period.

24. Advances of pay and allowances, Staff and Regimental to Officers proceeding on leave of absence on sick certificate who may be entitled to them will be made in India for three months from date of embarkation. Payments in continuation will be made in England at the rates of exchange fixed annually for repayment of advances made on account of Her Majesty's Government. Furlough pay will continue to be issued in advance for six months when required by Officers obtaining Furlough on private affairs.

G O C No 194 of 27th February 1856.—The Right Honorable the Governor in Council is pleased to notify to the Arms that it has been decided by the Government of India that every Officer proceeding to a British Colony within Indian limits is entitled to the advance of pay authorised in the first Clause of Rule 24 of the New Furlough Regulations but that such Officer shall be required to appoint an agent in India to draw the arrears which may accrue to him during Furlough on either sick certificate or private affairs. If such an agent be not appointed payment of the arrears shall be postponed till the return of the Officer to India and every agent shall be required to give a sufficient guarantee for the refund of any payment that may fail to be recovered.

25. The existing Regulations regarding Passage-money to Officers are not affected by these Rules.

26. The Certificates issued to Officers who are granted Furloughs on private affairs or leave of absence on sick certificate, are to specify the time each Officer has been absent on leave within Indian limits as well as the time of his previous absence in Europe but will not include the periods allowed for proceeding to the Presidency or port of embarkation and to enable Officers to rejoin their Regiments or Stations after their return to India nor the leave of one month's absence in six months as authorised by the Regulations. The last Pay Certificate of all Officers proceeding to England on sick certificate is to specify the rate of Regimental pay and allowances and Staff salary to which they would have been entitled under the Old Regulations if proceeding to sea on medical certificate. This information is necessary in order that no difficulty may arise in the Pay Department of the India House in adjusting the several payments which may be due. (See various Orders following Rule 31.)

G O C No. 1196 of 1858.—Military Officers, Staff, Regimental, or on Civil employ
 Military Officers in Civil employ—from Accountants of Government applying for leave beyond sea, to submit reports from
 Officers of Public Works—from Chief Engineer of Division Officers noted as *le marquis*, whether special security is
 Officers of Mud and Commissariat—from Auditor of Commissariat Accounts necessary for doubtful items
 Officers of Ordnance—from Inspector General of Ordnance outstanding against the ap-
 and Magazines plicant, or for a suspension
 or extraordinary state of his
 accounts. Reporting Officers not to delay reports. Officers affected by these Rules to
 see means to settle their accounts to obviate inconvenience to themselves.

G O C 20th April 1855.—With the sanction of the Right Honorable the Governor

in Council, the following decisions of the Government of India, on points connected with the revised New Furlough Rules, are published to the Army:—

Question.

Is a only such leave (not exceeding thirty days in six months) as may be granted under the special Regulation contained in G O G G I No. 241 dated the 20th March 1851 that is to be allowed to count as service; or will Officers who may be absent from their Stations, on leave granted to them under the ordinary Regulations, for short periods to sea, or for from one day to six months, between the 1st January and 1st July and reverse *i.e.* whether on private affairs or sick certificates, be entitled to have a period not exceeding thirty days of such leave counted as service?

Decision.

Any short leaves are not to reckon against an Officer's length of service but all leaves announced in General Orders, which in the aggregate exceed the periods laid down in paragraphs 32 to 35 of the Government General Order No. 1150 of the 1st November last count against service and no deduction can be made from such leave except for the period allowed an Officer preparatory to embarkation, and to enable him to rejoin his Corps or Station on his return to India.

"An Officer who has obtained leave for six months, or any other period in General Orders is not allowed to deduct the thirty days privilege leave which he might have taken without its being announced in General Orders. In such a case the whole period announced in General Orders will count against his service."

G O C. 17d September 1855.—With the sanction of Government, the following decisions of the Government of India, having reference to Rule 26 of the New Furlough Regulations, are published to the Army:—

Short leaves on private affairs for periods not exceeding thirty days which have been granted to Officers in General Orders previously to 5th December 1854 are to be counted as privileged provided they do not exceed an aggregate of thirty days in each half year."

G O C No. 237 of 13th November 1855.—With reference to the Regulations

Art. 1st Clauses 1 to 4 Sect. XIV Jamson's Code.
Art. 216 to 219 Sect. XXV 1st Appendix Jamson's Code.
Art. 174 to 182, Sect. XXXI I Jamson's Code page 238

noted in the margin the
Right Honourable the Governor in Council is pleased to declare the following

rules, obtaining under the Bengal Presidency to be applicable to this Presidency also from this date:—

"The thirty days privilege leave is to be calculated so as to include the day of return as one of leave, *i.e.* if leave be granted on the 15th July the Officer must rejoin on the 13th of August."

"OFFICERS OF HER MAJESTY'S SERVICE."

"27 Officers of Her Majesty's Service in India, whether employed Regimentally or in Staff or detached situations, are entitled to the advantage here above laid down in respect to allowances and tenure of office when on Furlough or leave of absence."

"28 In the case of Officers of Her Majesty's Service on Furlough on such certificate in England or elsewhere, who may retire or exchange into Regiments not on the Indian Establishment, the grant to these Officers of Indian Allowances will cease from the date of their retirement or exchange, if it take place before the expiration of six months from the date of quitting India."

G O C No. 189 of 1852.—Staff Surgeons proceeding on furlough cease to belong to the Indian Establishment, and have no claim to Indian Allowances after date of quitting India."

PERIOD OF ABSENCE ALLOWED TO BE COUNTED AS SERVICE FOR RETIRING PENSION.

"29 In order that all Officers quitting India, on Furlough or sick certificate, may be placed on an exact equality as regards time of leave the period allowed by Regulation for proceeding to the Presidency or to the nearest port of embarkation as well as the time to enable Officers to rejoin their Corps or Stations after their return to India, will be considered in the counting for service for the Retiring Pension. (See various Orders following 1st 13.

G O C 31st May 1855.—Under instructions from Government, the following table showing the number of travelling days allowed to Officers proceeding unaccompanied

passed by Troops, between Bombay and the different Outstations, is published for general information and guidance, in supersession of that contained in Arts. 160 and 161 Section VI 2nd Appendix to Jameson's Code.

Officers proceeding to England or elsewhere beyond India, on Furlough or medical certificate, under the new Furlough Regulations, will be entitled, under Rule 29 to count as absence the number of travelling days now authorised according to port and season.

The distances in the fair season are entirely by land, or partly by land or partly by water whichever is the most expeditious. Both by sea and river the passage is estimated by country boat, and the month in which the longest passages occur has been taken as the standard for the average length of passage.

The fair season as regards sea or river passage from 10, and in Sind is estimated to commence on the 15th October and end on the 15th April.

The fair season as regards all other water passages, lasts from the 15th of October to the 15th of May.

When the distance is entirely by land ten miles per diem is allowed, without halts, by the nearest marching route.

G.O. 23rd June 1855.—With reference to the new Furlough Regulations, the Commander-in-Chief is pleased to direct that in future Officers not above the Regimental rank of Captain who may return from furlough or leave of absence beyond Presidency limits during the monsoon or who, being on sick leave within Presidency limits may be reported fit for duty during that season 12. between the 1st June and 1st October shall be permitted in the event of their own Corps being too distant to admit of their at once rejoining to do duty until the latter date with Regiments at the Presidency or other Stations at or near which they may be at the time, unless they should obtain leave of absence in extension on private affairs.

Officers belong ing to Regiments at Nasirah, who may be circumstanced as above will remain attached to other Corps until the 15th December

G. O. O. N 235 of 8th March 1856.—The Right Honourable the Governor in Council is pleased to announce that the following Rules will be observed in calculating the periods of Officers' absence on Furlough in or beyond India :—

As respects Furlough in India, the day of departure from a Regiment or appointment is one of leave and the day of return thereto is one of duty.

As respects Furlough beyond India, the date of final departure from India, viz. that on which the vessel conveying the Officer from India puts out to sea, is reckoned as actual Furlough, and the day on which he returns to his Presidency as one of duty.

G. O. O. No. 126 of 8th January 1857.—Under instructions from the Government of India, the Right Honourable the Governor in Council is pleased to direct that the rule promulgated in G. O. No. 235, dated 8th March 1856, regarding absence on Furlough, shall be held applicable to privilege leave.

" 20.—No Furlough or leave of absence, as announced in General Orders, exceeding two years in twenty years aggregate service, three years in twenty-five years service, and four years in thirty years service, shall be allowed to count as service for the Retiring Pension; and no difference will be made in this respect between leave of absence taken in Europe or elsewhere, in or out of India, or whether the leave be on sick certificate or on private affairs. (See various Orders following Rule 31.)

G. O. O. No. 183, of 25th February 1856.—The Right Honourable the Governor in Council is pleased with the sanction of the Government of India, to declare that the period during which Officers may have been, or may hereafter be absent on leave for the purpose of accompanying insane or sick Officers, is all void to reckon as service for Pension under the New Furlough Rules, to the extent of the regulated travelling days.

G. O. O. No. 172, of 18th March 1856.—The Right Honourable the Governor in Council is pleased with the sanction of the Government of India, to declare that Officers returning from Furlough to Europe, and intending to adopt the overland route, who may be ordered to do duty with Recruits proceeding to India via the Cape of Good Hope, shall reckon service for Pension under the New Furlough Regulations from the date of arrival at their respective Presidencies of the overland mail steamers on which they would otherwise have proceeded.

" 21.—In the term leave of absence as announced by General Orders is to be included all leave of absence except the period allowed in Rule 20 and the ordinary indulgence of one month's leave in six months, as authorised by the existing Regulations, and which are in all cases, whether of Regimental or Staff Officers, to be allowed to count as service for Pension. All leave to a greater extent, granted by Political and other Authorities, which may not hitherto have been published in General Orders, must be so announced hereafter.

G. O. O. 29th May 1856.—With reference to Rules 26 and 31 of the New Furlough Regulations, and in G. O. O. No. 1 dated 26th ultimo, the Commander-in-Chief is pleased to establish the following Rules in supersession of existing Orders, with respect to the grant by Officers commanding Regiments, Stations, and Divisions or Forces of leave of absence on private affairs to Officers (Staff and Regimental) serving under their respective commands.

1. The periods for which leave may be granted are limited as follows :—

By Officers commanding Regiments, subject to the control of Officers commanding Stations.

For periods not exceeding three days in the calendar month (between months) within the Division or District, and limited to an aggregate of ten days in six months between the 1st January and 1st July and vice versa.

By Officers commanding Stations, subject to the control of Officers commanding Divisions or Forces :

For periods not exceeding ten days in the calendar month (between months) within the Division or District, and limited to an aggregate of twenty days in six months, between the 1st January and 1st July and vice versa, exclusive of leave granted by Officers commanding Regiments.

By Officers commanding Divisions or Forces :

To the extent of thirty days in six months, between the 1st January and 1st July and vice versa (irrespective of months), within or beyond the limits of the Division.

or District, and exclusive of leaves granted by Officers commanding Regiments and Stations.

II All leave which may involve absence from the Station for one or more nights, must be sanctioned in public Orders.

III The period of leave specified in public Orders is to be understood as including the whole period of an Officer's absence from his Corps or Station except when expressly sanctioned in extension of leave previously granted.

IV Commanding Officers are strictly prohibited from granting leave of absence in extension of the periods for which leave may have been sanctioned by any authority superior to their own.

V In every application for leave of absence, the total period of leave previously enjoyed since the 1st January or 1st July is to be specified.

VI When leave beyond the limits of the Division or District may be granted by Officers commanding Divisions or Forces, the place to which it is granted must be specified in the Order except when sanctioned under the special provisions of G. O. No. 211 dated 14th April 1851 (Jameson's Code Arts 211 to 219 Section XXVI).

VII Leave of absence under the provisions of the G. O. quoted in the preceding paragraph can be sanctioned in those cases only in which Officers shall declare their *bona fide* intention to rejoin their stations at the expiration of the leave applied for.

VIII Officers commanding Stations may grant permission to Officers to proceed to places beyond the limits of the Division or District in anticipation of the sanction of Officers commanding Divisions or Forces in cases of pressing emergency which must be specially reported.

IX Officers commanding Regiments, Stations and Divisions or Forces, who may desire leave of absence must await the sanction of their superior authority before quitting their commands except in cases of pressing emergency which must be specially reported.

X Medical Officers must obtain the sanction of the Superintendent Surgeon before submitting applications for leave of absence from which is sanctioned for any period exceeding three days.

XI All Officers are required to provide themselves with copies of the Orders granting them leave of absence, and in reporting their arrival at an Military Station they are to specify the periods for which they may have obtained leave.

XII It is to be distinctly understood, that with the exception of the short leaves within Divisions or Districts which Officers commanding Regiments and Stations are above empowered to grant on leave of absence on private affairs in cases of thirty days or six months can be sanctioned under any authority but that of the Commander in Chief or Government duly announced in General Orders.

G. O. 22nd June 1855.—I being required by the New Furlough Regulations that all leaves of absence on medical certificate within or beyond India, and for whatever period shall be sanctioned in General Orders, the Commander in Chief calls the attention of Officers commanding Divisions or Forces and Stations to those Regulations and directs that Extracts of a General Order authorizing Officers leave of absence from their respective Stations, on medical certificate is to be duly transmitted on the day of issue to Army Head Quarters, for publication in General Orders. When the medical certificate sets forth that the leave applied for by any Officer is necessary for the purpose of obtaining a final certificate in relation to any person of India the purpose is to be specified in the Order in view to the regulated travelling arrangements being credited to the officer in the Register of Furloughs.

G. O. No. 613, of 20th August 1855.—The Right Honorable the Governor in Council is pleased to direct that any Officer proceeding on leave of absence be required to certify the dates of his departure from and return to his Station and that in every application preferred for leave of absence, the Officer will in Presidency limits the application be required to specify the total period of such leave previously enjoyed since 1st January or 1st July immediately preceding.

G. O. 5th September 1855. Consequent on the New Furlough Regulations, a Register of all Furloughs and leaves of absence in and beyond India, granted to Officers in General Orders, between the 1st January 1814 and the present time, has been prepared at the Adjutant General's Office at the Presidency where every Officer will be at liberty in future to see and take a copy of his own registered leaves of absence or to depute any other person by a letter to the Assistant Adjutant General in charge of the Branch Office to do so for him. As there are probably many cases in which Officers may not have availed themselves of

As every Officer will be able under the provisions of this Order at all times to inform himself regarding the total period of his service in India counting for Pension the Adjutant General's Department is entirely exempted from heretofore furnishing certificates of service to individual Officers.

Officers will address all communications on the subject of this Order to the Assistant Adjutant General at the President's post office paid.

G.O. 22nd September 1857.—With a view to obviate the necessity for enrolling in General Orders the period of leaves of absence, *within the Presidency limits* provided in General Orders to Officers under the New Furlough Regulations, of which they may not have availed themselves, the Commander-in-Chief is pleased to direct under the authority of Government that all Officers will have such portions of their leaves credited to them as the Furlough Registrar in the Adjutant General's Office provided they report by letter to the Assistant Adjutant General at the President's post office within one month from the expiry of the leave the precise dates of their quitting and returning to their respective Corps and Stations and that furloughs in support of the whole period of leave published in General Orders will be debited against their service for Pension.

All Officers (whether employed) will transmit the above report direct to the address of the Officer in charge of the Adjutant General's Department at the President's post office paid. The reports of Officers serving Regimental must bear the countersignatures of the Officers commanding their respective Corps.

G.O. 16th October 1855.—Under the authority of Government the following Rules, sanctioned by the Government of India, are published to the Army with reference to the New Furlough Regulations.—

1. All Officers proceeding on furlough from Furlough for a period of seven or beyond sea, will be entitled to one month's preparatory leave at the port of embarkation and disembarkation in addition to the regulated travelling days, and to count the same as service for Pension, provided they quit their respective Corps or Stations within the regulated period of leave of absence, or beyond the limits of the Presidency and provided the period of leave is not less than six months.

2. Officers who may be placed on leave of absence for other duty by order of the Commander-in-Chief or Government while on leave of absence in private affairs, will be allowed to count as service for Pension the periods during which they may be employed.

3. Leave to the following extent may be granted to Officers to proceed to the Presidency on duty for the purpose of being examined in the Native languages before the General Examination Commission, and will count as service for Pension.—

The regulated travelling days one month for preparatory study at Bombay and the actual period of absence in attendance on the Commission.

4. Officers permitted to attend at the Central School at Poona for instruction in Military Administration, will be considered on duty and will be entitled to count as service for Pension the regulated travelling days, and six months in addition for residence at Poona.

5. Officers permitted to proceed to Stations at which Mounted Corps are stationed, for the purpose of going to the two prescribed Infantry Companies of Equitation Drill will be considered on duty and will be entitled to count as service for Pension the regulated travelling days, and two months in addition for residence at the Station.

G.O. 5th December 1855.—With reference to G.O. No. 857 dated 11th 12th 1855 the High Honorable the Commander-in-Chief has been pleased to direct that in all cases of leave of absence on private affairs which have been granted in the absence of the Officer from the date of the Order above quoted, for one month or less, when the Officer is required to return to duty and in which the leave may be granted as provided in the Order above quoted, the Officer shall be held entitled to

reckon thirty days of such leaves for Pension notwithstanding that they may have been actually absent from their Stations for thirty one or thirty two days, the day of return included.

The Right Honorable the Governor in Council has been pleased to decide that all leave of absence on private affairs within Presidential limits, which have been or may hereafter be granted to Officers on their return from Furlough or leave beyond sea or on being relieved from Staff or other detached duty in consideration of their being prevented by the Rules contained in Articles 31, 86 and 87 Section XXXII of the Indian Code from at once proceeding to join their Stations in Seinde or Rajpootana shall reckon as service for Pension under the New Furlough Regulations.

When practicable, Officers so circumstanced will in future be employed on duty or attached to some Corps, until the season shall admit of their joining their respective Stations.

G O No. 111 of 30th January 1856.—Referring to that part of the General Order by the Governor General of India of the 17th November 1854 which regulates the period of absence to be counted as service for the Retiring Pension of Officers of the Army the Right Honorable the Governor in Council is pleased to prescribe the following Rules regarding the notification of leave of absence granted to Officers of the Staff, with a view to the maintenance of an accurate Register in the Office of the Adjutant General, and in order that all Officers quitting India may be placed on an exact equality as regards loss of time counting as service.

The term "Staff" as declared in the 18th paragraph of the above General Order applies for the purposes of these Regulations to all Officers holding Staff or detached appointment Military Political or Civil.

The following Rules are intended to apply only to Officers serving immediately under Government, or in Offices or Departments not immediately subordinate to Army Head Quarters. For Regimental and other Officers serving directly under the orders of the Commander in Chief His Excellency will be pleased to lay down such rules as may appear to be most appropriate and convenient for the required object.

1st.—All leave of ever description privileged which is granted to Government, is to be notified in the Military General Orders.

2nd.—Every Order granting leave of absence is to express the date from which it is to commence and the date to which it is to extend.

3rd.—Officers who have not availed themselves of the full period of leave granted to them are authorized to notify the circumstances with full particulars to the Adjutant General's Office at the Presidency by letter (postage paid), within one month from the expiration of the leave and in no section as is proper will then be made in the Furlough Register failing such Notification, the entire period of leave published in General Orders will be debited against their service for Pension.

4th.—In order to ensure still further the correctness of the Register returns will be made by the Military Auditor General, and by the Civil Auditor half yearly showing the leave privileged and unprivileged which has been taken by Officers serving immediately under the orders of Government.

5th.—No Officer is to quit his Station until leave is regularly granted him by the proper authority, and all Officers are to return to their Stations within the term of leave granted to them failing which they will be considered as absent without leave, and be subjected to the penalties of that condition.

G O No. 230 of 8th March 1856.—The Right Honorable the Governor in Council is pleased to announce that the maximum period for which an Officer can be absent from his Regiment or appointment on privilege leave whether between musters or intervals of Muster is thirty days in each half year.

G O No. 956 of 22nd December 1856.—If an Officer obtain privilege leave for one month and in extension thereof obtain only monthly leave on private affairs in the following month he is entitled to count the first month as privilege leave but in the case of an Officer obtaining leave to proceed to the Presidency preparatory to embark on Furlough under the New Furlough Regulations, no portion of such preparatory leave can be treated as privilege leave.

Should an Officer who is on privilege leave not rejoin his Corps, but be absent in continuation on not more than five months leave on private affairs, or one year and eleven months leave on medical certificate he will retain his full salary or allowances for the thirty days of privilege leave which will also count as service but he will nevertheless forfeit all military allowances on completion of six months or two years' absence and may be reckoned from the date of his quitting his Corps or Station.

"22. Officers, to be entitled to retire on the full pay of their Regimental rank (under the Regulation of 1796) must have served twenty two years in India, out of which leaves of absence for two years in the aggregate, and not more, will be allowed to count as service for the Retiring Pension.

"23. Officers to be entitled to retire on the full pay of Captains and Majors (under the Regulation of 1835-37) must have served twenty and twenty four years respectively out of which time leaves of absence for two years in the aggregate and not more will be allowed to count as service.

"24. Officers, to be entitled to retire as Lieutenant Colonels, must have served twenty eight years, out of which leaves of absence for three years in the aggregate and not more, will be allowed to count as service.

"25. Officers, to be entitled to retire as Colonels, must have served thirty two years out of which leaves of absence for four years in the aggregate, and not more, will be allowed to count as service.

G O N No 401 of 1860.—Officers of twenty-two years Indian service are entitled to retire on the pay of the 1st Regimental rank. This privilege granted under the Regulations of 1796 and 1854 may in some cases, be rendered imperative by the Regulations of 1860 precluding them from leaving for retirement the 1st night of the rank attained after two months from date of landing in England. The privilege may be exercised in the case of Officers who after twenty years Indian service (counting for Retiring Pension), return to Europe on leave and then are allowed to claim for retirement the benefits of any rank allowed prior to the expiration of twenty-two years service.

"26. The scale for Medical Officers and Veterinary Surgeons of privileged Purlough and leave of absence as counting for the Retiring Pension will be as follows—

Years	Months	
1	8	up 17 and under 20 years service
2	0	in 20, " "
3	0	in 25, " 30
4	0	in 30 and upwards.

"27. It is to be distinctly understood, that under no circumstances whatever will an Officer be permitted to retire on full pay until he has completed the full time of service above specified, whether he be in England at the close of his service or elsewhere.

G O N No 236 of 23rd September 1857.—The following extract paras 18 and 19 of a Military letter from the Honorable the Court of Directors to the Government of India, No 123, dated 22nd July 1857 is published for general information—

18. By the Regulations established for the promotion of Lieutenant Colonel to the rank of Colonel after three years service it is provided that no longer period than one month in each year or a total of three months in three years or six months in six years shall be allowed to reckon whether the leave shall have been spent in India or out of the country except in cases of wounds or illness contracted by service in the field, duly certified by a Medical Board, when each case will be separately considered with reference to the time to be allowed.

19. In reply to the question now put to us we have much satisfaction in stating that we are prepared to extend the benefit of the expenditure previously incurred to the time required for retirement on full pay. By referring him to the benefit of this concession must be duly certified by a Medical Board and be forwarded to us for our sanction, accompanied by the opinion thereof of the Government and Commander in Chief of the Presidency to which the Officer belongs.

"28. The permitted time of absence may with the permission of the local Government, be taken at any time subject to these Regulations. If therefore at the end of twenty years service, of which some had been passed on actual duty in India, an Officer should be on Purlough or at a certificate in Europe or elsewhere he will be entitled to retire on the full pay of a Captain without returning to India, and so in the other terms of service for the higher Pensions. In like manner a Medical Officer on Purlough or at a certificate in Europe or elsewhere at the end of seventeen years service, fifteen years and four months of which had been passed on actual duty in India, will be entitled to retire on the lowest rate of Pension without returning to India; and so in the other terms of service for the higher Pensions.

G G O No. 679 of 1859 — The following G O by the Governor-General in Council dated 8th July 1859 No 995 is published —

Under instructions from the Right Honorable the Secretary of State for India, the following is substituted for G G O No 106, of 30th May 1836 —

Officers retiring in England from the service shall be considered to have retired from the date of their application for leave to retire, or from the expiration of two years and a half from the date of the commencement of their furlough whichever shall first happen

Promotions in succession to casualties by death in England shall have effect from the date of demise or from the expiration of three years absence from India, whichever shall first happen

39 These Rules do not in any way affect the existing Regulations regarding the grant of leave in India, or for short periods to sea, whether on private affairs or on medical certificate except as to the periods of such absence being taken into calculation in the time allowed to count as service for retirement on full pay

G O C 27th April 1855 — With the sanction of the Right Honorable the Governor in Council the following divisions of the Government of India on points connected with the revised New Furlough Rules, are published to the Army —

Questions

"Will all Officers (Staff and Regimental) who may proceed on leave to places in India, whether within or beyond the limits of their own Regiment be entitled to receive their Indian Allowances for a period not exceeding six months, if on private affairs and two years, if on medical certificate from the date of their quitting their respective Corps or Stations, as allowed to them under the Furlough Rules?"

"Will Officers holding Staff or other detached appointments who may so proceed on medical certificate be entitled to retain their appointments, and to receive half their Staff pay for period not exceeding two years, as under the Old Furlough Regulations?"

Will all Officers (Staff and Regimental) under the New Rules who may proceed on leave for short periods to sea, or for brief periods to certain Colonies, Mauritius, or other places out of India on private affairs be entitled to receive their Indian Allowances during their absence and if so, for what period from the date of their quitting their respective Corps or Stations?

Decisions

"It has been expressly declared in Rule 39 that the former Rules regarding the absence of Officers in India are not in any way affected by the New Regulations"

An Officer may proceed to those places and which he could have visited on leave in India prior to the publication of the New Rules and he can retain an appointment during absence for six months on private affairs and for two years on medical certificate

Officers absent for short periods to sea retain their Indian allowances the Old Rules on this subject continuing in force

G O C 17th November 1859 — Referring to the Regulations marginally noted Officers, Military and Medical, proceeding on Furlough to Europe or beyond India are warned that if there is their part to report into dated date of departure to the Officer in charge of the Adjutant General's Office at Bombay will result in the commencement of their Furlough being calculated from date of its grant in General Orders

G G O No 45th of 1862 — Permission granted to return to duty by a particular ship is equivalent to an extension of leave until the arrival of the ship in India

RULES FOR THE TRANSMISSION OF MESSAGES

I Messages are received for despatch at all hours, day and night, with exception of Sundays, Christmas Day, New Year's Day and Good Friday, when the Offices will be closed between the hours of 8 and 16h (or 4 p. m.)

II Messages tendered for transmission on ordinary days between 18h (or 6 p. m.) and 6h of the following day, and between 6h and 8h and 16h and 18h (or 4 p. m. and 6 p. m.) on the above-named Holidays will be charged double the ordinary rate.

III Messages are transmitted by Telegraph between all the Stations enumerated in the accompanying list, at the rate of sixteen words for one Rupee for each distance of 400 miles or under. 2 Rupees for all distances between 400 and 800 miles, and so on.*

IV The distances are estimated by the direct Map line and not by the actual length of wire.

V On the main line no message is ever sent for less than one Rupee.

VI For each word above 16 one anna additional is charged for each rate of distance thus for 16 words from Calcutta to Bombay (3 distances) the charge for 16 words or under is 3 Rupees. For 17 words 3 Rupees 9 annas.

VII Provision for the delivery of Messages, at the rate of two annas per mile will be charged for all distances up to 100 miles from the Telegraph Station. Fractions of a mile are charged as one unit.

VIII The names of sender and addressee are charged in the address. Initials count each as one word, and it is recommended that if the Christian name should always be spelt in full. Compound names, such as M. Naughton O'Donnell, Devals Von Meyern St. Clair count as one word provided the prefix be no more than one syllable.

IX In the address of a message the words *From To Mr M's Messrs and Co* and all ordinary *per* designations such as *Capt. Lieut. Colonel, Lord, Bishop, Rajah, Vakil, &c.* are passed free provided the designation be no more than two words, as *in Gene. Lieut. Col. Affix designations are charged for word by word.*

X From Bangalore from Mr. Bruce to Calcutta, to Lieut.-Col. Smith command 100 60th Rifles the words in italics are charged the others are sent free.

XI The names of towns from and to if Telegraph Stations, are also sent free but are charged for if not Telegraph Stations. Names of quarters or streets, or numbers of houses must be paid for. Messages addressed to large cities, such as Calcutta, Bombay and Madras should always have the residence of the addressee specified by street and number and Messages to such names as Smith, Jones, Brown &c. should have the Christian name or profession of the addressee to prevent misdelivery.

XII The day, hour and minute of the receipt of a message into a Telegraph Office for transmission is in every instance added to the time following immediately the text of the message and is telegraphed free of charge. Senders may date their messages if they think fit but the senders date will be charged for and will in view to avoid confusion if given at the end be transferred to the beginning of the text of the message.

XIII In the body of the message every word is charged. Slopes, inverted commas, and notes of interrogation are free.

XIV The accuracy of messages is not guaranteed, and the sender and receiver have to accept all risk arising from errors and delays.

XV Senders of messages are advised to use the shortest and most familiar words they can select. The more intelligible the message is, the greater is the probability of its being transmitted correctly.

XVI The accurate transmission of messages is rendered much more certain by their being repeated back from each repeating Station. This repetition is charged for at half price extra, and is advised in all messages of great importance.

XVII The errors which chiefly occur are in the numerals, such as sixteen, sixty—thirteen, thirty, owing to the sound and first three or four letters being similar. To obviate this it is recommended that in all financial or money messages the sum be given in two

* A single rate extra is charged on all messages between any station in Ceylon and the Continent of India.

forms, halving or doubling the amount, thus, "Pay to my order Rs. 500 or half 1000 When this is done an error is of very rare occurrence."

XXI Messages in cypher are transmitted at the ordinary charge but must be in numbers, and those written in full, as in a cheque, or in ordinary English words of concealed meaning. Figures are telegraphed as if written in full, as in a cheque and charged for according to the number of words thus, "Rupees fifteen hundred and sixty four count as six words."

XXII Should a message in cypher be tendered for transmission simultaneously with a message in ordinary language the latter will take precedence of the former.

XXIII All messages must be in the English language.

XXIV The name of the sender must be written on the face of every message.

XXV When a message is delivered in an unintelligible state, a refund of the cost of the portion rendered unintelligible will be made to the sender if application be made within three months of the date of despatch provided the message has not been transmitted beyond the limits of India, its dependencies, or Ceylon and within six months in the case of messages for coast sea beyond India, as Egypt or Europe. Such refunds will be made irrespective of whether the message has been paid for at repetition price or not but no refund will be given for any error in an un-repeated message arising from wrong figures being given unless the rectification advised in No. XXI of these Rules shall have been adopted. Refunds on account of messages which have not reached their destination will be made subject to the above limits as respects time.

XXVI Refunds will also be made in all cases of non-delivery or unjustifiable delay of messages whether repeated or not. By unjustifiable delay is meant that arising from neglect in the Office. When a message is detained by an interruption on any section of the line and is sent on by next post to the nearest Telegraph Station, the time occupied by the post is not allowed to count as delay in the Telegraph Department. Expresses are not started for private messages, but only for Mail News or Government despatches of great importance. But when an express is required for those purposes no antagonism is taken of the opportunity to send on all private messages on hand.

XXVII Complaints respecting errors or delays or neglect in the delivery of messages, and applications for refund should be addressed to the Director General of Telegraphs in India, Complaint Office, Calcutta. An exact copy of the message (on plain paper) and the receipt of the despatching Office should in all cases accompany the complaint.

XXVIII Private messages shall be despatched in the order of their receipt in the Telegraph Office. Should two or more messages be tendered simultaneously the shortest shall have the precedence without reference to its relative importance.

XXIX No Private message or messages of more than 200 words in all can be sent at one time by any direct line or firm and no second message by the same direct line or firm till after the lapse of three hours, unless the line be free and not required by any one else.

XXX The practice of sending messages by each line alternately where alternate lines are available as between Calcutta and Bombay has increased much dissatisfaction to the public, in consequence of messages bearing later office dates arriving by the direct line before others sent between the same places, but which have gone by the alternative line must come and in future the alternative line must be used only in the event of interruption on the direct line.

The rules here published have been acted on as respects messages between Calcutta and Bombay since the 8th of August, and the results as regards the diminution of number of complaints of unsatisfactory preference has been satisfactory. Under this arrangement it becomes necessary to define what are to be considered as the chief direct Telegraph routes throughout India. These are—

From Calcutta to Madras through Madraspoor

From Calcutta to Bombay through Agra.

From Madras to Bombay through Bangalore.

From Calcutta to Bally through Patna and Mirzapoor.

From Bombay to Lahore and Ferozpur through Hyderabad Sind.

The routes here named direct are not in every one's official use. The route from Bombay to Lahore via Hyderabad Sind, is less direct than that via Agra but it has been chosen as the route by which all messages from Bombay to Lahore or places to its north-west should be sent, in order to relieve the Lahore line which has to carry the entire of the important messages between Calcutta and Bombay.

* The word "decimal" omitted from the word "Not," causing in many cases the total change of the intended meaning of a message (the word) always signalled in slow time (slow) over by the words "slow" are back by the receiver at each station. The same precaution is taken in signalling the "slow" and "fast" words.

XXVII Messages will be forwarded by post to places not having Telegraph Stations but only in registered letters the registration fee to be paid by the sender of the message.

XXVIII Messages will be received by post from Europe or elsewhere for transmission if money be deposited beforehand at the despatching Station sufficient to pay for the transmission. Such messages should always be addressed

"To the Assistant in charge,
— Telegraph Office,"
as per margin and not to the Superintendent. This mistake often causes the letter to be sent by post to the Head Quarters of the Department. All such letters should invariably have the words *Telegraph Message for Despatch*, written conspicuous outside.

XXIX Messages so sent by post must be prepaid by Telegraph stamps and will be transmitted from the nearest Telegraph Station where the stamp will be cancelled by being written across by the Assistant in Charge.

XXX The stamped messages should be despatched marked conspicuously "*Telegraph Message*."

XXXI Adhesive Telegraph stamps will be procurable from the Civil Treasury and private vendors. They should be affixed on the face of the message so as to be inside when the message is folded up for transmission by the post. The usual postage must of course be paid in addition.

XXXII In cases of extreme pressure of business Assistants in charge of Offices may refuse to receive for despatch any messages beyond the number which experience shows may be cleared off within the day. The messages in such cases are not to be received and kept for despatch the following day but must be returned so as to prevent accumulation.

XXXIII In case of interruptions on any day Assistants in charge of Offices have the power to refuse the receipt of messages for transmission.

XXXIV When an interruption or any notice is that effect is to be postponed communication at the entrance of each Office and communicated to the Press for public information.

XXXV In every such case all persons tendering messages for places beyond the interrupted section, are to be informed of the interruption and need not leave the message and be informed that a refund will not be made in case of delay from this cause.

XXXVI The sender of a message, may prepay the charge for a reply which must be limited to the number of words previously stated.

XXXVII Messages are sent by sea from all ports where received by mail steamers or other vessels for despatch and addressed to individuals or firms or individuals but no message whether paid or bearing whether sent for transmission from an office until her name has been made known. Bearing messages will not be delivered to the addressee till a message has been received by him.

XXXVIII Assistants in charge of Telegraph Station are authorized to refuse to transmit a message which may be considered objectionable in character. Should the character of the message be disputed the matter may be referred to a Secretary to Government if the dispute occurs at the seat of a Government or to the Chief Civil Officer at a provincial station.

XXXIX To secure secrecy as much as possible all persons not actually on duty in the Signal Room whether belonging to the Telegraph Department or not and without reference to social rank in any case are strictly prohibited from entering the Signal Room. The only exception to this rule is for senders of messages who may be allowed to see their messages despatched if they attend the Office at the time of their turn for transmission.

XI Violation of secrecy on the part of any person in the Department will be punished by dismissal from the service forfeiture of salary or pay and a declaration in the official Gazette of the incapacity of the delinquent to serve the Government in any capacity. It is a violation of the law to mention the fact that any message has been received or despatched by any particular person or firm.

XII Service messages from all public functionaries must be paid for in cash prior to despatch, the rates being the same for distance and number of words as those charged to private individuals.

XIII Service messages have no right of precedence and take their turn of despatch with private messages, except in cases of pressing public emergency and importance when priority may be claimed on special grounds.

* The only exceptions to this rule are enumerated in special printed instructions issued to each Office.

XLIII The sums paid by public functionaries for the despatch of messages will be recovered from Government by the senders, in their own Departments, by contingent bills counter-signed as usual.

XLIV In certain emergent occasions of great importance the public functionaries named below have the power of "clearing the line," that is, of suspending the receipt and despatch of all other messages till the one for which the line is cleared has passed on —

The Governor General of India.

Governor of Bombay

Governor of Madras.

Governor of Ceylon.

Commandant-in-Chief India, Madras, and Bombay

Lieutenant Governors of Bengal, N. W. Provinces, and Punjab

Commissioners of Madras and Pegu and such other Commissioners Resident

Political Agents, and Military Officers, as may receive the power from the Government of India by special order

Director of Telegraphs in India.

The messages so sent are however to be paid for in cash as in ordinary cases.

XLV Under orders of Government the following order of precedence will be observed in the transmission of messages of European news received by the mail steamers at Calcutta and Bombay. Messages addressed to the Government of India, messages addressed to the Government of Bombay, Madras and Ceylon, &c. &c.

XLVI No unpaid messages, except those on the actual business of the Telegraph itself as specified in the departmental Regulations, shall on any account whatever be transmitted. A violation of this rule will subject the Signaller or Assistant in Charge of the Station the message is sent from to dismissal from the regular service.

XLVII Messages received at a station are not delivered till after the following morning, unless marked urgent or obviously of an urgent nature or addressed to the newspaper press.

As a measure of convenience, and to prevent the waste certain to ensue from message forms being issued loose, such forms will hereafter be delivered, to those requiring them, bound together in books containing 100 messages each with counterfoil. Such books will be issued on written application only to public officers free to private persons on payment of one rupee per copy. Each book will have a printed "side title" pasted on it and on the inside of the cover facing the first message will be pasted a printed abstract of each of the Rules of the Department as it imports those for whose use the books are prepared so be acquainted with. These books are now available at the various Telegraph Offices and the issue of loose message forms is absolutely prohibited.

All messages for despatch should be directed to the Assistant in Charge of the Telegraph Office, and the envelope should be marked outside "Message for Despatch." It often happens that the Message is directed to the Superintendent, Deputy Superintendent, or other Officer who may be in some distant part of the country. Even in such a case, if it bears the mark Message for Despatch it is at once opened and all is well—but without this distinguishing mark it is of course forwarded in its address, and a delay of days or even weeks may result.

Private merchants must take their own measures for having their messages composed in accordance with the Telegraph rules, as translation is not undertaken by any Officer or servant of the Department.

In future, when ascertaining the hour of the day or night in messages, the day will be considered as consisting of one cycle of 24 hours divided into two cycles of 12 hours each the hours afternoon being continued as 13, 14 and so on up to midnight or 24h, the new day commencing as 0h. Thus, fifteen minutes past 4 of the afternoon of the 12th November will be expressed as November 12d 16h 15m or more briefly November 12d 16-15h.

In all cases of messages deliverable on board vessels the charge for boat hire must be prepaid. The sums payable at Receiving Offices as boat hire for ship messages to be delivered at the undermentioned stations are as follow—Calcutta, Rs. 4; Manipalman and Vingsapman, Rs. 8; Cochin and Calicut, Rs. 12 Hooghly Point, Pambour Fortes Cochin, Bombay Goa, Surat, Vitoria, and Kutch 1 Rupee Pandicherry Rs. 1 2 6 Madras and Colombo, Rs. 1-3-6 Cocosnada, Rs. 2; Suez Rs. 2.

FOURTEENTH BOMBAY MORTUARY REPORT

BEING FOR THE YEAR BEGINNING 1ST FEBRUARY 1861

THE Returns of the past year show a somewhat higher rate of mortality than usual. Excesses of the Still-born, 15,665 deaths have occurred, viz 8,949, males, and 6,714 females. The excess of male over female deaths is unusually large, being in the ratio of 129.4 males to 100 females, while the average ratio is but 124. The fluctuations in the ratio are, however very great, and seem difficult to be accounted for even on the supposition that the difference is chiefly owing to the changes in the floating population

1. The deaths from Cholera were 1,251 about half the average number. Of these, 1,091 occurred in the two last months of the statistical year, December and January. The disease appears to have broken out first in an epidemic form among the families in the Native Infantry lines on the Esplanade, from whence it rapidly spread to the native town. Girgaon has contributed even more than its usual high proportion of victims to this terrible scourge. The low-lying districts of Kamateppura and Dhobee-talso come next in order

3 *Small-pox*, almost absent last year, has been this year excessively fatal, having carried off 1,000 persons. The average number of deaths is about 600. It raged as usual through the first six months of the year, commencing in January with 32 deaths, and ceasing or nearly so by August. With the exception of one year 1853, when there were, 1,656 deaths, no such mortality from small-pox has occurred since the registration commenced. Whatever may be the cause, there appears to be a singular regularity in the reappearance of the epidemic outbreaks of *Small-pox* the disease assuming increased activity pretty constantly every third year. The following years have been marked by a large mortality from *Small-pox*—1850, 1852, 1855, 1858, and 1861. The victims have, as usual, been chiefly children between one month and four years of age but, unlike what has been previously observed, a sudden increase in the number of deaths occurs between the ages of 14 and 21, apparently indicating in accordance with other statistics an unusual influx of adults from other parts, probably less protected by vaccination than even the inhabitants of Bombay.

4 The mortality from *Measles* was 76 only, against an average of 270, making a total of epidemic diseases of 2,927 which is rather less than the average, the excess of mortality is therefore due to diseases which are not of an epidemic character.

5 *Fever* was said to be the cause of 7,024 deaths, and *Disease of the Nervous System* of 701,—both numbers somewhat greater than usual. *Disease of the Respiratory System* was fatal to 1,032 the mean of the last 15 years being 1,828. The numbers recorded under this head have been diminishing during the last ten years. *Disease of the Digestive System* carried off 2,072, which is a large increase upon the mortality of the last three years, though not greatly in excess of the average. Under *Cachexia* and *Debility* 1,404 deaths were registered, which is still more than last year and nearly twice the average. Of these, 1,182 or 84 per cent. were children less than 15 days old.

6 To diseases of the *Circulatory System* 25 deaths are attributed in *Disease of the Urinary System* 24. *Child-bearing* and the diseases incident thereto carried off 141 females. 12 deaths from *Leprosy* are recorded. 128 from *Dropsy* and 12 from *Unknown Causes*.

7 The 4 *Last Deaths* were 269 the largest number that have yet occurred in a single year. Of these, 9 were carriage accidents, 76 died from drowning, and 21 from falls. 21 persons were suffocated by falling earth. 24 were crushed or suffocated by falling houses and 4 were killed by the fall of masses of rock,—a total of 36. a great loss of life due to preventable causes, and for which a serious responsibility rests on the owners or managers of the property.

8 The *Still-born* were 327 of which were males 214, females 123 than in every 100 females, 174 males were still-born—a large excess, yet less than that recorded last year. Of the 16,300 deaths, including the still-born 10,669 bodies were buried, 4,736 burnt, and 308 exposed to carrion birds. The place of birth of 8,148 was Bombay, of 7,982 elsewhere and of 90 it was unknown. 1,985 written reports were received, or 12 per cent. of the whole.

9 From the *Meteorological Observations* it appears that the year was in some respects exceptional. The barometric pressure varied little from the annual mean, but the mean temperature was only 74.1° against an average of 80.2°. The mean dew-point was also lower than usual, being 71.8° though the degree of saturation of the atmosphere at the recorded temperature, or the percentage of humidity was the same as usual, viz. 76 per cent. The wind blew from the sea a mean of 304 hours, i. e. three quarters of an hour more than the average, and from the land 34 hours. The rain-fall at Colaba was 76 inches on 97 days, the average being 70 inches on 99 days. The rain-fall at Byculla, which is almost always considerably in excess of that at Colaba was 106 inches of rain on 94 days. The average rain-fall at Byculla is about 85 inches. The year was in fact an unusually wet one, which partly accounts for the mean annual temperature being lower.

10. If we omit the first year of registration, 1848, as the Returns may be supposed to be then somewhat incomplete, and compare the next six years from 1849 to 1854, with the following six 1855 to 1860, we shall find that the mean annual mortality in the first period is 14,605 and in the second 15,019 an increase of only 8 per cent. But the proportion of deaths which occur in the different localities is not exactly the same. In the following districts a decided increase has taken place — *Girgaon, Kamateepoor, Mazagon Colaba, Dhobee-talan, Wadkeshwar Mahalaxmee* In the following a decrease — *Fort Market, Khastulao, Parell, Seo, Mahum, Water Division* This accords on the whole with what may be supposed to be the general movement of the population. Kamateepoor and Mazagon have been getting more and more thickly populated and also the hill districts of Wadkeshwar and Mahalaxmee. The signs of increased population in Girgaon are not so marked, and the greater mortality is probably due in great part to the increasing insalubrity of the district. On the other hand the diminished mortality in the Fort is perhaps attributable to the removal elsewhere of the residence of many whose offices are within the walls the increasing value of house-room compelling them to seek other dwellings. Efforts have been made during the last two years to improve the drainage of Kamateepoor, but there has been hitherto little effect in diminishing the mortality in fact the deaths during the past year are by far more numerous than in any previous year. The whole district lies so low being below high water mark of spring tides that the most complete system of local drainage is insufficient, without a properly constructed low level sewer into which the local drains may discharge themselves. It is to be feared that unless steps are soon taken to supply this want, this district, tenanted by a rapidly increasing population of not the cleanest habits, may become a very focus of epidemic disease. The large tannery in this neighbourhood, and the fetid open ditches which are gorged with the refuse matter apparently flowing therefrom contribute not a little to the offensive emanations which render it so unpleasant a task to pass through the district.

11. Tables are published which are capable of conveying a large amount of information in a few of these particulars. They record the yearly fluctuations in the mortality whether from epidemic or non-epidemic causes, distinguishing the caste or race, the sex, the age, the month of the year, the occupation, and the place of residence. But these are little more than naked facts. It is extremely hazardous to attempt to draw from them any but the very simplest deductions. In fact, all the important conclusions to be derived from statistics of population cannot be touched, such as — the duration of life in the several castes or races, sexes, occupations, and localities, and its variation from time to time with the altered circumstances of the place. The practical conclusions deduced from a knowledge of these latter facts would be of the highest utility in suggesting means for ameliorating the health of the crowded population of this town, and diminishing the mortality.

12. The element wanting to this end is a systematic enumeration of the population — a Census. It will be remembered that an attempt to take a census of the inhabitants of Bombay was made in the year 1849. The reported population was then 565,114 but from imperfections in the method employed and from the internal evidence furnished by the detailed results, it is believed that very little confidence can be placed in the enumeration then made. A repetition of the census on a better plan has been frequently urged by the originator of these Tables, Dr. Leish. The following passages may be adduced from previous Mortuary Reports —

Six years of the Registration of the Deaths in Bombay are now completed, and the information gathered has been duly arranged, as was proposed in anticipation of a census, which it was hoped would render the facts being accumulated truly valuable. At present these Mortuary Tables can be turned to only very limited use, and they are somewhat like what a Surveyor's system of triangulation would be without a measured base line. It is greatly to be desired that measures may be adopted to render the approaching Census of the Island correct, for it is better to be without a Return of the population than to have one so inaccurate as that of 1849. Without a legal enactment such as is had recourse to in

Britain, to render the giving the requisite information compulsory on the inhabitants, it seems almost impossible that a correct enumeration of the people can be made for without such compulsion, with a population so large as to yield 14,000 dead a year so diversified in race, and so little likely to give active aid in the work, although disposed to be passive, as this community is known to be, a very large establishment of enumerators would be required and setting aside the very heavy expense of their maintenance, it would be difficult to find a sufficient number of men available, and otherwise qualified for the work."—*From the Report for 1855.*

"The time for another Census is near and I would with due respect state, that from the utter failure of the two former attempts at an enumeration of the people, I am of opinion that it is impracticable to take a correct Census in Bombay by other means than those that are used in Britain and there does not appear to be any valid reason why a legal enactment should not be had recourse to here, to obtain from the people that information which it is for the people's good to collect, which is necessary to allow of sanitary measures being undertaken with confidence, and which the Government of every civilized country has or ought to possess. There is not among the natives of this place, as those who have local experience well know any religious objection to afford all the usual information connected with vital or Mortuary statistics, such as those at a distance are too apt to imagine may exist."—*From the Report for 1854.*

13 I cannot but adopt without reserve these statements and suggestions, and I would respectfully urge, as a preliminary measure, the passing of an Act of the Legislative Council rendering it compulsory on every householder to give the requisite information and authorizing the infliction of a penalty for the wilfully giving a false return.

14 It can scarcely admit of a doubt, that during the last twelve years the population has received a great accession the streets are more crowded the signs of commercial activity are everywhere more conspicuous, many spaces then vacant are now built over yet it is not a little remarkable in how trifling a degree the mortality has increased. The probability certainly is that in proportion to the population the health of the town is better now than it was twelve years ago. If this change is to be at all attributed to the partial improvements which have been effected in the drainage, to the establishment of dispensaries, and to a few other hygienic measures,—the most sanguine hopes may be entertained of the effects of carrying out a complete system of drainage for the whole town, such as that recently proposed and the speedy adoption of so eminently desirable a step cannot be too strongly urged. Thus completed, and the population of each district enumerated and classified, the comparative healthiness of the several districts will be at once seen, and an unfavorable return will be the immediate signal for further sanitary improvements.

15 From the advantages which this town already possesses, its favorable insular situation, its pure and invigorating sea breeze, its copious and excellent water supply and the abundance of open space for air and recreation which it now affords, and it is to be hoped may long continue to afford,—when the streets are widened, and the water supply rendered more accessible to all, and when a thorough house drainage and an effective sewerage system shall have been established,—there is no reason why Bombay should not rank among the very healthiest of tropical cities.

RULES AND REGULATIONS

FOR THE MEASUREMENT BY CALLIPERS, OF SHIPMENTS TO GREAT BRITAIN OF COTTON WOOL, HEMP AND OTHER SCREWED AND IRONED BALES, AT THE PORT OF BOMBAY

I That Callipers shall from time to time be submitted to the Secretary of the Chamber of Commerce, and, if found correct, shall be branded with a Stamp bearing the name of the Chamber to indicate the same.

II That if, from use or otherwise any Callipers should get out of order and be objected to the party objecting shall send the Callipers to the Chamber for examination and should the objection be valid, the Chamber Stamp shall be defaced by the Secretary if however, the objection is found to be groundless, the Secretary shall give a note to that effect, and the party objecting shall be bound by his decision.

III That any Callipers found incorrect, and on which the Stamp has been defaced, may be re-stamped after adjustment.

IV That no measurements shall be held good, except such as are taken by Callipers bearing the Chamber's Stamp.

V That Cotton, Hemp Wool, and other screwed Bales, shall be measured as follows, namely the greatest length to be first ascertained and then the Bale to be cut on either end, as the Shipmaster may wish, and cross measurements to be taken at top over the lashing, excluding the knots and as near the centre of the Bale as possible. That an average of 100 Bales be struck by ascertaining the actual measurement of any 10 Bales, and proportionately the Shipper selecting and measuring one half, and the Shipmaster the other half should, however any dispute or difficulty arise in the selection of Bales, either party to have the option of measuring the whole quantity.

VI That all produce subject to measurement be measured within the day on which it has been ordered to be screwed, provided the order has been given by the Shipmaster or Agents of the Vessel and that from 1st June to 15th October the same be measured at the Berths: during the remainder of the year if required on the Berber warehouse permitting. No Cotton, Wool, or other goods, to be measured, until a Custom House Pass has been obtained for the same.

VII That in the event of the Shipmaster not attending to measure at such hour as may have been appointed by him, the Agent or Agents of the Ship do empower a person to attend on his behalf, whose sanction to the measurement shall be binding upon the Shipmaster.

BAGGAGE.

The attention of PASSENGERS by the OVERLAND ROUTE to and from India, China, &c. is respectfully requested to the under-posed Regulations in reference to Baggage; much trouble and loss is occasionally caused by their neglect and the Egyptian Transit Administration will not accept any responsibility unless they are strictly complied with—

All Baggage should be addressed in French, in full, and in addition Passengers will be supplied on Board the Steamers with printed "Destination Labels," which should be affixed to all Packages, however trifling, before arrival at Alexandria or Suez.

All Baggage should be packed in Leather Portmanteaux or Trunks, with addresses in full painted on the top and end and fastened securely with case locks, padlocks and leather straps being liable to damage or removal. The Transit Administration will not be responsible for the safe conveyance of deal cases, handboxes, carpet bags, or other unsuitable and insecure Packages.

Packages containing Jewellery, Plate or other valuables, must be specially booked, and Freight paid thereon.

Packages containing Porcelain, Spices or Merchandise are liable to seizure and confiscation in Egypt, and to detention for Freight by the Agents of the Company.

First-class Passengers are allowed 336 lbs. of personal Baggage free of Freight, and Children (over three and under ten years) and Servants 168 lbs. each.

A Passenger taking a whole Cabin will be entitled to take in the Steamers, free of Freight, $\frac{1}{2}$ cwt. and a married couple, paying for reserved accommodation will be entitled to take 2 cwt.

The charge for conveyance of extra Baggage should there be room in the Vessel will be at the rate of 10s. per cwt. between Southampton, Gibraltar, Marseilles, Malta, or Alexandria; £1 per cwt. between Suez, India, China, the Mauritius, and Australia, with 5s. per cwt. for Transit expenses through Egypt.

Passengers passing through Egypt will be charged by the Transit Administration 2s. per cwt. for conveyance of Baggage through, should it exceed, for First-class Passengers 336 lbs. each and Children (over three and under ten years) and Servants 168 lbs. each. This amount is collected on board the Company's Steamers for the conveyance of Passengers.

The Company cannot engage to take any excess of Baggage over the regulated allowance unless shipped on the day before sailing and Freight paid thereon.

All Baggage must be shipped not later than noon on the day previous to sailing except Cargo of Bags or Hat Boxes.

The Insurance of Baggage can be effected on very moderate terms.

Passengers embarking at Marseilles for India, China, the Mauritius, and Australia, can have 336 lbs. of their Baggage conveyed by the Steamer from Southampton free of charge; all in excess of that weight will be charged for at the rates mentioned above.

Passengers embarking at Marseilles for Malta and Alexandria, can also have their Baggage conveyed by the Steamer from Southampton at the rate of 10s. per cwt.

Passengers outward, proceeding via Trieste, and joining the Steamers of the Peninsular and Oriental Company at Suez, and Passengers homeward who have been conveyed to Suez in the Peninsular and Oriental Company's Steamers, can ship their Baggage by the Company's steamer from Southampton to Alexandria, and vice versa, subject to the following charges, payable in advance—

For the regulated allowance of 2 cwt. 10s. per } Exclusive of the charge for transport made
For any excess over 2 cwt. 20s. per cwt. } by the Transit Administration of Egypt.

CARETAKERS OF PASSENGERS' GOODS OF A DANGEROUS NATURE.—The Company will not receive on board of their vessels any goods of a dangerous or damaging nature. If any such goods be shipped without notice the Shippers will not only be liable to the penalties imposed by Statute, but also for all damages sustained in consequence of such shipment. —(See Extract from the Merchant Shipping Act, at page 14.)

Passengers not proceeding by the Peninsular and Oriental Company's Steamers, but shipping their Baggage from Southampton, will be charged at the rate of 10s. per cwt. between Southampton and Malta or Alexandria.

N.B.—The Baggage of Passengers proceeding via Trieste must be shipped at Southampton so as to ensure its arrival at Alexandria a week in advance of the Passengers to whom

it may belong. Non-compliance with this regulation is likely to involve loss or detention of the Baggage in Egypt.

Passengers requiring information respecting their Baggage during the voyage, can obtain it by application to the Officer in charge.

Passengers who may miss any package of Baggage on arrival at their destination are recommended to apply without delay to the Company's Agent, giving full particulars in writing, when application will at once be made to the Missing Baggage Depôts at Bombay or Southampton.

Baggage can be occasionally had up from the baggage-room during the passage by application to the Officer in charge.

No Trunks or Boxes allowed in the Saloon or Cabins, but only small Portmanteaux or Carpet Bags.

NOTICE.—All Parties are requested to take notice that the Company do not hold themselves liable for detention or delay of Passengers arising from accident or from extraordinary or unavoidable circumstances, or from circumstances arising out of or connected with the employment of the Company's vessels in Her Majesty's Mail Service, and that the Company do not hold themselves liable for damage to or loss or detention of Passengers' Baggage or for any consequences arising from the restrictions of quarantine wherever imposed. In all cases in which the Company's Steamers may be placed in quarantine First-class passengers will be charged Ten Shillings, and Second-class passengers Five Shillings per diem for their maintenance on board during the detention of the Ship.

The Austrian Lloyd's Steam Packets leave Triest direct for Alexandria on the 2nd, 12th, 22nd and 30th of every month at 10 o'clock in the morning in connection with the Peninsular and Oriental Company's line of Steamers to and from Bombay and Calcutta.

The return voyage takes place from Alexandria direct to Triest, immediately after the arrival of the Bombay and Calcutta Mails and passengers from them.

Passes who engage passage in India thereby secure priority in the choice of convenient dates.

Passengers have a great choice of Routes from Triest to London, at an expense varying from £15 to £18, inclusive of Hotel Charges, &c &c.

To travellers who proceed through the Continent without unnecessary stoppages, the following is the expense of the journey from Bombay to London:—

Bombay to Rome	£7 5
Shipment of Trunks through Egypt by Rail	1
Alexandria to Triest	10
Triest to London	10

Of these expenses all except the portion from Trieste to London may be paid in Bombay. Under arrangements recently made with the Peninsular and Oriental Steam Navigation Company, such baggage as Passengers proceeding to England via Trieste may not wish to carry with them across the Continent, will be forwarded to Southampton by the A. L. S. N. Co. a Agent at Alexandria, per P. and O. Company's Steamers, at a charge of 10s. per cwt. Except there is a Plague or Cholera in Egypt, Passengers land at Trieste without detention for Quarantine.

The fares between Trieste and Alexandria are the following viz:—

1st Class £16, 2nd Class £11
Children under 10 years half fare; under 2 free.—Bath, Provisions and Wines are included in the above rates.

Baggage.—First Class passengers are allowed 300 lbs., Second Class 150 lbs., free of freight.

All heavy baggage not required for the Overland Route may be delivered to the Austrian Lloyd's Agents in London, Bona or Alexandria for shipment via Southampton.

The direct passage occupies about 4½ to 5 days and on reaching Trieste, passengers receive free pastique, provided the vessel has a clean bill of health.

An experienced surgeon on board of each vessel.

Passports are not particularly required at Alexandria and every facility is offered at Trieste by the Police and Custom house Officers.

The probable cost of a passage between Trieste and London for a First Class Passenger is as follows:—

Via Vienna, Dresden, Cologne and Ostend...	£13
“ Italy, Switzerland and Boulogne	9
And for a Second Class Passenger by the first route	9
Do. do. by the second route	7

Besides the direct communication there is an indirect line between Trieste and Alexandria once every fortnight via Smyrna and once every fortnight via Syria.

For further particulars apply on arrival at Bona, Alexandria and Trieste at the Austrian Lloyd's Office and at the Company's Agents.

GRADATION LIST
OF
THEIR MAJESTY'S COMMAND (CIVIL SERVANTS
ON THE HONORARY ESTABLISHMENT
(connected up to 30th November 1862)

[illegible]

The desire of one member is that we should appoint by the House authority wherever

The officers A C CHIA, H M P, S T, and others, of the anti-communist movement, have passed on to the other side, and the anti-communist movement is now in a state of confusion.

The letter is written by a young man who is a student at the University of Cambridge. He is writing to his friend, John, who has just returned from a trip to Italy. The letter discusses the state of affairs in Italy, particularly in Rome, and mentions the recent election of Pope Pius IX. The writer expresses his admiration for the Pope's character and his hope for peace and stability in the country.

PORT RULES, DUES, AND PILOTAGE FEES.

PORT RULES.

1 No Vessel, if above 200 Tons, entering Bombay Harbour shall run up amongst the shipping until she shall have received permission from the Master Attendant or other duly authorised person but must anchor within and to the Eastward of the Inner Floating Light and no such Vessel anchored within the Limits of the Port of Bombay shall move from one place to another within the Port between sunset and sunrise without the special permission of the Master Attendant.

2 A Vessel working out of harbour if not clear of it at sunset, must anchor. In the S W Monsoon both Anchors and Cables are to be kept clear should they be required, and the Sheet Cable to be bent to the Anchor.

3 All Vessels above 200 Tons entering or leaving the Harbour whilst a Pilot may be on board, are to fly their National Flag from the time of his boarding to the time of his leaving from the time of sunrise to sunset or before and after as long as the Flag may be visible and also every Ship will show his Number on entering the Port.

CLAUSE 2.—All Vessels above 200 Tons within the Port of Bombay shall be bound to take up such berth as may be appointed for them by the Master Attendant, the Harbour Master or their Assistants and shall change their berths or remove when required by such authority.

The berths of Coasting Craft and small Vessels to be determined under the Provisions of Sections 56 of Act I of 1842 by the Customs Authorities with the consent and approval of the Master Attendant.

CLAUSE 3.—All Vessels in the Port of Bombay shall have their Flying Jib-booms rigged on and shall when ordered by the Master Attendant rig in their Jib and Driver booms and strike their Masts or Yards and any signals made from the Dock-Yard Nearer Flagstaff directing the striking of Masts or Yards or the rigging in of Booms shall be considered to be orders, and obeyed as such.

CLAUSE 4.—Cargo Boats, full or empty shall not be allowed to swing across of any Vessel without permission, nor shall anchors be cock-billed or spare spars allowed to hang alongside or astern of any Vessel.

CLAUSE 5.—Vessels taking in or discharging ballast or any particular kind of cargo, within the Port of Bombay shall be bound to take up such berth as the Master Attendant or the Harbour Master may direct.

CLAUSE 6.—Free passages to be kept to all Piers, Jetties Landing-places Wharves Docks and Moorings and all Boats and Vessels shall be bound to move when required to clear such passages.

CLAUSE 7.—All Vessels within the Port of Bombay will move and unmoor according to the orders of the Master Attendant or the Harbour Master, and shall keep a clear Haws.

CLAUSe 8—1 On making a written application to the Master Attendant, a Vessel may be moved from any mooring or anchorage within the Harbour to any other mooring or anchorage approved by the Master Attendant on paying the rates specified in Act XXXI of 1857

STATIONARY ENGINES

These Engines require no Chimney Sh. ft. nor building wh. tever a Cast Iron Ash pit forming the sole plate, and may be set up anywhere and started at once.

The Boilers are of the most improved type, in construction consuming less fuel and generating steam more quickly than the ordinary dome variety, and tested to more than double their working pressure. Double boiler system can be supplied if desired.

These improved Engines being fully made of the best materials they may be perfectly relied on to work satisfactorily and from the self-completing they may be erected and set to work in any position in the most compact and simple manner. These improved Engines have the greatest advantage of being applicable to a variety of purposes, the small space they occupy rendering them valuable for use in any position and for use.

Engines mounted on flanged rails, also plain roadways, wheel at 10 per cent extra to the price quoted. Boilers alone with Mountings complete at half the price of Engines and Boilers.

ABOUT FIFTY OTHER AGENCIES AT UP-COUNTRY STATIONS.

SUCCESS OF THE COMPANY

In proof of this it may be mentioned that the Indian Branch alone has in less than nine years issued Policies insuring Rs 3 95 2 735 nearly Four Millions Sterling

The Directors feel it unnecessary to add one word to these figures. That this Company should in so short a time with no previous claim whatever the support of the public body and that arising from a simple statement of fact has raised itself to this position amongst the life offices of India is sufficient evidence that European residents in India fully appreciate the motives which led to the establishment of the Indian Branch of this Company as set forth in the introductory announcement contained in the original Prospectus.

SECURITY

The Capital of the ALFMY MEDICAL AND FAMILY ENDOWMENT is £500 000 subscribed by a numerous and influential body of Proprietors.

The Funds exceed £650 000 Sterling the Annual Revenue from Premiums £350 000, which is increasing at the rate of about

DATA.

The circumstances under which the Premiums for India were computed are these —

Under authority from the Court of Directors the Honorable East India Company in September 1847 the Auxiliary was permitted to examine the records of the Honorable Company with a view to the completion of a Report on the state of the Bengal Military Fund the rate of Premium for this Company has been computed from the data thereby afforded and from the Company's own subsequent experience. Other Life Assurance Companies have not enjoyed similar advantages in this respect.

THE PROFITS

Are divisible every three years a proportion equal to five per cent of the whole profits being at the option of the Assured, payable in whole or added to the Policy or applied in reduction of future Premiums.

GUARANTEE DEPARTMENT

In this department the Company guarantees the fidelity of individuals filling or about to fill, situations of trust where security is required for integrity and when a Life Assurance is combined with such Guarantee a considerable reduction is made in the premium paid for the latter.

It is a well known fact that prior to the substitution of Public Guarantees for private security, many persons of unimpaired abilities were excluded from the advantages of accidental situations, solely upon the ground of their inability to provide the required and indispensable security. Public Guarantee is therefore especially applicable to individuals thus circumstanced as the cost of the guarantee forms but a very trifling item of expense when compared with the

ADVERTISEMENTS.

great advantage thereby afforded, and the security to employers by this system of guarantee is unquestionably more complete.

In cases where private sureties are still preferred or rendered necessary by the constitution of certain public bodies, such sureties can be indemnified from all liability by the policies of this Company.

As the scale of Premium varies according to the nature of the situation and the duties to be performed, reference must be made to the Office for quotation of the Premium to be paid in each particular case.

The Company's arrangements for the extension of the Guarantee System to India are not yet matured but in the meantime proposals will be received and forwarded to London.

ASSURANCE OF DISABILITY.

The Directors of the Indian Branch have at present no authority to issue Policies on Invalidity but proposals for Assurances of this character will be received for transmission to the Company's Office in London, and the decision thereon communicated to applicants with all possible expedition.

LIFE LIFE.

The extension of the Life Assurance Department to the Parsi community is now receiving the serious attention of the London Directors. In the meantime proposals on the Life of respectable Parsis will be received, and (for the present) forwarded to the Head Office for consideration.

LOANS.

The Directors are prepared to lend on liberal terms on mortgage of property in Calcutta and on the security of Government Paper and Bank of Bengal Shares a preference being given to parties introducing Policies to the Office.

THE GENERAL ADVANTAGES

afforded by this company and not already noticed, may be briefly enumerated as follows:—

Policies issued for any amount, from Rs. 500 to Rs. 50,000.

Policies held by parties in their own lives irrevocable on any ground whatever except fraud or non-payment of the premiums, but subject to forfeiture during the period of twelve months from their date in the event of the life assured dying by his own hands or during it by the hands of others.

Assessment of Policies recorded without charge and from the date of such recording the assured are not subject to forfeiture on any ground whatever except fraud or non-payment of the due premiums.

Not admitted on the Policies in all cases where satisfactory proof is given.

Assurances may be renewed within six months of the date on which the premium became due, on an satisfactory proof of health and payment of no more than 10 per cent.

Policies on which three annual premiums have been paid purchased at a fair value.

The Assets of the assured policy will be added on the security of Policies on which all instalments of premiums have been paid.

Grants are charged on the lives of military officers holding civil appointments for the term of six years.

Immediate reduction to English rates on the assured proceeding to Europe or any other part of the world which the Directors may consider equally healthy whether for a permanent or temporary residence.

Claims paid three months after proof of death, or the Directors will receive applications to discontinue immediately after such proof is produced.

Policies may at the time of being effected, be made payable in London at the rate of Two Shillings sterling per Rupee.

ADVERTISEMENTS.

In addition to the above, the following is a summary of what are more particularly the

ADVANTAGES TO EUROPEAN RESIDENTS IN INDIA

Notwithstanding the material modifications which have been made in the terms of other Offices since this Company came into operation in India, the rates of premium will be found generally lower than those of any other Company and particularly favorable for military men.

There is no charge for Entry Money Policies or Stamps.

Premiums may be paid in one sum or by yearly half-yearly quarterly or monthly payments

Fifteen days of grace allowed for payment of premiums and in the event of death taking place during the currency of these days and before payment of the premium the Policy will be held valid and effectual and the premium deducted from the sum assured

Where the proposal is for Rs 2500 and upwards and not for a shorter period than five years the Company pays the Medical Examination fee

Persons Assured with the Company through the Indian Branch have permission to proceed to and reside in any part of the world except the west coast of Africa, without prejudice to the assurance so long as they continue to pay the original rate of premium applicable to India, stipulated in the Policies

The Company transacts generally every description of business involved in the contingencies of European Life in India

MEDICAL REFEREES REMUNERATED WITH A GOLD MONIE

in every instance whether the Risk be accepted or declined

Annuities &c granted on very favorable terms and every description of Life Insurance business transacted

THE LOW RATE OF PREMIUM CHARGED BY THIS COMPANY AS COMPARED
WITH THAT OF OTHER FIRST CLASS OFFICES IS EQUIVALENT TO AN
IMMEDIATE BONUS

Full particulars as to the Constituted Terms and Conditions of the Company together with Rules and Instructions either for Assurance Annuity Endowment or Curative will be forwarded free to a part of India on application being made to a copy of the Secretaries of the Indian Branch

AT A GENERAL MEETING OF THE SUBSCRIBERS TO THE SIXTH BOMBAY LAUDABLE SOCIETY held on the 22nd December 1858 at the Office of the Secretaries it was determined to establish a Seventh Society in succession to the Sixth which closes on the 31st instant

The Seventh Bombay Laudable Society will commence on 1st January 1859 and the following Regulations are published for general information —

REGULATIONS OF THE SEVENTH BOMBAY LAUDABLE SOCIETY

ARTICLE 1st —The object of this Association is to provide a Fund for the insurance of Lives. This Fund is to be portioned into Shares, and an individual may subscribe for a certain number of shares either on his or her own life or on the life of any other individual. In the former case the general estate of the deceased or such persons as he or she may by will or assignment have appointed shall benefit in the event of a lapse. In the latter the person who may have subscribed on the life of the deceased shall benefit to the extent of the share subscribed for unless in either case such shares be especially declared, at the time of subscription to be for the benefit of any other person or persons or be subsequently made over according to the form hereafter prescribed for the benefit of any other person or persons in which case such person or persons shall be entitled to benefit in the event of a lapse and no other.

2nd —In the case of a person subscribing on the life of another the party subscribing and not the party on whose life the subscription is made shall be considered a Member of the Society and have a voice in the management of its concerns. Co partners or other bodies of individuals may hold one or more shares jointly on any given life either for their own benefit or for that of others but in such case the parties uniting in the subscription shall not be entitled each to a separate voice in the concerns of the Society but must vote collectively or by the deputation of one of their number on all matters thereto relating.

3rd —The great principle of this Society is the equal division of its accumulated fund among the parties entitled to benefit by lapse of lives subscribed on according to the number of shares which those parties may respectively hold.

4th —The Seventh Laudable Society shall commence on the 1st January 1859 and shall close on the 31st December 1863 at mid night.

5th —Not more than four shares can be subscribed for on any one life whether those shares be held by one or more individuals.

ADVERTISEMENTS

6th — Persons shall be at liberty to subscribe for half quarter, or eighth shares, either on their own lives or on the lives of others, and in case of lapse the estate of the deceased, or the parties for whose advantage the subscription is declared to be or who may have become entitled to such advantages by will or assignment shall benefit by the fund in a like fractional proportion

7th — The following are the Rates of Subscription, to be paid half yearly on each share half quarter and eighth share according to the ages of the parties whose lives are subscribed on at the time of admission into the Society viz —

From the Age of	For a Whole Share	For a Half Share	For a Quarter Share	For one eighth of a Share.	From the Age of	For a Whole Share	For a Half Share	For a Quarter Share.	For one eighth of a Share.

8th — All persons entering the Society between the 1st January and the 30th June in the year 1859 shall pay on admission their half yearly subscription in advance or for the remaining part thereof computing the same from the date of their becoming Members until the 1st July 1859 and paying for any number of days less than a month one whole month's subscription. The subsequent half yearly subscription shall be payable on the 1st July and 1st January in each year commencing with the 1st July 1859

9th — All persons who may be admitted into the Society subsequent to the 30th June 1859 shall in the first place pay their proportion of the current half yearly subscription, to be calculated agreeably to the above rule, from the first day of the month of their admission, until the next following period of payment; and in the second place shall pay a Premium of admission, to be regulated agreeably to the following scale viz. —

ADVERTISEMENTS.

For admission during the second half of the first year of the Society	} A premium equal to 25 per cent. on one half year's subscription
During the 2nd year	50 per cent. on ditto
3rd year	75
4th year	84
5th year	80

10th — Five persons residing in Bombay shall be nominated Directors of the Seventh Laudable Society whose business it shall be to superintend and control the management of the Funds to examine the accounts to decide on all applications for admission and generally to transact the current business of the Society. The concurrent opinion of three of the five Directors shall be decisive on all matters relating to the concerns of the Society not at variance with these fundamental Regulations which can be altered only by a majority of the members residing in Bombay. No question however shall be proposed to the members at large without the concurrence of the whole of the Directors. In case of the death or removal from Bombay of any of the Directors another or others shall be chosen by a majority of the members of the Society then residing in Bombay or by a majority of such members residing in Bombay as may attend at a general meeting to be convened for that purpose. The sum of fifteen hundred Rupees annually shall be set apart from the Funds of the Society for distribution among the Directors.

11th — A meeting of the Directors of the Society shall be convened annually between the 1st of January and 30th April in each year when a Statement of the Accounts of the Society shall be laid before them by the Secretaries and no account which shall once have been submitted to and passed by the Directors at such meeting not less than three then attending shall afterwards be called in question unless for some special and manifest error to the amount of Five hundred Rupees or upwards.

12th — In the election of Directors as well as on all other questions relative to the concerns of the Society which may be proposed for the decision of the members at large a member holding four shares on any one life shall be entitled to three votes one holding three shares to two votes and one holding any number of shares less than three to one vote only. Members holding shares on different lives shall be entitled to the number of votes proportioned to the number of shares which they hold on each life.

13th — Messrs W. Nicol & Co shall officiate as Secretaries and Treasurers to the Society and shall charge a commission of five per cent on all receipts of subscriptions to be paid out of the funds of the Society and they shall charge a fee of one Company's Rupee on each Certificate of admission and one Rupee for the Register of each assignment of shares or reduction of interest.

14th — The Secretaries and Treasurers shall act in all cases according to the orders of the Directors.

15th — All applications for admission into the Society from persons residing at any of the Queen's Settlements shall be made by letter to the Secretaries and shall be accompanied by a Certificate of Health (signed by a Medical Gentleman in the Queen's Service a Member of the Royal College of Surgeons or by a Medical Gentleman to the satisfaction of the Directors) and by a Declaration made and signed by the individual on whose Life the shares are applied for such Letter Certificate and Declaration, to be according to the following forms printed copies of which may be had on application to the Secretaries, viz —

To Messrs. W. NICOL & Co
Secretaries to the Seventh
Bombay Laudable Society

GENTLEMEN

I request to be admitted to hold — Share in the Seventh Laudable Society on the Life of — for the benefit of — for which purpose the prescribed Certificate and Declaration of Health are herewith transmitted

I am Gentlemen
Your obedient Servant

Form of Certificate of Health

It is to certify that to the best of my knowledge and belief — is at this date free from any dangerous malady whatever and that, from my acquaintance with his conduct and general state of health — and also from the result of the inquiries which I have this day made of him in person, I consider him to be a good life

I further declare that the said — is unacquainted with the nature of the above Report, which I have sealed before delivering. Given under my hand this — day of — One thousand Eight hundred and —

Form of Declaration of Health

I — do solemnly and sincerely declare that I have this day presented myself for Medical examination to — Surgeon that I have truly and faithfully answered all questions put to me by him that I have not wilfully or designedly concealed any circumstance relative to my health habits or constitution, and that I am unacquainted with the contents of the Sealed Report which he has made, regarding my health to the Secretaries of the Seventh Bombay Laudable Society

I further declare that I have not, since my infancy been subject to — and that I have had the Small (or) Cow) Pox that my age does not at this time exceed — years and — months that I have been about — years and no more resident in India that my present rank, occupation or profession is that of — and that my usual place of abode is — and I make this solemn Declaration conscientiously believing the same to be true and by virtue of the provisions of an Act made and passed in the sixth Year of the Reign of His late Majesty King William the Fourth intitled an Act to repeal an Act of the present Session of Parliament intitled an Act for the more effectual abolition of Oaths and Affirmations taken and made in various departments of the State, and to substitute Decla-

rations in lieu thereof and for the more entire suppression of voluntary and extra judicial Oaths and Affidavits and to make other provisions for the abolition of unnecessary oaths

Declared to before me at _____ this _____ day of _____ 18 _____

The above Declaration must be declared to before a Magistrate or Notary Public who shall attest the same by his countersignature or if the party be residing at a Station where there is no Magistrate it may then be attested by the principal Civil or Military Officer of the Station. In case of an application for shares on the life of a Minor under fourteen years of age a Declaration to the same effect as above must be produced from the Parent, Guardian or next-of kin of the party or the person under whose protection he or she may be residing

16th — All applications for admission accompanied by the above prescribed forms of Certificate and Declaration which may be transmitted to the Secretaries shall be submitted by them to the Directors for their decision. And the Directors shall in all instances be at full liberty to reject any such application without assigning any reason to the applicant for so doing

17th — In all cases it shall rest with the Committee to judge whether with reference to the circumstances of situation and distance the interval which may have elapsed between the date of any Certificate and Declaration of Health and the time of their presentation be reasonable or otherwise and to admit or reject such Certificate and Declaration accordingly. In no case however is the party subscribing to have any claim on the Fund of the late Society in the event of his lapsing before the date of the certificate and the date on which the applicant may be admitted a Member unless where the Directors may at the instance of such applicant have originally permitted the subscription to take effect from the date of the Certificate and Declaration of Health which it shall at all times be in their discretion to do on the arrears of subscription being paid up. In the event however of a person dying between the dates of his Certificate and Declaration of Health and his admission and the Insurance on his life was not effected from the date of Certificate and Declaration the amount of premium paid for such Insurance shall be refunded

18th — No subscription on any life shall be considered as entitling the party or parties concerned to benefit by the Society until the life subscribed on shall have been approved by the Directors the amount of the first subscription and premium of admission paid and a Certificate of admission granted under the signature of the Secretaries agreeable to the form annexed to these Regulations. And if any applicant shall omit to pay the amount of such subscription and premium of admission within two months after the life subscribed on shall have been approved by the Director such applicant shall forfeit his claim to be admitted except on a fresh application accompanied by a new Certificate and Declaration of Health

19th — All subscriptions (except the first which is to be paid on admission) shall be paid within one month of the time at which they become due. If not paid within that time a penalty of two per cent on the amount of the instalment shall be added, and any Member who shall not have paid his subscription (together with the said penalty) within two months of the day on which his subscription shall have become due shall be considered to have absolutely and entirely forfeited his share or shares

20th — Any Member shall be at liberty at any time to pay up his subscription for the whole unexpired period between the time of such payment and the close of the Society or for any part thereof, and in the event of the lapse of the life subscribed on such member or his

ADVERTISEMENTS

representatives shall be entitled to receive back any part of the subscription money so paid up which would not have been due at the time of the lapse taking place, forfeiting however to the Society all interest which may have intermediately accrued thereon.

21st — No subsequent increase of shares on any life shall be allowed except on fresh application, to be again approved of by the Directors and accompanied by a Certificate and Declaration as above. The subscription on the additional shares to be according to the age of the party at the time of making the new application.

22nd — Any Member desiring to transfer his interest in any share or shares which he may hold in the Society shall be at liberty to do so by an endorsement to be written on the original Certificate, which endorsement shall not be valid until the Certificate bearing the same shall have been produced to the Secretaries and the transfer duly registered by them in a general book of registry to be kept in the office of the Society.

23rd — As often as a sum exceeding Rupees four thousand shall be collected, it shall be laid out in the purchase of Government paper Bank shares or in Loans secured by a deposit of Government paper to be granted under the control and authority of the Directors it being clearly understood that in all cases of Loan the value of the deposit shall be more than sufficient to cover the sum lent. All public securities purchased for the Society shall be respectively lent to two or more of the Directors and the interest only shall be made payable to the Secretaries and Treasurers.

24th — The person whose interest is limited by the lapse of a life in the Society shall in his application to the Secretaries in writing be accompanied by such proof of the continuance in being of his or her majority of the Directors receive annual contributions — At or after the expiration of the two year term the sum next next of the Society at the rate of one thousand rupees on a share at or after the expiration of the second year from the commencement of the Society at the rate of one thousand rupees on each share at or after the expiration of the third year from the commencement of the Society at the rate of two thousand rupees on each share — which he or she may have sold or be entitled to on the agreed life provided that in the opinion of the Directors the state of the Funds of the Society will admit of so large payments being made. Should the Directors think however that the Funds will not allow of immediate payments of these amounts then such sum or sums only shall be advanced as they may deem proper and the balance of the promised advance or advances shall be paid so soon as the Directors shall be of opinion that the Funds will safely admit of it.

25th — Arrears of subscription on or any other sum due to the Society by the holders of a share or shares on a lapsed life shall be deducted from the amount of the advance.

26th — At the expiration of the Society on the 31st December 1863 it is proposed that a new Society on a similar plan but subject to such alterations as experience may suggest, shall be immediately instituted, into which Society all Members then holding shares on unexpired lives in the Seventh Laudable Society shall be at liberty to transfer those shares without any renewed Certificate of Health in consideration of a sum of money to be paid to such new Society out of the Funds of the Seventh Laudable Society and without taking into account any proportion of the advances previously paid by the Society on account of the lapsed lives. To entitle Members of the Seventh Laudable Society to transfer the shares held by them into the ensuing or Eighth Laudable Society no regular form of application shall be neces-

ADVERTISEMENTS.

every but a Certificate of Admission into the new Society shall be immediately issued to them on the simple payment of the usual half year's subscription in advance subject however to the established penalty of two per cent in the event of the payment being delayed beyond the term of one month from the commencement of the new Society, and to the entire forfeiture of the privilege of transfer (excepting on a new application to the Directors accompanied by the regular Certificate of Health &c) if not made good within the second month from that period. The rates of subscription for members transferring their shares from the Seventh to the Eighth Laudable Society shall be according to the respective ages of the parties on whose lives the shares are held on the 1st January 1864.

27th — It is proposed to render the institution of the Laudable Society permanent by establishing a new Society in succession to each Society as it expires.

28th — Upon the transfer to the Eighth Laudable Society of any share or shares in the Seventh Laudable Society which may stand assigned, by endorsement or otherwise in the benefit of any other person or persons than the person or persons originally interested therein or upon any subsequent transfer of any share or shares so assigned from the Eighth or any succeeding Society to the Society next ensuing, such share or shares shall continue in all respects subject to the lien of the Assignee and shall be declared to stand for the benefit of such Assignee in the Certificate of Admission to be issued from the new Society.

29th — Within one month and fifteen days after its completion the Accounts of the Seventh Laudable Society shall be made up and the balance of Funds actually on hand after deducting for the new Society 12 per cent, on the amount of subscription received during the term of the Society be divided by the number of shares held on lives subscribed upon in the Society which may have lapsed between its commencement and its close and the parties entitled to benefit by such lapses shall each receive his or their proportion of the said funds according to the number of shares respectively held by them on the several lapsed lives the holders of half quarter or eighth shares divided according to those fractional proportions. The sum of Rupees 10 000 shall be considered as the maximum payable on any one lapsed share and any surplus shall be carried to the credit of the new Society.

30th — With respect to any lapses of lives in this Society which may not be ascertained on or prior to the 1st of February 1864, such lapses shall be at the risk of the next ensuing or Eighth Laudable Society and the advances of Dividends to which the parties claiming to benefit by such lapses may be entitled shall be paid out of the funds and agreeably to the Regulations of the said ensuing Society on the lapses being ascertained but it is hereby expressly provided that notice of such lapses accompanied by satisfactory proof of the same must be given to the Secretaries of the Eighth Laudable Society within one year from the expiration of the Seventh Society on the 31st December 1863 and that in the event of the party or parties interested neglecting to prefer his or their claim on account of any such lapse within the period here prescribed he or they shall entirely forfeit all right and title to any benefit whatever by reason of such lapse from the funds of the Eighth or any succeeding Society.

31st — In the event of the party insured proceeding on Field or War Service an additional half yearly subscription of Two hundred and fifty Rupees per share shall be charged from the date of his departure to continue until his return, the non payment of which in advance, will subject the holder to the forfeiture of his share.

ADVERTISEMENTS.

Any mis statement in the Declaration of Health makes the Policy void as does suicide, in cases when a person effects an Insurance on his own life (unless the Certificate be specially endorsed over for the benefit of a Creditor or Creditors and duly registered) but not so in case of Creditors effecting an Insurance on the lives of their debtors

BOMBAY TRACT AND BOOK SOCIETY.

THE Depository of this Society is situated on the verge of the Esplanade. The building was erected in 1856, by special funds contributed for the purpose by the liberality of Christian friends in this Presidency. This Society has been in existence since 1837. Its objects are letly to obtain and circulate the publications of the Religious Tract Society, London, and other suitable English publications. Andly and chieflly to prepare and circulate Christian tracts and books (composed on Evangelical principles, excluding those minor points on which Christians may conscientiously differ) and adapted to the wants of the native mind in Western India and the adjacent countries.

Upwards of 250 books and tracts in the various languages of this presidency setting forth the great truths that are essential to salvation have been prepared and published. In twelve years 1850-61 the number of copies of vernacular publications issued from the Depository amounted to 683,547.

A price is put upon the vernacular tracts, a mere trifle compared with their cost, but sufficient to ensure in most instances, their preservation. This system, carried on for many years, has been found to be far more satisfactory than the plan of gratuitous distribution.

The rent of the upper stories of the Depository building is sufficient to defray the expenses of establishment and other incidental expenses. The money contributed to the Society is all applied in the production, printing and circulating of tracts among the natives.

Supplies of English tracts for the use of soldiers and others are available. The proceeds of the small vernacular tracts, when sold by colporteurs, may be applied in payment of their salaries.

Contributors are at liberty to take tracts to the amount of one-fourth of their contributions gratis.

The publications of the Religious Tract Society are sold at first cost. The Sunday at Home, Leisure Hour, British Messenger, British Workman, and other English religious periodicals are supplied.

The stock of English publications on hand embraces books for the young, for children, for the youngest readers, for adults, the monthly volumes, educational works, picture books; children's tracts, history, biography, daily text and devotional books, standard commentaries on the Bible, sailors' servants' and factory libraries, &c. &c.

The excellent publications of the Christian Vernacular Education Society, both English and Marathi, are always on hand.

Books and tracts are to be had in the following languages: Marathi, Gujarati, Portuguese, Hindustani, Hindoo, Ooriss, Bengali, Arabic, Tamil, Telugoo, Canarese, Malayalam, also in the languages of continental Europe.

Reports and Catalogues will be cheerfully furnished to all who make application at the Depository.

GAS APPARATUS for Private Use, Factories, Towns,

STEAM ENGINES, Boilers and Castings

MR BOWER of **St Neots, Huntingdonshire**, is the manufacturer of Gas Apparatus of all dimensions. He has in stock the plant for all sizes from 20 up to 200 lights, and he will deliver an order within one month from receipt of it. Testimonials and references to a selected list of 100 out of a great number of Gas Works erected by him in England and various parts of Europe together with calculations of the cost of gas, specifications price lists, and other particulars will be forwarded on application.

With coal at 50s. per ton gas may be manufactured where 50 lights are required burning for eight or 100 for four hours per day at 8s. per 1000 cubic feet; the price of this apparatus is 135s. With 500 lights burning eight, or 1000 burning for four hours per day at 5s. 6d. per 1000 cubic feet the price of this apparatus is 640s. Delivery free in London inclusive of packing and cases. These estimates of cost of gas allow for wear and tear—five per cent. for capital and three per cent. for renewing plant when worn out. The pipe, with fittings for factory use, may be taken to cost an average of 1s. per light foot in London.

Although coal is the best material for gas making yet it may be made from cotton or other seed peat, bark wood, oil—in fact anything that will burn with a flame.

Mr Bower supplies cast iron pipe lamp columns, and brackets, wrought and composition tube meters, and gas fittings in general.

In ordering it will be well to give a plan to scale of the factory or house, showing the positions assigned for the gas works and of the lights. It is also necessary to state the longest time the lights will be burning per night.

Instructions for fixing and plans, &c. forwarded with the bills of lading.

Plans, specifications, and estimates, prepared for the lighting of towns and cities.

Mr Bower manufactures Steam Engines, vertical and horizontal, fixed and portable and executes mechanical engineering work in general equal to any house both as regards price and workmanship. Boilers—Cornish and tubular—of the best plate and pressed to a high pressure. Tanks, girders, and other wrought iron work. Castings of all kinds from drawings, and at moderate prices.

Terms.—Credit 3½ to four months by the acceptance of a first-class house in England, or 2½ per cent. discount for cash against bill of lading on presentation to a London banker.
